Citizenship Peter J. Spiro, 2020 Almost everyone has citizenship and yet it has emerged as one of the most hotly contested issues of contemporary politics Even as cosmopolitan elites and human rights advocates aspire to some notion of global citizenship populism and nativism have re ignited the importance of national citizenship Either way the meaning of citizenship is changing Citizenship once represented solidarities among individuals committed to mutual support and sacrifice but as it is decoupled from national community on the ground it is becoming more a badge of privilege than a marker of equality Intense policy disagreement about whether to extend birthright citizenship to the children of unauthorized immigrants opens a window on other citizenship related developments At the same time that citizenship is harder to get for some for others it is literally available for purchase The exploding incidence of dual citizenship meanwhile is moving us away from a world in which states jealously demanded exclusive affiliation to one in which individuals can construct and maintain formal multinational identities Citizenship does not mean the same thing to everyone nor have states approached citizenship policy in lockstep Rather global trends point to a new era for citizenship as an institution In Citizenship What Everyone Needs to Know legal scholar Peter J Spiro explains citizenship through accessible terms and questions what citizenship means how you obtain citizenship and how you lose it how it has changed through history what benefits citizenship gets you and what obligations it extracts from you all in comparative perspective He addresses how citizenship status affects a person s rights and obligations what it means to be stateless the refugee crisis and whether or not countries should terminate the citizenship of terrorists He also examines alternatives to national citizenship including sub national and global citizenship and the phenomenon of investor citizenship Spiro concludes by considering whether nationalist and extremist politics will lead to a general retreat from state based forms of association and the end of citizenship as we know it Ultimately Spiro

provides historical and critical perspective to a concept that is a part of our everyday discourse providing a crucial contribution to our understanding of a central organizing principle of the modern world In From the Margins ,2006-01-01 This book focuses at the margins of adult education work and civil society Rather than focusing on active participants and active participation the objective is to scrutinize the whole adult population in terms of participation and to pay special attention to those who are so easily left out of studies concerning adult education learning at work or active participation in civil society. The aim of the book is to bring into the discussion the views of those who do not find attending adult education possible and who thus form a challenge for the promotion of active citizenship In the collection of articles researchers from various disciplines and with cross disciplinary interests in adult education and marginalisation meet and discuss with each other within and beyond their own disciplines **Acquisition and Loss of Nationality Rainer** Bauböck, Eva Ersbøll, Kees Groenendijk, Harald Waldrauch, 2006 Nationality and citizenship have been subjects of stormy policy debates in many EU countries in recent years Concerns over the integration of immigrants but also attempts to forge links with emigrants have led to changes in the laws regulating loss and acquisition of nationality and citizenship This title outlines the research conducted by a team of 30 researchers into the nationality laws and their implementation in 15 EU member states Acquisition and Loss of Nationality Volume 1 presents the results of a systematic comparative analysis It uses a novel methodology that permits a detailed comparison how nationality can be acquired or lost across all 15 countries The results show divergent trends towards liberalization in some countries and new restrictions of access to nationality in others The book examines the impact of international and European law presents statistical data on naturalization and assesses administrative practices Although the European Union has no formal competence in regulating nationality the nationality laws of member states are linked to each other via the common citizenship of the Union Member States should therefore agree on common norms for their nationality laws The book contains detailed policy recommendations based on the idea that stakeholders in the political community should be given access to nationality Studies of each country's nationality law are published separately in http www aup nl do php a show visitor book Volume 2 Additional material including detailed statistics and further comparative analyses of legal regulations of nationality is available at http www imiscoe org www imiscoe org Volume 1 2 are also available as a set http www aup nl do php a show visitor book isbn 9789053569498 l 2 click here for more information This is the most comprehensive comparative study of the legal status of nationality so far and it will become an indispensable source of reference for further research For more information see http www imiscoe org natac http www imiscoe org natac Contingent Citizenship Sandra Mantu, 2015-09-07 In Contingent citizenship Sandra Mantu examines the changing rules of citizenship deprivation in the UK France and Germany from the perspective of international and European legal standards In practice two grounds upon which loss of citizenship takes place stand out fraud in the context of fraudulent acquisition of nationality and terrorism in the context of national security Newly naturalised citizens
