Phenomenology Dialogues And Bridges Selected Studies In Phenomenology And Existential Philosophy:

Phenomenology, Dialogues and Bridges Ronald Bruzina, Bruce W. Wilshire, 1983 Phenomenology 2005. Volume 5: Selected Essays from North America, part 2 Embree, Lester, Nenon, Thomas, 2007-01-01 **Existential-Phenomenological Perspectives in Psychology** Ronald S. Valle, Steen Halling, 2013-03-08

When I began to study psychology a half century ago it was defined as the study of behavior and experience. By the time I completed my doctorate shortly after the end of World War II the last two words were fading rapidly. In one of my first graduate classes a course in statistics the professor announced on the first day: "Whatever exists exists in some number." We dutifully wrote that into our notes and did not pause to recognize that thereby all that makes life meaningful was being consigned to oblivion. This bland restructuring perhaps more accurately destruction of the world was typical of its time. 1940 The influence of a narrow scientific attitude was already spreading throughout the learned disciplines. In the next two decades it would invade and tyrannize the social sciences, education and even philosophy. To be sure quantification is a powerful tool selectively employed but too often it has been made into an executioner's axe to deny actuality to all that does not yield to its procrustean demands. *Edmund Husserl Bibliography* Steven Spileers, 2013-03-09

This bibliography contains the publications of Husserl and the main secondary literature on Husserl from Husserl's earliest publication 1887 till today 1997. As the collection of material was concluded in June 1997 the list of publications for the year 1997 is of course incomplete. In this bibliography publications in the following languages have been included: German, English, French, Italian, Spanish, Portuguese and Dutch for both primary and secondary literature. Since this bibliography has been based primarily on the consultation of the included documents and not restricted to copying already existing bibliographies it was not possible to include publications in languages other than those mentioned. The bibliography has been constructed in the following way:

1. The list of Husserl's works and secondary literature by individual authors is preceded by a list of all edited volumes in which a text by or on Husserl is published. This list is ordered chronologically and runs from 1921 till 1997 inclusive. Edited volumes of the same year are classified according to language and this in the order mentioned above: German, English, French, etc. Edited volumes with a title in more than one language are classified according to the above order of languages; this of course concerns only the title of the edited volume, not the titles of the individual contributions. This order is maintained throughout the other parts of the bibliography.

Phenomenology Ronald Bruzina, Bruce Wilshire, 1983-06-30

The connecting of issues that have been heretofore largely kept separate is the thrust of the articles assembled here. From an article by a noted Continental thinker on the interrelation of phenomenology and pragmatism to articles on the phenomenological powers of theater, this book features such established thinkers as Paul Ricoeur, Hans Georg Gadamer, Otto Poggeler, Don Ihde, James Edie, Marjorie Grene, Eugene Gendlin, and Karl Otto Apel speaking in innovative ways. There is extensive discussion of the life and thought of Martin Heidegger, an examination of the connection between phenomenology and the thought of Meinong, and an exposition of several of Merleau

Ponty's central issues. A section of the book deals with the problems of the connections between phenomenology and the theory of natural science. This volume advances the interchange between American and Continental thinkers through novel and provocative dialogue.

The Middle Voice in Gadamer's Hermeneutics Philippe Eberhard, 2004 Revised thesis Ph.D. University of Chicago Divinity School Chicago 2002

Phenomenology Leonard Lawlor, 2014-09-03 After Husserl the study of phenomenology took off in different directions. The ambiguity inherent in phenomenology between conscious experience and structural conditions lent itself to a range of interpretations. Many existentialists developed phenomenology as conscious experience to analyse ethics and religion. Other phenomenologists developed notions of structural conditions to explore questions of science, mathematics and conceptualization. *Phenomenology: Responses and Developments* covers all the major innovators in phenomenology notably Sartre, Merleau-Ponty and the later Heidegger and the major schools and issues. The volume also shows how phenomenological thinking encounters a limit, a limit most apparent in the aesthetical and hermeneutical development of phenomenology. The volume closes with an examination of the furthering of the division between analytic and continental philosophy.

Gadamer and Hermeneutics Hugh J. Silverman, 2016-08-19 This title first published in 1991 opens with an account by Gadamer of his own life and work and their relation to the achievements of hermeneutics. Building upon the key theme of dialogue, *Gadamer and Hermeneutics* provides a series of essays either linked to Gadamer or to other major contemporary philosophers or focusing on a given Gadamerian theme. This book will be of interest to students of literary theory.

The Body in Medical Thought and Practice D. Leder, 2013-06-29 In the second half of the 20th century the body has become a central theme of intellectual debate. How should we perceive the human body? Is it best understood biologically, experientially, culturally? How do social institutions exercise power over the body and determine norms of health and behavior? The answers arrived at by phenomenologists, social theorists and feminists have radically challenged our conventional notions of the body dating back to 17th century Cartesian thought. This is the first volume to systematically explore the range of contemporary thought concerning the body and draw out its crucial implications for medicine. Its authors suggest that many of the problems often found in modern medicine—dehumanized treatment, overspecialization, neglect of the mind's healing resources—are directly traceable to medicine's outmoded concepts of the body. New and exciting alternatives are proposed by some of the foremost physicians and philosophers working in the medical humanities today.

