**Collective Ijtihad** Hossam Sabry Othman, 2024-03-28 THE CONTEMPORARY postnormal world is posing for Muslims ever strange ethical financial and medical dilemmas for which modern jurists are expected to provide a suitable theological response Yet even with an encyclopedic knowledge of Islamic law the task facing them is daunting In the real world this level of complexity has led to chaos in fatwa issuance with many scholars voicing concern at the direction to which things are moving and calling for the process to be regulated This book critiques fatwa issuance in the modern context and calls for application of a synthesized approach using the mechanism of collective ijthihad to formulate rulings and overcome current weaknesses It carefully examines central juristic concepts and puts forward consultative ijthihad as a viable alternative to the controversial classical ijma approach which may be difficult to realize in the contemporary world The author argues that fatwas become questionable when jurists out of their depth fail to grasp concepts which only engagement with specialists can fully elucidate or give way to top down financial and or political pressure from the executives of institutions employing them Matters are compounded by the face of fatwas having undergone a radical transformation in modern times with online programs and social media often a go to source for Muslims The author exposes the world of modern fatwa pronouncements packaged supplied and broadcast in a matter of minutes under a mentality of one fatwa fits all In a bid for much needed reform he calls for a reassessment of current institutional practices contending that Muslim societies need not be vulnerable to the demands of a media driven technocratic age with rapid shifts in ethical norms but that in the interests of a healthy functioning society issue fatwas cognizant of the wider modern context specialist knowledge as well as the cultural diversity that exists in the common Ummatic identity

*The Global Resurgence of Religion and the Transformation of International Relations* S. Thomas, 2005-02-04 This book is about the global resurgence of culture and religion in international relations and how these social changes are transforming our understanding of International Relation theory and the key policy related issue areas in world politics It is evident in the on going debates over the root causes of 9 11 that there are many scholars journalists and members of the public who still believe culture and religion can be explained away by appeals to more basic economic social or political forces in society Therefore *The Global Resurgence of Religion and the Transformation of International Relations*

presents an argument for taking culture and particularly religion as social forces that are important for understanding world politics in the post Westphalian era **American Book Publishing Record** ,2004 **Transnational Fascism in the Twentieth Century** Matteo Albanese,Pablo del Hierro,2016-09-22 Developing a knowledge of the Spanish Italian connection between right wing extremist groups is crucial to any detailed understanding of the history of fascism Transnational Fascism in the Twentieth Century allows us to consider the global fascist network that built up over the course of the 20th century by exploring one of the significant links that existed within that network It distinguishes and analyses the relationship between the fascists of Spain and Italy at three interrelated levels that of the individual political organisations and the state whilst examining the world relations and contacts of both fascist factions from Buenos Aires to Washington and Berlin to Montevideo in what is a genuinely transnational history of the fascist movement Incorporating research carried out in archives around the world this book delivers key insights to further the historical study of right wing political violence in modern Europe **Encountering Islam** Richard Sudworth,2017-03-31 What do Christian Churches say Islam is What does the Church of England say Islam is And in the end what space is there for genuine engagement with Islam Richard Sudworth's unique study takes as its cue the question of political theology and brings this burgeoning area of debate into dialogue with Christian Muslim relations and Anglican ecclesiology The vexed subject of Christian Muslim Relations provides the presenting arena to explore what political theologies enable the Church of England to engage with the diverse public square of the twenty first century Each chapter concludes with an Anecdotes from the Field section setting themes from the chapter in the context of Richard Sudworth's own ministry within a Muslim majority parish **Hamas and Suicide Terrorism** Rashmi Singh,2013-01-11 This book analyses the root causes of suicide terrorism at both the elite and rank and file levels of the Hamas and also explains why this tactic has disappeared in the post 2006 period This volume adopts a multi causal multi level approach to analyse the use of suicide bombings by Hamas and its individual operatives in the Israeli Palestinian conflict It uses extensive fieldwork and on the ground interviews in order to delve beneath the surface and understand why and how suicide operations were adopted as a sustained mechanism of engagement within the Israeli Palestinian conflict Three core factors fuelled Hamas's suicide bombing campaigns First Palestinian suicide operations are a complex combination of instrumental and expressive violence adopted by both organisations and individuals to achieve political and or societal survival retaliation and competition In other words suicide bombings not only serve distinct political and strategic goals for both Hamas and its operatives but they also serve to convey a symbolic message to various audiences within Israel the Palestinian territories and around the world Second suicide operations perform a crucial role in the formation and consolidation of Palestinian national identity and are also the latest manifestation of the historically entrenched cultural norm of militant heroic martyrdom Finally Hamas's use of political Islam also facilitates the articulation justification and legitimisation of suicide operations as a modern day jihad against Israel through the means of modern interpretations and

