Goliath's Curse Luke Kemp, 2025-09-23 A NEXT BIG IDEA CLUB S MUST READ BOOK A radical retelling of human history through the cycle of societal collapse a Cassandra like warning about the path today s oligarchs have set and a sweeping and dire vision of a world on the brink Publishers Weekly starred review Deeply sobering and strangely inspiring Read it now or your descendants will find it in the ruins Johann Hari author of *Stolen Focus* Anyone who doubts the importance of this conversation hasn't been paying attention Bill McKibben author of *Here Comes the Sun* 12 000 years ago human history changed forever when the egalitarian groups of hunter gathering humans began to settle down and organize themselves into hierarchies The few dominated the many seizing control through violence What emerged were Goliaths large societies built on a collection of hierarchies that are also terrifyingly fragile collapsing time after time across the world Today we live in a single global Goliath one that is precariously interdependent under threat from nuclear war climate change and the existential risks of AI The next collapse may be our last In *Goliath's Curse* Cambridge scholar Luke Kemp conducts a historical autopsy on our species from the earliest cities to the collapse of modern states like Somalia Drawing on historical databases and the latest discoveries in archaeology and anthropology he uncovers groundbreaking revelations More democratic societies tend to be more resilient A modern collapse is likely to be global long lasting and more dire than ever before Collapse may be invisible until after it has occurred It's possible we're living through one now Collapse has often had a more positive outcome for the general population than for the 1% All Goliaths contain the seeds of their own demise As useful for finding a way forward as it is for diagnosing our precarious present *Goliath's Curse* is a stark reminder that there are both bright and dark sides to societal collapse that it is not necessarily a reversion to chaos or a dark age and that making a more resilient world may well mean making a more just one

CORP 2011 Proceedings/Tagungsband Manfred Schrenk, Vasily V. Popovich, Peter Zeile, Illegible Will Hershini Bhana Young, 2017-03-02 In *Illegible Will* Hershini Bhana Young engages with the archive of South African and black diasporic performance to examine the absence of black women's will from that archive Young argues for that will's illegibility given the paucity of materials outlining the agency of black

historical subjects Drawing on court documents novels photographs historical records websites and descriptions of music and dance Young shows how black will can be conjured through critical imaginings done in concert with historical research She critically imagines the will of familiar subjects such as Sarah Baartman and that of obscure figures such as the eighteenth century slave Tryntjie of Madagascar who was executed in 1713 for attempting to poison her mistress She also investigates the presence of will in contemporary expressive culture such as the Miss Landmine Angola beauty pageant placing it in the long genealogy of the freak show In these capacious case studies Young situates South African performance within African diasporic circuits of meaning throughout Africa North America and South Asia demonstrating how performative engagement with archival absence can locate that which was never recorded [A Tour Of Ethical Hacking](#) Sagar Chandola,2014-10-02