Knowing without Thinking Z. Radman, 2012-02-14 A volume devoted explicitly to the subtle and multidimensional phenomenon of background knowing that has to be recognized as an important element of the triad: mind-body-world. The essays are inspired by seminal works on the topic by Searle and Dreyfus but also make significant contribution in bringing the discussion beyond the classical confines.

International Bibliography of Austrian Philosophy / Internationale Bibliographie zur österreichischen Philosophie, 2023-07-03

Dwelling, Place and Environment David Seamon, Robert Mugerauer, 2012-12-06 themes among the essays resurface and resonate. Though our request for essays was

broad and open ended we found that topics such as seeing authenticity interpretation wholeness care and dwelling ran as undercurrents throughout Our major hope is that each essay plays a part in revealing a larger whole of meaning which says much about a more humane relationship with places environments and the earth as our home Part I Beginnings and directions At the start we recognize the tremendous debt this volume owes to philosopher Martin Heidegger 1889 1976 whose ontological excavations into the nature of human existence and meaning provide the philosophical foundations for many of the essays particularly those in Part I of the volume Above all else Heidegger was regarded by his students and colleagues as a master teacher He not only thought deeply but was also able to show others how to think and to question Since he perhaps more than anyone else in this century provides the instruction for doing a phenomenology and hermeneutic of humanity's existential situation he is seminal for phenomenological and hermeneutical research in the environmental disciplines He presents in his writings what conventional scholarly work especially the scientific approach lacks he helps us to evoke and understand things through a method that allows them to come forth as they are he provides a new way to speak about and care for our human nature and environment **Corresponding Sense** Brook W.R. Pearson, 2021-10-01

Corresponding Sense represents a turning point in the application of hermeneutics to New Testament texts Following the example of Hans Georg Gadamer's philosophical hermeneutics Pearson treats several different problems in New Testament interpretation centred around the figure of Paul In so doing he demonstrates how a dialogical approach to the interpretation of ancient texts functions pragmatically to allow for a deeper understanding not only of individual texts but also of their siting with the larger dialectical web of the texts and contexts of the ancient world This approach developed here in connection with the New Testament also has relevance to other literature In Corresponding Sense Pearson outlines what he calls a dialectical topography the tracing of connections and disjunctions between texts and their subject matter both within and outside of the New Testament He uses both theoretical and practical discussion to demonstrate this approach showing how it functions as a new way of approaching a Paul who is a member of a much larger community than simply the Judaism of his fathers a Paul who participates in cultural narratives which extend throughout not only earliest Christianity but also into the wider thought world of the Roman Empire Journal of Phenomenological Psychology , 1984 *The Specter of Relativism* Lawrence Kennedy Schmidt, Lawrence Schmidt, 1995 Specter of Relativism addresses the timely topic of relativism from the perspective of Gadamer's hermeneutics This collection of essays explores several of the key issues in contemporary philosophy the nature of truth the model of conversation and the possibility of an ethics in postmodern conditions in the context of the work of Gadamer Although centered on Gadamer and including the first English translation of one of his essays the volume does not narrowly define or defend the approach of philosophical hermeneutics the contributors present a broad range of views in some cases championing a Gadamerian perspective in others challenging it **Ser y sentido: Hacia una fenomenología trascendental- hermeneutica** Germán Vargas Guillén, 2007 *The Narrative Path* T. Peter Kemp, David

M. Rasmussen, 1989 This book provides a perceptive analysis of the narrative turn that led Paul Ricoeur to his magisterial work *Time and Narrative* Ricoeur has for many years explored the intersections of diverse strands of European philosophy but it is his recent work that has attracted the most discussion and engendered the most debate in Europe and America The *Narrative Path* explores the roots and meaning of that work Two of the book's five essays reach back to Ricoeur's earlier work to clarify his themes Richard Kearney concentrates on the role of imagination in hermeneutics and Maria Vilella Petit explores the development of Ricoeur's concept of history from *History and Truth* to *Time and Narrative* Two essays analyze the significance of Ricoeur's reflections on metaphoric and narrative language Serge Mellinger looks at the relationship between time and poetry from the point of view of Ricoeur's discussions of the connection between time and narrative and T Peter Kemp extends Ricoeur's analysis to argue that narration is indispensable to ethics The book concludes with a reflection by Ricoeur himself on the linguistic practical and ethical dimensions of human beings and with a bibliography of Ricoeur's work in English T Peter Kemp teaches in the Department of Philosophy at the University of Copenhagen The *Narrative Path* is based on a special issue of the journal *Philosophy and Social Criticism* edited by David Rasmussen who is Professor of Philosophy at Boston College *Husserliana Dokumente* ,1999 **Archiv für Geschichte der Philosophie** ,1983 Vols 1 23 1888 1910 include Jahresberichte über sämtliche Erscheinungen auf dem Gebiete der Geschichte der Philosophie v 24 41 include section Die neuesten Erscheinungen auf dem Gebiete der Geschichte der Philosophie varies slightly Exploring the Lived World Christopher M.
