Charitable Hatred Alexandra Walsham,2006-09-05 *Charitable Hatred* offers a challenging new perspective on religious tolerance and intolerance in early modern England Setting aside traditional models charting a linear progress from persecution to toleration it emphasizes instead the complex interplay between these two impulses in the sixteenth and seventeenth centuries Proselytizing and the Limits of Religious Pluralism in Contemporary Asia Juliana Finucane,R.

Michael Feener,2013-10-21 This volume brings together a range of critical studies that explore diverse ways in which processes of globalization pose new challenges and offer new opportunities for religious groups to propagate their beliefs in contemporary Asian contexts Proselytizing tests the limits of religious pluralism as it is a practice that exists on the border of tolerance and intolerance The practice of proselytizing presupposes not only that people are freely choosing agents and that religion itself is an issue of individual preference At the same time however it also raises fraught questions about belonging

to particular communities and heightens the moral stakes in involved in such choices In many contemporary Asian societies questions about the limits of acceptable proselytic behavior have taken on added urgency in the current era of globalization Recognizing this the studies brought together here serve to develop our understandings of current developments as it critically explores the complex ways in which contemporary contexts of religious pluralism in Asia both enable and are threatened by projects of proselytization

The keywords of the Enlightenment freedom tolerance rights equality are today heard everywhere and they are used to endorse a wide range of positions some of which are in perfect contradiction While Orwell's 1984 claims that there is one phrase in the English language that resists translation into Newspeak namely the opening lines of that key Enlightenment text the Declaration of Independence We hold these truths to be self evident that all men are created equal we also find the Wall Street Journal saying of the Iraq War that the US was fighting for the very notion of the Enlightenment It seems we are no longer sure whether these truths are self evident nor quite what they might mean today Based on the critically acclaimed Oxford Amnesty Lectures series this book brings together a number of major international figures to debate the history of freedom tolerance equality and to explore the complex legacy of the Enlightenment for human rights The lectures are published here with responses from other leading figures in the field **Sufism in the West** Jamal Malik, John
