Rise Of Historical Economics And Social Reform In Germany 1864 1894:

The Rise of Historical Economics and Social Reform in Germany, 1864-1894 Erik Grimmer-Solem, 2003 **Migration and Inequality in Germany, 1870-1913** Oliver Grant, 2005 Migration and Inequality in Germany 1870 1913 is a rigorous analysis of migration in Germany within the demographic and socio economic contexts of the period studied Focusing particularly on the rural labour market and the factors affecting it it also examines the pull factor to cities and offers more nuanced interpretations of German industrialization in the late nineteenth and early twentieth centuries Migration and Inequality in Germany 1870 1913 presents a new view of German history in the late nineteenth century Dr Grant argues that many of the problems of Imperial Germany were **Torkel Aschehoug and Norwegian Historical Economic Thought** Mathilde C. Fasting, 2014-12-01 The historical schools of economics have been neglected within the arena of economic theory since the Second World War in favour of the now dominant classical and neoclassical schools of economic thought As alternative frameworks re emerge this book offers a revaluation of the legal theorist economist and politician Torkel Aschehoug 1822 1909 and his historical empirical approach to economics a highly influential current in Norway during the last decades of the nineteenth century **The German Historical School and European Economic Thought** José Luís Cardoso, Michalis Psalidopoulos, 2015-10-30 The financial crisis of 2008 has revived interest in economic scholarship from a historical perspective The most in depth studies of the relationship between economics and history can be found in the work of the so called German Historical School GHS The influence of the GHS in the USA and Britain has been well documented but far less has been written on the rest of Europe This volume studies the interconnection between economic thought and economic policy from the mid nineteenth century to the interwar period It examines how the School s ideas spread and was interpreted in different European countries between 1850 and 1930 analysing its legacies in these countries In doing so the book is able to trace the interconnection between economic thought and economic policy adding new voices to the debate on the diffusion of ideas and flow of knowledge This book identifies issues related to topics such as nationalism and cosmopolitanism in the history of ideas and clarifies themes in policy making that are still currently debated These include monetary policy and benefits of free trade for all parties involved in international exchanges This book will be of a great interest to those who study history of economic thought economic theory and political economy **Rethinking Nineteenth-century Liberalism** Anthony Howe, Simon Morgan, 2006 Addressing the critical issues that were to bring Richard Cobden 1804 1865 to the attention of Europe s political classes this volume provides a timely reassessment of his influence on the development of nineteenth century economic thinking Focusing particularly on Cobden s advocacy of free trade and opposition to tariffs the book explores the impact of Cobdenism on the national and international stage and considers his lasting legacy to economic liberalism Offering a broad yet coherent investigation of the Cobdenite project by leading international scholars this volume provides a new and fascinating insight into one of the nineteenth century s most

important figures **National Economies** Christoph Kreutzmueller, Michael Wildt, Moshe Zimmermann, 2015-09-10 This is a book about economics and racism During World War I the liberal global economic system based on principles of free trade and most favored nation treatment and negotiated in gold parities collapsed for good The disintegration and collapse of commerce eventually led to racist cleansing expulsion and mass murder Against this background this book offers new perspectives on the racist fault lines that appeared and deepened in European economies after the end of what was regarded as the Great War At what point did people start to ostracize their neighbors economically because they thought they were of a different ethnic group Who decided who was to be excluded Where did the fault lines open Where did the boundaries lie How were they defined by law or by common practice How much extra time and money were people prepared to spend in order to do ostracize their neighbors And what did that mean for the economy and society as such The Palgrave Handbook of Workers' Participation at Plant Level Stefan Berger, Ludger Pries, Manfred Wannöffle, 2019-01-21 Comprising the study documentation and comparison of plant level workers participation around the world this volume meets the challenge of offering a global perspective on workers participation representation and models of social partnership Value chains economic life inter cultural exchange and knowledge as well as the mobility of persons and ideas increasingly cross the borders of nation states In the knowledge age the active participation of workers in organizations is crucially important for sustainable and long term growth and innovation This handbook offers lessons from historical global accounts of workers participation at plant level even as it looks forward to predict forthcoming trends in participation **The Palgrave Handbook of Political Economy** Ivano Cardinale, Roberto Scazzieri, 2018-08-16 This book is a major contribution to the study of political economy With chapters ranging from the origins of political economy to its most exciting research fields this handbook provides a reassessment of political economy as it stands today whilst boldly gesturing to where it might head in the future This handbook transcends the received dichotomy between political economy as an application of rational choice theory or as the study of the causes of societies material welfare outlining a broader field of study that encompasses those traditions This book will be essential reading for academics researchers students and anyone looking for a comprehensive reassessment of political economy **Endgame** Jamie Merchant, 2024-08-12 A new account of globalization s decline as the natural outworking of market economics Globalization as we know it is over Governments continue to embrace regressive industrial policies geopolitical tensions are rising higher and higher and resurgent far right movements are threatening the foundations of contemporary democracies In this book Jamie Merchant traces the roots of this decline beyond the oft blamed failures of the post Cold War era Instead Merchant argues that the great political and economic changes of the last decade are due not to globalization but to the long term decay of the market based economic order By historicizing this period of globalization and decline Endgame illuminates a path forward for both the global economy and international politics

