Risk Taking And Decision Making:

Risk Taking and Decision Making, 1998-02 Risks are an integral part of complex high stakes decisions and decisionmakers are faced with the unavoidable tasks of assessing risks and forming risk preferences This is true for all decision domains including financial environmental and foreign policy domains among others How well decisionmakers deal with risk affects to a considerable extent the quality of their decisions This book provides the most comprehensive analysis available of the elements that influence risk judgments and preferences The book has two dimensions theoretical and comparative historical The study of risk taking behavior has been dominated by the rational choice approach Instead the author adopts a socio cognitive approach involving a multivariate theory integrating contextual cognitive motivational and personality factors that affect an individual decisionmaker's judgment and preferences the social interaction and structural effects of the decisionmaking group and its organizational setting and the role of cultural societal values and norms that sanction or discourage risk taking behavior The book's theoretical approach is applied and tested in five historical case studies of foreign military interventions The richly detailed empirical data on the case studies make them metaphorically speaking an ideal laboratory for applying a process tracing approach in studying judgment and decision processes at varying risk levels The case studies analyzed are U S interventions in Grenada in 1983 and Panama in 1989 both low risk Soviet intervention in Czechoslovakia in 1968 moderate risk U S intervention in Vietnam in 1964-68 high risk and Israel's intervention in Lebanon in 1982-83 high risk

Risk assessment and risk management in regulatory decision-making United States. Presidential/Congressional Commission on Risk Assessment and Risk Management, 1997

Overconfidence and Risk Taking in Foreign Policy Decision Making Imran Demir, 2017-03-24 This book introduces a new perspective on risk seeking behaviour developing a framework based on various cognitive theories and applying it to the specific case study of Turkey's foreign policy toward Syria The author examines why policy makers commit themselves to policies that they do not have the capacity to deliver and develops an alternative theoretical model to prospect theory in explaining risk taking behaviour based on the concept of overconfidence The volume suggests that overconfident individuals exhibit risk seeking behaviour that contradicts the risk averse behaviour of individuals in the domain of gain as predicted by prospect theory Using a set of testable hypotheses deduced from the model it presents an empirical investigation of the causes behind Turkish decision makers' unprecedented

level of risk taking toward the uprising in Syria and the consequences of this policy *Adaptive Security and Cyber Assurance for Risk-Based Decision Making* Brooks, Tyson T., 2023-03-13 Cyber professionals recognize that some defensive measures could exacerbate cyber defense challenges by motivating attackers to adapt unintentionally inspiring attackers to develop more potent and resilient capabilities Further study in this area is required to ensure defense and security practices are up to date Adaptive Security and Cyber Assurance for Risk Based Decision Making explores decision making in the context of software based systems and discusses why it is difficult to achieve It also identifies a discipline termed cyber assurance which considers the interactions of assurance enhancing technology system architecture and the development life cycle Covering key topics such as cyber assurance security and defensive operations this premier reference source is ideal for industry professionals computer scientists academicians engineers researchers scholars practitioners librarians instructors and students Risk Taking Herbert S. Kindler, 1990 Risk is everywhere and often avoiding one risk backs us into another The issue for people in organizations is not whether to take risks but how to take reasonable risks The first edition of this book presented a systematic way of evaluating risks and a three step process for making decisions in risky situations The revision looks at the anatomy of decisions in a new way and integrates new studies and information developed over the 8 years since the original publication *Corporate Decision-Making with Macroeconomic Uncertainty* Lars Oxelheim, Clas Wihlborg, 2008-09-26 Macroeconomic turbulence and volatility in financial markets can fatally affect firm s performance Very few firms make serious attempts to inform market participants and other outsider stakeholders about the impact of macroeconomic fluctuations manifested as changes in exchange rates interest rates inflation rates and stock market returns on performance These stakeholders as well as financial analysts must make their own assessments but they generally lack both the required tools and the information to do so Worse top management in most firms do not themselves possess the tools to identify whether a change in performance represents a change in the firm s intrinsic competitiveness or a reflection of macroeconomic conditions outside their influence Corporate Decision Making with Macroeconomic Uncertainty Performance and Risk Management develops and presents in an easily comprehensible way the essential elements of a corporate strategy for managing uncertainty in the macroeconomic environment This Macroeconomic Uncertainty Strategy or MUST enhances firm value by allowing management and external stakeholders to become better informed about the development of corporate competitiveness in a turbulent macroeconomic environment The MUST also provides guidelines for how to develop a successful risk management program This research based book includes methods to identify the impact of macroeconomic fluctuations on cash flows and value to develop strategies for macroeconomic risk management to provide informative reports to external stakeholders to evaluate the relative performance of subsidiaries and business units in multinational companies and to evaluate performance for purposes of setting executive compensation and of fulfilling the due diligence requirements in an M A context The authors use of value based management various performance measurements

