Problems of the Modern Middle East in Historical Perspective Albert Hourani, 1992 *Problems of the Middle East* Angus Hamilton, 1909 *Problems of the Middle East* Angus Hamilton, 1909 Middle East Resources, Problems and Prospects Middle East Institute (Washington, D.C.), 1954 Middle East Oil Benjamin Shwadran, 1977-01-01 Shaped by the emotional climate of the ongoing Arab Israeli conflict the controversies between the oil producing and oil consuming nations are of major international concern Shwadran outlines the progressive rise in the power of the oil producing countries and the decline in the control exercised by the concessionary foreign countries that has culminated in the almost total nationalization of the foreign oil companies Because of the highly charged atmosphere surrounding the issues and their grave importance on world politics the problems are at once highly difficult to encompass and enormously important to understand Through a myriad of facts and figures the author sees the underlying patterns with precision Often narrowly viewed as having only two sides that of oil producers and consumers the situation is reflected in this book in all its facets Seen in this totality of conflicting needs desires abilities and objectives the Middle East oil crisis takes on the contradictory and explosive nature which has affected us all Middle East Oil born of the author's years of scholarship and exposure in the field describes the problems of the past but more important it gives insight into how the problem will manifest itself in the future and provides a direction for efforts toward a final resolution Contents Introduction From the Six Day War to the End of 1970 From the Teheran 1971 Agreement to the October 1973 War The Producers Develop the Oil Industry The Transporters Nationalization and Participation The Arab Oil Embargo The Efforts of the Consuming Countries Surpluses and Recycling Solutions Bibliography Conflicts and Challenges in the Middle East Ho-Don Yan, Oscar Bajo-Rubio, Diana S. example the authors inquire into the case of Iran with a special focus on nuclear proliferation they investigate Russia with a significant emphasis on energy security Iraq is examined with a discussion on the withdrawal of occupation troops and finally the authors address the case of China with a debate on dual use technology transfer Issues in European Union and U S Foreign Policy is composed of two parts The first involves an inventive theoretical framework for understanding EU and US foreign policy The analysis extends beyond traditional approaches that seek to explain US and EU foreign policy through various dichotomies such as soft power versus hard power without overlooking the significance of such dichotomies This section further discusses how European and American scholars approach transatlantic relations in different ways The second section covers an intensive comparative analysis of EU and US foreign policy on specific issue areas Some chapters also deal with the impact of their policy divergences and convergences on transatlantic relations and NATO Nevertheless the book aims to go beyond the parochial debates of burden sharing or division of labor in transatlantic relations It focuses on and actually proposes a broader framework of cooperation and coordination for the EU and the US
