If the King Only Knew Lisa Jane Graham, 2000 In May 1758 a bailiff named Jean Moriceau de La Motte was arrested for carrying seditious flyers and uttering mauvais discours against Louis XV When he was questioned at the Bastille over the next several months La Motte was unequivocal in his loyalty to the king but his insistence failed to convince the police and probably hurt his case more than would have a simple admission of guilt He was sentenced to be hanged on the Place de Grève after making his amends on the steps of Notre Dame His punishment seemed severe if not unwarranted to an increasingly literate and informed Parisian populace that found censorship hard to support either theoretically or practically in the face of intellectual and cultural changes wrought by the Enlightenment By looking at the police files for cases such as La Motte s Lisa Jane Graham uncovers fascinating clues to the conflicting attitudes of eighteenth century French subjects toward royal authority Individuals like La Motte often failed to see the subversive implications of their words and protested their fidelity to the king in impassioned language The crown s inability or refusal to accommodate a wider range of political speech turned the opinions of these individuals into bitter grievances and sometimes crimes Ironically the decision to repress seditious speech not only alienated essentially loyal French men and women by marking them as opponents of monarchical authority it

strengthened their sense of their own autonomy and legitimacy as social actors The complex and surprising web of motivations lying at the heart of such loyalty as revealed in the police files Graham examines undermines some deeply rooted assumptions about the Enlightenment and its links to modernity Graham s book presents the eighteenth century as the critical historical moment for studying how the premodern virtue of loyalty gave way to new ideas and vocabularies about the relationship between individuals and government If the King Only Knew attests to the powerful emotional and ideological conflicts this difficult transition unleashed The New Cambridge Modern History ,1967 **The North-China Herald and Supreme Court and Consular Gazette** ,1910 Empires at War Francis Pike,2011-02-28 Asia with four billion people almost two thirds of the world s population a huge landmass and the fastest growing economies has in the past decade transformed the geopolitical global balance Empires at War gives a dramatic narrative account of how this Modern Asia came into being Taking the bombing of Hiroshima on 6th August 1945 as its starting point Francis Pike chronicles the modern fortunes of fourteen Asian countries The iconic figures of post World War II Asia Mao Gandhi Nehru Ho Chi Minh Kim Il Sung General MacArthur and Lord Mountbatten figure prominently but so also do a great many lesser known but pivotal figures Francis Pike weaves the dramatic events and episodes of the region the great battles between American and Soviet backed forces in Korea and Vietnam but also episodes such as Indian Partition Japan s Lost Decade Indonesia s Year of Living Dangerously and Cambodia s Killing Fields into a coherent whole which forms the essential guide to the history of modern Asia *Littell's Living Age* ,1858 *The Living Age* ,1858 The Spectator ,1879 **Littell's Living Age** Eliakim Littell,Robert S.
