Oxford in English Literature John Dougill, 1998 As the English Athens Oxford has long been seen as central to England's intellectual life For over six centuries the city has been lauded slighted and cited in the pages of English literature While it has been hailed as the embodiment of excellence beauty and truth on the one hand it has also been attacked for its elitism insularity and traditionalism on the other Oxford in English Literature provides for the first time an overview of these literary representations ranging from Chaucer's account of medieval students to modern day detective stories set in the city The book begins with the early university possibly founded by an eighth century princess named Frideswide The volume moves on through the Middle Ages with Chaucer's clerks and Foxe's martyrs Oxford in English Literature touches on more recent centuries with Lewis Carroll and Alice in Wonderland Matthew Arnold Max Beerbohm and Evelyn Waugh and the Infamous St Oscar Following the rise of the colleges the literature becomes characterized by a sense of insulation for the closed collegiate structure led to elitism and eccentricity The notion of the university as a paradise of youth beauty and intelligence

led to the so called Oxford myth and the backlash against it after World War II The underlying argument of John Dougill s work is that the defining symbol of Oxford is not so much the dreaming spire as the college wall In Oxford literature the college is depicted as a world of its own secluded conservative and eccentric driven by its own rituals Idealized it becomes a cloistered utopia an Athenian city state a fantasy wonderland or an Arcadian idyll Exclusivity led to resentment from those on the outside as is evident in Thomas Hardy s Jude the Obscure With the advent of democratic and egalitarian values in the twentieth century the privilege and elitism of the university has come under increasing attack as has the whole notion of the English Athens Oxford in English Literature is aimed at the general reader interested in the literature and history of a very unusual town Its familiar subject and the inclusion of numerous rare and specially commissioned illustrations and photographs make this a compelling book John Dougill is Associate Professor of English Literature Ryukoku University Kyoto Japan He is an Oxford graduate and author of The Writers of English Literature

Architecture and Science-Fiction Film David T. Fortin, 2016-12-05 The home is one of our most enduring human paradoxes and is brought to light tellingly in science fiction SF writing and film However while similarities and crossovers between architecture and SF have proliferated throughout the past century the home is often overshadowed by the spectacle of otherness The study of the familiar home within the alien SF creates a unique cultural lens through which to reflect on our current architectural condition SF has always been linked with alienation however the conditions of such alienation and hence notions of home have evidently changed There is often a perceived comprehension of the familiar that atrophies the inquisitive and interpretive processes commonly activated when confronting the unfamiliar Thus by utilizing the estranging qualities of SF to look at a concept inherently linked to its perceived opposite the home a unique critical analysis with particular relevance for contemporary architecture is made possible