Wilhelminism and Its Legacies Geoff Eley, James Retallack, 2003-05-01 What was distinctive and distinctively modern

about German society and politics in the age of Kaiser Wilhelm II In addressing this question these essays assemble cutting edge research by fourteen international scholars Based on evidence of an explicit and self confidently bourgeois formation in German public culture the contributors suggest new ways of interpreting its reformist potential and advance alternative readings of German political history before 1914 While proposing a more measured understanding of Wilhelmine Germany's extraordinarily dynamic society they also grapple with the ambivalent cross cutting nature of German modernities and reassess their impact on long term developments running through the Wilhelmine age

The Oxford Handbook of the Welfare State Daniel Béland, Kimberly J. Morgan, Herbert Obinger, Christopher Pierson, 2021-10-27 This is the comprehensively revised second edition of a volume that was welcomed at its first appearance as the most authoritative survey and critique of the welfare state yet published Its fifty one chapters have been written by acknowledged experts in the field from across Europe Australia and North America Some chapters are brand new all have been systematically revised and they are right up to date The first seven sections of the book cover the themes of Ethics History Approaches Inputs and Actors Policies Policy Outcomes and Worlds of Welfare A final chapter is devoted to the future of welfare and well being under the imperatives of climate change Every chapter is written in a way that is both comprehensive and succinct introducing the novice reader to the essentials of what is going on while providing new insights for the more experienced researcher Wherever appropriate the handbook brings the very latest empirical evidence to bear It is a book that is thoroughly comparative in every way The Oxford Handbook of the Welfare State second edition is a comprehensible and comprehensive survey of everything that it is important to know about the welfare state in these troubled times It is an indispensable source for everyone who wants to know what is really going on now and what is likely to happen next

A History of Economic Theory and Method Robert B. Ekelund, Jr., Robert F. Hébert, 2006-11-27 Economics as intellectual discourse is not a settled body of principles it is a heterogeneous discipline with numerous traditions each based on a cluster of theories Ekelund and Hébert experienced researchers and educators balance continuity and consensus in the evolution of economic theory with alternative points of view about the nature scope and method of economic inquiry Their creative approach gives readers a feel for the thought processes of the great minds in economics and underscores key ideas impacting contemporary thought and practice Building on the solid foundation of previous editions the fifth edition of A History of Economic Theory and Method presents an updated and expanded examination of the essential theoretical elements of an economy and the numerous institutions that affect market behavior beginning with the ancient Greeks and ending with the late twentieth century It features an in depth interpretation of the transition from classical to neoclassical economic thought exposes some of the dissident voices raised against classical economic orthodoxy discusses game theory takes a close look at the origins of traditional microeconomics avoids highly technical or graphically complicated material and examines the advantages and disadvantages of economics achieving a scientific status applying mathematical and statistical

techniques in economic inquiry Chapters contain boxed material that enrich touchstone ideas or mark procedural disagreements and alternative approaches to economics *The Max Weber Dictionary* Richard Swedberg, Ola Agevall, 2016-09-07 Max Weber is one of the world's most important social scientists but he is also one of the most notoriously difficult to understand This revised updated and expanded edition of *The Max Weber Dictionary* reflects up to the moment threads of inquiry and introduces the most recent translations and references Additionally the authors include new entries designed to help researchers use Weber's ideas in their own work they illuminate how Weber himself thought theorizing should occur and how he went about constructing a theory More than an elementary dictionary however this work makes a contribution to the general culture and legacy of Weber's work In addition to entries on broad topics like religion law and the West the completed German definitive edition of Weber's work *Max Weber Gesamtausgabe* necessitated a wealth of new entries and added information on topics like pragmatism and race and racism Every entry in the dictionary delves into Weber scholarship and acts as a point of departure for discussion and research As such this book will be an invaluable resource to general readers students and scholars alike **Ordoliberalism and European Economic Policy** Malte Dold, Tim Krieger, 2019-09-18 This volume takes a broad perspective on the recent debate on the role of German ordoliberalism in shaping European economic policy before and after the eurozone crisis It shows how ordoliberal scholars explain the institutional origins of the eurozone crisis and presents creative policy proposals for the future of the European economy Ordoliberal discourse both attempts to offer political solutions to socioeconomic challenges and to find an ideal market order that fosters individual freedom and social cohesion This tension between *realpolitik* and economic utopia reflects the wider debate on how far economic theory shapes and is shaped by historical contingencies and institutions The volume will be of interest to policymakers as well as research scholars and graduate students from various disciplines ranging from economics to political science history and philosophy **Maurice Dobb** T. Shenk, 2013-12-17 This book explores the life of the man whom even his critics acknowledged was one of the world's most significant Communist economists From his outpost at the University of Cambridge where he was a protégé of John Maynard Keynes and mentor to students Dobb made himself into one of British communism's premier intellectuals *A New Economic Theory of Public Support for the Arts* Arnaldo Barone, 2015-12-14 Should the arts receive public support Can the arts survive in a modern capitalist society Can economics shed light on the nature of public support and whether there is a rationale for public intervention This book undertakes to examine these questions as it explores the ways government and public resources are used to support the arts This book applies a Veblenian approach to understanding economic development to investigate public support for the arts in an effort to determine whether this approach can elucidate economic rationales for public support Divided into three parts the first provides basic information on public support for the arts by surveying support in the United States and Australia Part two includes a neoclassical overview of the topic while part three presents Veblen's ideas on