fatwas This approach not only facilitates a much needed multifaceted holistic understanding of suicide bombings in this particular region but also yields policy relevant lessons to address extreme political violence in other parts of the world This book will be of much interest to students of Hamas terrorism Middle East politics and security studies Special Issue Religious Fundamentalism and Political Extremism Leonard Weinberg,2003 *The British National Bibliography* Arthur James Wells,2004 **Türk'e Tapmak** Onur Atalay, Onur Atalay okuru 1930 lar boyunca gen cumhuriyetin zerinde y kselece i manevi temelleri yeniden de erlendirmeye a r yor Yazar etraf nda milletin in a edilece i bir ortak anlat n n olu um s recinde s ylemlerin kavramlar n ve simgelerin sahip oldu u zg l a rl ve bunlar n o zaman n totaliter rejimleriyle nas l bir etkile im i erisinde ekillendi ini tart yor Medeniyet eskiden Tanr n n zihinlerde kaplad yeri ele ge irmi olabilir miydi Bilim kurucu kadro taraf ndan lkeyi cennete evirecek bir sihirli de nek olarak m g r lmekteydi Bilimin medeniyetin veya T rkl n mabetleri m cahitleri ehitleri hatta peygamberleri var m yd Sek ler kavramlar n ad m ad m tekrar b y lenmesi sonucu ortaya nas l bir lke panoramas kacakt T rk e Tapmak geleneksel dinin evreninden Kemalist kavramlara do ru ya anan kutsiyet nakli nin ve nihayetinde Kemalizmin bir sivil din hatta yar m kalm bir siyasal din olarak ayaklar zerinde y kseli inin anlat s Medeniyet bilim millet ve sonunda ef kavramlar n n kutsall k halesiyle nas l evrildi ini Cumhuriyet in yeni insan n n onlar vas tas yla nas l mayaland n Osmanl dan ve geleneksel inan sisteminden kopu un yaratt manevi bo luk duygusunun farkl bir tarzda nas l ikame edildi ini anlatan Atalay dinsiyaset ili kisine dair zengin kaynak kullan m ve titiz ara t rmac l yla T rkiye Cumhuriyeti nin sadece ilk y llar n de il bug n n de anlamaya y nelik yeni bir er eve neriyor Totalitarianism and Political Religions, Volume II Hans Maier,Michael Schäfer,2007-12-24 Totalitarianism and Political Religions Volume II available for the first time in English translation features contributions from leading scholars of political extremism sociology and modern history Based upon a seminal conference on political religions edited by eminent Professor Hans Maier the book seeks to define the term and explore its application to the interpretation of a wide variety of totalitarian movements in Europe in the twentieth century **Totalitarianism and Political Religions: Concepts for the comparison of dictatorships** Hans Maier,2004 **Totalitarianism and Political Religions, Volume 1** Hans Maier,2004-10-14 We are used to distinguishing the despotic regimes of the 20th century communism fascism National Socialism Maoism very precisely according to place and time origins and influences But what should we call that which they have in common On this question there has been and is still a passionate debate This book documents the first international conference on this theme a conference that took place in September of 1994 at the University of Munich The book shows how new models for understanding political history arose from the experience of modern despotic regimes Here the most important concepts totalitarianism and political religions are discussed and tested in terms of their usefulness **Facism as a Political Religion** Roger Griffin,2004 *Totalitarian movements and political religions* , **Holy Terror** Flo Conway,Jim Siegelman,2024-10-14 This classic edition of the acclaimed 1982 book with a new preface by the authors reveals how the preachers and political operatives of the

fundamentalist right mobilize millions and advance far right social and political goals      *Competing Fundamentalisms* Sathianathan Clarke, 2017-03-29 Why do certain groups and individuals seek to do harm in the name of God While studies often claim to hold the key to this frightening phenomenon they seldom account for the crucial role that religious conviction plays not just in radical Islam but also in the fundamentalist branches of the world's two other largest religions Christianity and Hinduism As the first book to examine violent extremism in all three religions together *Competing Fundamentalisms* draws on studies in sociology psychology culture and economics while focusing on the central role of religious ideas to paint a richer portrait of this potent force in modern life Clarke argues that the forces of globalization fuel the aggression of these movements to produce the competing feature of religious fundamentalisms which have more in common with their counterparts across religious lines than they do with the members of their own religions He proposes ways to deescalate religious violence in the service of peacemaking Readers will gain important insights into how violent religious fundamentalism works in the world's three largest religions and learn new strategies for promoting peace in the context of contemporary interreligious conflict      **New Political Religions, Or an Analysis of Modern Terrorism** Barry Cooper, 2005-08 While terrorism has been used throughout the ages as a weapon in political struggles there is an essential difference between groups who use these tactics for more or less rational political goals and those seeking more apocalyptic ends Cooper argues that today's terrorists have a spiritual perversity that causes them to place greater significance on killing than on exploiting political grievances He supports his assertion with an analysis of two groups that share the characteristics of a pneumopathological consciousness Anum Shinrikyo the terrorist organization that poisoned thousands of Tokyo subway riders in 1995 and Al Qaeda the group behind the infamous 9/11 killings      *Islam and the New Totalitarianism* Robert Corfe, 2016-04 The Islamic threat is possibly the most disturbing political issue of our time as it impacts on the fears of so many ordinary people The propagation of puritanical Wahabism through the oil wealth of the Gulf States ensures that its ideology is spread worldwide as the most influential force in the world today The entire thinking and life style of Muslims is dictated by religious demands to the exclusion of anything regarded as profane Such a mindset established by the Prophet Mohammed and his followers is long enshrined in tradition and remains to the present day Hence God is the single authority and his commands are interpreted through holy text alone It is the exclusion of a secular dimension with its appeal to independent reason that defines Islam as a totalitarian movement The problem in the non-Islamic world especially in Western Europe is the penetration of nation states by a proselytising religious totalitarianism on democratic societies The variety of means in attempting to achieve this and the subtlety of the methods is the subject of this book The main objection of non-Muslims to the penetration of their culture is the creation of pseudo legal structures or a state within the state e.g. their own parliament or the announcement of no-go zones or the establishment of Sharia courts with no legal authority The resistance of Muslims to the idea of integration leaves them with two alternatives only either they must create their own mini states

within the state or else they must attempt by subtler means to seize control of leading administrative institutions Muslims in Britain are engaged in both the above alternatives as witnessed by their numbers and close cooperation in both Houses of Parliament and their power in local government councils nationwide Through a sociological and objective approach that appreciates the religious priorities of Islamic people this book attempts to find a harmonious middle path to ensure a lasting concord between two contrasting civilisations
