Right Back To The Beginning:

A Commentary on the Gospel of John David Pawson, 2015-06-24 John is a remarkable Gospel utterly different from the other three. It reflects the unique insights of the man who was closest to Jesus while he was on earth and is full of concern that we should not just know about what Jesus did but should also realize who he was. It reflects too John's burden: the believers in Jesus should not be side-tracked by erroneous teaching whether concerning Jesus' identity or the veracity of his claims. He wanted believers to be absolutely sure that eyewitnesses Jesus' own words and his astonishing works all point to one who was truly God come in the flesh: the living Word, the very glory of God among humanity. John's collected evidence and proof all make the most compelling testimony to Jesus' right to demand our on-going trust and obedience. **Beginnings**

Morna D. Hooker, 2010-01-01 This book is about the beginnings or prologues to the four canonical Gospels which refer to topics to be dealt with in what follows and offer guidance as to the particular way in which the author feels the rest of the book should be read. The beginnings also contain significant hints as to what the end of the story will be. *Beginnings* qualifies as a basic introduction to the contents of the Gospels and a helpful starting point for reading this literature. Using the metaphor of a key that opens the door, Morna Hooker moves sequentially through Mark, Matthew, Luke and John as respectively a dramatic key, a prophetic key, a spiritual key and a glorious key. **Spot the Difference**

Indigenous Postgraduate Education Karen Trimmer, Debra Hoven, Pigga Keskitalo, 2020-06-01. This book focuses on Indigenous participation in postgraduate education. The collaborating editors from the contexts of Australian, Canadian, and Nordic postgraduate education have brought together voices of Indigenous postgraduate students and researchers about strategies to support postgraduate education for Indigenous students globally and to promote sustainable, solution-focused and change-focused strategies to support Indigenous postgraduate students. The role of higher education institutions in meeting the needs of Indigenous students is considered by contributing scholars, including issues related to postgraduate education, pedagogies, flexible learning, and technologies. On a more fundamental level, the book provides a valuable resource by giving voice to Indigenous postgraduate students themselves, who share directly the stories of their experience, their inspirations, and difficulties in undertaking postgraduate study. This component of the book gives precedence to the issues most relevant and important to students themselves for consideration by universities and researchers. Bringing the topic and the voices of Indigenous students clearly into the public domain provides a catalyst for discussion of the issues and potential strategies to assist future Indigenous postgraduate students. This book will assist higher education providers to develop understanding of how Indigenous postgraduate students and researchers negotiate research cultures and agendas that permeate higher education from the past to ensure the experience of postgraduate students is both rich in regard to data to be collected and culturally safe in approach, what connections, gaps, and contradictions occur at the intersections.

between past models of postgraduate study and emerging theories around intercultural perspectives including the impact of cultural and linguistic differences on Indigenous students learning experiences how Indigenous students and researchers personal and professional understandings beliefs and experiences about what typifies knowledge and research or adds value to postgraduate studies are constructed shared or challenged and how higher education institutions manage the potential challenges and risks of developing pedagogies to ensure that they give voice and power to Indigenous postgraduate students
