Johnson,Denita Dinger,2014-03-10 Let children experience the learning power of

play Let's Play is a handbook full of child-led open-ended learning adventures. The 39 fresh fun and budget-friendly activities plus more than 225 play variations are packed with learning that helps children develop important motor, cognitive, language, and social skills. These activity starters were all tested by a slew of early childhood professionals and approved by the children they work with. Building on the early learning principles presented in the author team's first book together, *Let Them Play: An Early Learning Un-Curriculum*, they also support your transition to a play-based child-led un-curriculum. Jeff A. Johnson has more than twenty years of early childhood experience as a former child care center director and current family child care business owner. He is a popular keynote speaker, trainer, and author of six books. Denita Dinger has been a child care provider for more than ten years and is a frequent speaker at early childhood conferences focusing on the topics of hands-on and play-based learning. This is her second book. *Project Zero Frameworks for Early Childhood Education: Project Spectrum: early learning activities* Howard Gardner, David Henry Feldman, Mara Krechevsky, Jie-Qi Chen, 1998-11-13. The groundbreaking work of Harvard University psychologist Howard Gardner on multiple intelligences and Tufts University psychologist David Henry Feldman on nonuniversal development is fast becoming the standard by which children's intelligence and cognitive development is understood. In this landmark three-volume set, Mara Krechevsky and her colleagues at Project Zero make these insights available for both teachers and scholars alike. This curriculum resource provides enriching activities in a wide variety of disciplines including mechanics and construction, movement, and music.
