## **Rights And Risks Discussion Document On Civil Liberty In Old Age:**

**Reviewing Care Management for Older People** Judith E. Phillips, Bridget Penhale, 1996 This book discusses the development and implementation of several models of care management Drawing together research to highlight the successes and the difficulties of translating the principles of care management into practice it examines this subject with particular reference to empowerment needs led assessment and multi disciplinary work From Poor Law to community care Means, Robin, Smith, Randall, 1998-09-01 Recent community care changes have raised fundamental issues about the changing role of the public voluntary and informal sectors in the provision of social care to older people They have also raised issues about the health and social care interface the extent to which services should be rationed and the respective roles of residential care and care at home From Poor Law to community care sets these debates in the context of the historical growth of welfare services from the outbreak of the Second World War through to the establishment of social services departments in 1971 Based on extensive research on primary sources such as the Public Records Office and interviews with key actors the book considers the changing perceptions of the needs of elderly people the extent to which they have been a priority for resources and the possibilities for a policy which combines respect for elderly people with an avoidance of the exploitation of relatives This is an updated second edition of The development of welfare services for elderly people first published by Croom Helm 1985 It is essential reading for practitioners and policy makers interested in gerontology policy studies community care and postgraduate students studying and training in a range of health and social care related professions **Independence and the Elderly** Malcolm J. Fisk, 2024-05-10 In the 1980s much research into the needs of the elderly was undertaken from the perspective of a sickness model a model which reinforced labels of elderly people as frail disabled dependent and economically unproductive Few studies adopted a positive attitude to ageing and elderly people Originally published in 1986 reissued here with a new preface this book helped to redress this imbalance by focusing on the theme of independence examined particularly from the perspective of current housing and social policies relating to elderly people at the time The author looks at sheltered housing in detail including discussion of alarm systems staying put schemes and residential homes The book was essential reading for academics and practitioners in the health and social welfare fields with a concern for the elderly and the ways in which they could retain a meaningful independence

**EBOOK: Older People And Community Care** Beverly Hughes, 1995-09-16 Older People and Community Care sets social and health care practice with older people firmly in the context of the new community care arrangements and the consequent organizational trends towards a market culture However it also questions the relative lack of attention given by professionals to issues of structural inequality in old age compared for example to race and gender Thus the book tackles a double agenda How can community care practice be suffused with anti ageist values and principles Addressing this question the book sets out the foundation knowledge and values which must underpin the development of anti discriminatory

community care practice and examines the implications for practitioners in terms of the essential skills and inherent dilemmas which arise. *Older People and Community Care* is essential reading for all those working with and managing services to older people and who aspire to make empowerment for older people a reality. **Risk and Ageing** C Paul Brearley, 2023-03-31 First published in 1982 *Risk and Ageing* is an exploration of practical issues involved in helping older people who are exposed to substantial risks. Paul Brearley argues that if we are to make appropriate provision for older people it is essential that policy and practice should be informed by the growing body of theory and research as well as by the pragmatic day to day experience of practitioners. The book therefore brings these perspectives together in relation to the general theme of risk analysis and management. The book includes special chapters on mental disorder and on healthcare and will be of value to workers in the health and social services in addition to a social work audience. **From Poor Law to Community Care** Means, Robin, Smith, Randall, 1998-09 Recent community care changes have raised issues about the changing role of the public and voluntary sectors in the provision of social care to elderly people. The purpose of this book is to set these debates in the context of the historical growth of welfare services from 1939 through to 1971. **Ethics and Aging** James Edward Thornton, Earl Raye Winkler, 2011-11-01 This book is an important and timely look at issues of ethics in aging. It reflects the complexity of these questions but develops them in relation to a single general theme: that of the involvement of the elderly in the design of social policy and the research which affects them. Moral problems involving the elderly are many faceted. Accurate understanding and social response demand some integration of experience, sensibility and knowledge provided by different perspectives. *Ethics and Aging* incorporates viewpoints from gerontology, philosophy, law, theology, sociology, psychology, medicine, nursing and economics. **Good Practice in Risk Assessment and Risk Management** Hazel Kemshall, 1996 This book examines the key issues and methods of risk measurement and management. A variety of social care settings are included with examples of practice. **Professional Care for the Elderly Mentally Ill** Liz Matthew, 2013-11-11 Services to older people with mental health problems have gone through radical change in recent years. Legislation has had a profound effect by dictating how care to older people is delivered both within hospital and within the community. The recent government agenda emphasizes cost effectiveness, value for money and accountability. This too is an important driving force in re-evaluating the service although not everyone would agree with many of the proposed strategies and there are clearly different views as to the appropriateness of many of the services. One thing is certain however: the move towards interdisciplinary working is here to stay. Not all change has been led by legislation and many innovations have been founded in the day to day practices in the care of older people with mental health problems. A service of course does not become integrated merely by imposing joint working on a number of professionally based disciplines and in many ways this may not be desirable. At its worst it produces duplication where people from different backgrounds are all doing the same job. This is not the intention of joint working; instead it should attempt to improve the quality of service by a

