have a criminal record and on notorious criminals who authors of bio fiction consider as writers It pursues an understanding of the formal effects of life writers struggles between championing their subjects and a deep ambivalence towards their subjects crimes The book analyses the challenge that these literary outsiders present to the mainstream French and English language traditions where many biographers assign merit to productive lives well lived The book s approach illuminates both differences in those traditions from the mid eighteenth to the twenty first century and a convergence between them evident in the experimental cum fictional devices in recent English language biography Outsider Biographies advances wide ranging new interpretations of the biographical writing on each of its seven subjects but does so in a way that invites the reader picking up the book out of a passion for just one of those subjects to follow the thread onto another and yet another