economic development This book will be of interests to researchers concerned with cultural and institutional economics as well as political economy **Capitalism as Hassliebe: Werner Sombart (1863-1941)** Henryk Szlajfer, 2025-07-24 Werner Sombart seen both as a path breaking innovative economic historian who invented the concept of the Sp tkapitalismus Late Capitalism and the follower for some time of Hitler s National Socialism is still a forgotten major figure in German social science As the author of a widely known exposition on socialism and social movements trade unions the monumental Der moderne Kapitalismus and a controversial monograph on the role of the Jews in the birth of capitalism he is shown in this book in the broader context of the disputes in the first decades of the 20th century involving Marxists German Jews and his friend Max Weber

The Emergence of Capitalism in Early America Christopher W. Calvo, 2023-10-10 Due to the enormous influence of Adam Smith s The Wealth of Nations on Western liberal economics a tradition closely linked to the United States many scholars assume that early American economists were committed to Smith s ideas of free trade and small government Debunking this belief Christopher W Calvo provides a comprehensive history of the nation s economic thought from 1790 to 1860 tracing the development of a uniquely American understanding of capitalism The Emergence of Capitalism in Early America shows how American economists challenged adjusted and adopted the ideas of European thinkers such as Adam Smith David Ricardo and Thomas Malthus to suit their particular interests Calvo not only explains the divisions between American free trade and the version put forward by Smith but he also discusses the sharp differences between northern and southern liberal economists Emergent capitalism fostered a dynamic discourse in early America including a homegrown version of socialism burgeoning in antebellum industrial quarters as well as a reactionary brand of conservative economic thought circulating on slave plantations across the Old South This volume also traces the origins and rise of nineteenth century protectionism a system that Calvo views as the most authentic expression of American political economy Finally Calvo examines early Americans awkward relationship with capitalism s most complex institution finance Grounded in the economic debates Atlantic conversations political milieu and material realities of the antebellum era this book demonstrates that American thinkers fused different economic models assumptions and interests into a unique hybrid capitalist system that shaped the trajectory of the nation s economy

Europe 1850-1914 Jonathan Sperber, 2014-01-14 This innovative survey of European history from the middle of the nineteenth century to the outbreak of the First World War tells the story of an era of outward tranquillity that was also a period of economic growth social transformation political contention and scientific and artistic innovation During these years the foundations of our present urban industrial society were laid the five Great Powers vied in peaceful and violent fashion for dominance in Europe and throughout the world and the darker forces that were to dominate the twentieth century violent nationalism totalitarianism racism ethnic cleansing began to make themselves felt Jonathan Sperber sets out developments in this period across the entire European continent from the Atlantic to the Urals from the Baltic to the Mediterranean To help students of European history grasp the main

dynamics of the period he divides the book into three overlapping sections covering the periods from 1850-75, 1871-95 and 1890-1914. In each period he identifies developments and tendencies that were common in varying degrees to the whole of Europe while also pointing the unique qualities of specific regions and individual countries. Throughout his argument is supported by illustrative material, tables, charts, case studies and other explanatory features and there is a detailed bibliography to help students to explore further in those areas that interest them.

A Cultural History of Ideas in the Age of Empire James H. Johnson, 2025-05-15 PRAISE FOR A CULTURAL HISTORY OF IDEAS VOLUMES 1-6 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE 2023 AAP PROSE AWARDS WINNER BEST HUMANITIES REFERENCE WORK

Few major European writers of the nineteenth century addressed the topic of empire explicitly but its components are present throughout their work in science and religion, literature and the arts and philosophy, politics and economics. This volume in the award-winning 6-volume set *A Cultural History of Ideas* encompassing the period between the French Revolution and the First World War offers a comprehensive account of nine central domains of thought in the long nineteenth century or age of empire. Employing recent approaches in cultural history, scholars from a variety of fields revisit well-known works and present less familiar figures to assess the origins and impact of ideas in their national and global contexts. Taken together, these chapters share large themes that define this most consequential period in European history, including the status and reach of speculative reason, the changing roles of science and religion in public life, the emergence of modern selfhood and the cultural and political effects of mass democracy. The 6-volume set *A Cultural History of Ideas* is part of *The Cultural Histories Series*. Titles are available in print for individuals or for libraries needing just one subject or preferring a tangible reference for their shelves or as part of a fully searchable digital library. The digital product is available to institutions by annual subscription or on perpetual access via www.bloomsburyculturalhistory.com. Individual volumes for academics and researchers interested in specific historical periods are also available in print or digitally via www.bloomsburycollections.com.