rich mix of skills and experience from a number of related disciplines      The Evolution of British Gerontology Miriam Bernard, Mo Ray, Jackie Reynolds, 2020-04-01 Half a century of UK gerontology research theory policy and practice are under the spotlight in this landmark critical review of the subject that places the country's achievements in an international context Drawing on the archives of the British Society of Gerontology and interviews with dozens of the most influential figures in the field it provides a comprehensive picture of key developments and issues and looks to the future to plot new directions in thinking This is the story of the remarkable progress of gerontology told through the eyes of those who have led it

**Ageing, Autonomy and Resources** A. Harry Lesser, 2018-12-13 First Published in 1999 Lesser collects fourteen papers to create a discourse on the practical importance in a society where the proportion of elderly people is increasing Exploring how autonomy and how it should be defined and ethically when is it right to preserve a person's autonomy and in comparison is it ever ethically right to bring elderly people's autonomy as a secondary concern is it saves them from harm      *Older*

*People in Modern Society* Anthea Tinker, 2014-10-13 *Older People in Modern Society* is an established classic text in its field and through subsequent editions its reputation and that of its author has grown In this fourth and renamed edition Anthea Tinker synthesises and discusses a wide range of literature about older people drawing from fields such as medicine

sociology and social policy and using primary source material to illustrate the text She also introduces a number of topics that have attained greater importance since publication of the third edition in 1992 for example continuing care and the abuse of older people      **Sheltered Housing for the Elderly** Alan Butler, Christine Oldman, John Greve, 2021-11-07 In the

early 1980s the ten million people of retirement age in the UK figured prominently among the disadvantaged and deprived They were heavily over represented in sub standard housing and among those in most need of support from the personal social services One form of social provision which gained rapidly in popularity in the 1960s and 1970s was sheltered housing It was seen to combine housing with care provided support while fostering independence and gave scope for flexibility and experimentation in adapting schemes to local circumstances By the late 1970s hundreds of schemes were administered and they were occupied by half a million elderly tenants Sheltered housing was called the greatest breakthrough in the housing scene since the war Extravagant expectations were aroused and sheltered housing was regarded by some as the solution to all manner of complex problems Taking the country as a whole however relatively little was known about the numbers of schemes and where they were located who owned them and how they were managed the aims and assumptions of those who provided or advocated sheltered housing how the schemes functioned and whether they achieved what they were set up to do the role experience and attitudes of wardens what kinds of people lived in sheltered housing their history and how they became tenants their assessment of the scheme and much else The Leeds study on which this book is based originally published in 1983 was the most comprehensive and detailed to have been conducted into sheltered housing It evoked widespread interest in Britain and abroad at the time It sought to answer some of the important questions about the growth

and proliferation of sheltered housing to evaluate sheltered housing from different points of view including those of tenants and to consider the scope for future development While sheltered housing is the focal topic of the book it should be viewed in the broader context of social policy administration professional practice and client experience The book describes in detail an innovatory and evolving form of social provision and in doing so illuminates the operation and impact of policy in action at several levels from the policy maker to the consumer from the organisation of policy to its object There was significant evidence from the study that many tenants were provided with a service which was not the one they sought or even needed but they were given what the agency happened to have or made available Among other topics the book examines sheltered housing as a response to or reflection of myths and prejudices about ageing It discusses whether elderly people should be compelled to move from familiar surroundings late in life and how they cope when they do move The usefulness or otherwise of alarm systems is assessed with conclusions that throw considerable doubt on their value or reliability The evolution and modifications taking place in sheltered housing are reported on and the scope for future initiatives is discussed