the concept of real options and risk management from the perspective of shareholder wealth maximization makes the book rich and compelling. They address researchers and students in the field of international business finance and corporate governance. On the business side, executives with strategic responsibilities, chief financial officers and bankers who analyze corporate performance and give advice on risk management will benefit from reading this book.

Decision Making under Uncertainty Kerstin Preuschoff, Peter N. C. Mohr, Ming Hsu, 2015-06-16. Most decisions in life are based on incomplete information and have uncertain consequences. To successfully cope with real life situations, the nervous system has to estimate, represent and eventually resolve uncertainty at various levels. A common tradeoff in such decisions involves those between the magnitude of the expected rewards and the uncertainty of obtaining the rewards. For instance, a decision maker may choose to forgo the high expected rewards of investing in the stock market and settle instead for the lower expected reward and much less uncertainty of a savings account. Little is known about how different forms of uncertainty such as risk or ambiguity are processed and learned about and how they are integrated with expected rewards and individual preferences throughout the decision making process. With this Research Topic, we aim to provide a deeper and more detailed understanding of the processes behind decision making under uncertainty.

Psychology of Decision Making in Risk Taking and Legal Contexts Rachel N. Kelian, 2008. In a fast moving world, the necessity of making decisions and preferably good ones has become even more difficult. One reason is the variety and number of choices, perhaps available which often are not presented or understood. Alternatives are often unclear and complex paths to them, confusing and misleading. Thus the process of decision making itself requires analysis on an ongoing basis. Decision making is often made based on cultural factors, whereas the best alternative might be quite different. The subject touches ethics aspects as well as psychological considerations. This book presents important research on the psychology of decision making and risk taking.

Uncertainty in Risk Assessment, Risk Management, and Decision Making V.T. Covello, Lester B. Lave, Alan Moghissi, V.R.R. Uppuluri, 2013-03-08. The subject of this volume, uncertainties in risk assessment and management, reflects an important theme in health, safety and environmental decision making. Most technological hazards are characterized by substantial uncertainty. Recent examples include nuclear waste disposal, acid rain, asbestos in schools, carcinogens in food and hazardous waste. Dealing with such uncertainty is arguably the most difficult and challenging task facing risk assessors and managers today. Four primary sources of uncertainty in risk assessment and management can be identified: 1) uncertainties about definitions; 2) uncertainties about scientific facts; 3) uncertainties about risk perceptions and attitudes; and 4) uncertainties about values. Uncertainties about definitions derive primarily from disagreements about the meaning and interpretation of key concepts such as probability. Uncertainties about scientific facts derive primarily from disagreements about failure modes, the probability and magnitude of adverse health or environmental consequences, cause and effect relationships, dose response relationships and exposure patterns. Uncertainties about risk perceptions and attitudes derive primarily from disagreements

about what constitutes a significant or acceptable level of risk Uncertainties about values derive primarily from disagreements about the desirability or worth of alternative risk management actions or consequences The papers in this volume address each of these sources of uncertainty from a variety of perspectives Reflecting the broad scope of risk assessment and risk management research the papers include contributions from safety engineers epidemiologists toxicologists chemists biostatisticians biologists decision analysts economists psychologists political scientists sociologists ethicists and lawyers

The Top Books of the Year Risk Taking And Decision Making The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Risk Taking And Decision Making : Delia Owens' "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
