World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

Dirty Wars Simon Innes-Robbins, 2016-10-06 Who is the enemy This is the question most asked in modern warfare gone are the set piece conventional battles of the past Once seen as secondary to more traditional conflicts irregular warfare as modified and refashioned since the 1990s now presents a major challenge to the state and the bureaucratic institutions which have dominated the twentieth century and to the politicians and civil servants who formulate policy Twenty first century conflict is dominated by counterinsurgency operations where the enemy is almost indistinguishable from innocent civilians Battles are gunfights in jungles deserts and streets winning hearts and minds is as important as holding territory From struggles in South Africa the Philippines and Ireland to operations in Iraq Afghanistan and Chechnya this book covers the strategy and

doctrine of counterinsurgency and the factors which ensure whether such operations are successful or not Recent ignorance of central principles and the emergence of social media which has shifted the odds in favour of the insurgent have too often resulted in failure leaving governments and their security forces embedded in a hostile population immersed in costly and dangerous nation building

The Winds of History Andreas Zeman, 2023-10-24 Based on extensive archival research in six countries and intensive fieldwork the book analyzes the history of the village of Nkhlongue on the eastern Mozambican shores of Lake Malawi from the time of its formation in the 19th century to the present day The study uses Nkhlongue as a microhistorical lens to examine such diverse topics as the slave trade the spread of Islam colonization subsistence production counter insurgency decolonization civil war ecotourism and matriliney Thereby the book attempts to reflect as much as possible on the generalizability and global comparability of local findings by framing analyses in historiographical discussions that aim to go beyond the regional or national level Although the chapters of the book deal with very different topics they are united by a common interest in the social history of rural Africa in the longue dur e Contrary to persistent clich s of rural inertia in Africa the book as a whole underscores the profound changeability of social conditions and relations in Nkhlongue over the years and highlights how people s room for maneuver kept changing as a result of the Winds of History the frequent and often violent ruptures brought to the village from outside

Edgerton,2009-03-25 *Africa's Armies* traces the military history of sub Saharan Africa from the pre colonial era to the present Robert Edgerton begins this sweeping chronicle by describing the role of African armies in pre colonial times when armed forces or militias were essential to the maintenance and prosperity of their societies During the colonial era African soldiers fought with death defying courage earning such respect as warriors that they were often recruited into the colonial armies not simply to enforce colonial rule in Africa but to fight for the European homelands as well After independence swept through Africa African military men seized political power in country after country ruling dictatorially for their own benefit and for that of their kinsmen and cronies The author describes the post colonial civil wars that have devastated much of sub Saharan Africa catastrophes marked by genocide famine disease economic collapse and steadily declining life expectancy He closes by describing the role that Africa's military forces can and must play if the future is to bring better times to the continent's many peoples *Transnational Histories of Southern Africa's Liberation Movements* Jocelyn Alexander,JoAnn

McGregor,Blessing-Miles Tendi,2020-05-21 *Transnational Histories of Southern Africa's Liberation Movements* offers new perspectives on southern Africa's wars of national liberation drawing on extensive oral historical and archival research Assuming neither the primacy of nationalist loyalties as they exist today nor any single path to liberation the book unpicks any notion of a straightforward imposition of Cold War ideologies or strategic interests on liberation wars This approach adds new dimensions to the rich literatures on the Global Cold War and on solidarity movements The contributors trace the ways that ideas and practices were made adopted and circulated through time and space through a focus on African soldiers politicians and diplomats The book also asks what motivated the men and women who crossed borders to join liberation movements how Cold War influences were acted upon interpreted and used and why certain moments venues and relations took on exaggerated importance The connections among liberation movements between them and their hosts and across an extraordinarily diverse set of external actors reveal surprising exchanges and lasting legacies that have too often been obscured by the assertion of monolithic national histories Tracing an extraordinarily diverse set of interactions and exchanges *Transnational Histories of Southern Africa's Liberation Movements* will be of great interest to scholars of

Southern Africa Transnational History the Cold War and African Politics The chapters were originally published as a special issue of the Journal of Southern African Studies