Social Work with Elderly People Cherry Rowlings, 2024-05-10 The care of elderly people particularly those who are frail is a major task facing society Originally published in 1981 this book considers the challenge of caring from a social work perspective It locates social work with elderly people firmly within the mainstream of social work ethics knowledge and skills and demonstrates how work with the elderly both informs and in turn is informed by an understanding of work with other client groups From an initial discussion of why social workers are often reluctant or unable to work with the problems that may be present in old age Social Work with Elderly People continues with a description of the disadvantages that often accompany old age and the problems that elderly people may experience Certain aspects of social work practice are then considered in more detail such as the pace of work the goals of intervention communication and assessment Later chapters focus on practice with elderly people in three different settings on their own in the community with their families and in residential care Issues such as the dynamics of caring and being cared for the assessment and management of dependency and risk and the preservation of individuality in spite of frailty and disability are discussed in a variety of contexts Cherry Rowlings brings to the subject her experience as a practitioner and a team leader in social services departments together with the results of the research she had recently undertaken Many of the examples illustrating practice come from social workers who had been interviewed as part of this research Social Work with Elderly People was intended for teachers on courses leading to a qualification either in social work or in social service students on basic and post qualifying courses and practitioners and supervisors of field and residential staff Other professions with a concern for the care of elderly people doctors health visitors occupational therapists and nurses will also find this book of relevance to their work

**Leaving Residential Care** Jim Black, Paul Brearley, Penny Guttridge, Dr Gwyneth Roberts, Gwyneth Roberts, 2013-07-04 Tavistock Press was established as a co operative venture between the Tavistock Institute and Routledge Kegan Paul RKP in the 1950s to produce a series of

major contributions across the social sciences This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print or are difficult to locate Published by Routledge 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library Classics from the Tavistock Press Reproduced here in facsimile this volume was originally published in 1982 and is available individually The collection is also available in a number of themed mini sets of between 5 and 13 volumes or as a complete collection *An Introduction to Social Work Theory* David Howe, 2017-03-02 Social workers need to recognize the critical role that theory plays both in the way they make sense of what is going on and in the way they order their work Such recognition clarifies practice for both the worker and the client David Howe's classic text provides a framework to help social workers develop an understanding of the theories which inescapably underpin their thoughts and actions This edition contains a new preface by the author written in 2008 in which he examines the continuing value of his framework concluding that it remains an effective tool for making sense of the profession's most current ideas The book covers a range of theoretical approaches demonstrating through examples that different theories necessarily lead to very different practices It offers a stimulating guide to social work theory which is proven to help social workers both to understand their practices and to practise in a disciplined and imaginative way

**Rights & Risk** Alison Joanna Norman, National Corporation for the Care of Old People, 1987 *Rights & Risk* Alison Norman, 1980 Effective Interviewing in Social Work and Social Care Gina Allen, Duncan Langford, 2021-02-05 Communication and especially interviewing skills are vital to all areas of social care practice Clearly structured and filled with practical examples this book provides students and practitioners with a comprehensive guide to interviewing young people and adults **Ethical Aspects of Health Care for the Elderly**, 1992-09-17 As the American population ages health care for the elderly grows in importance This bibliography overviews the most significant books and journal articles on the ethical issues related to health care for older Americans The topics covered are of interest to practitioners and the general public alike as well as to professionals from a wide range of fields The author has provided more than five hundred bibliographic citations These entries are arranged in eleven topical chapters to facilitate use by the reader Each citation is accompanied by an annotation that concisely summarizes and assesses the contents of the work The volume begins with an informative introductory essay on the ethical issues pertinent to health care for older adults The chapters that follow are devoted to broad topics such as financial considerations treatment for the terminally ill and decision making by and for the impaired elderly The work concludes with author and subject indexes that add to its utility Researchers and practitioners from all fields will find this work an indispensable guide to the wealth of literature on the ethical aspects of health care for older Americans
