Seventh Enemy The Human Factor In The Global Crisis:

The Seventh Enemy Ronald Higgins,1978-01-01 **Karl Popper, Science and Enlightenment** Nicholas

Maxwell,2017-09-26 Here is an idea that just might save the world It is that science properly understood provides us with the methodological key to the salvation of humanity A version of this idea can be found in the works of Karl Popper Famously Popper argued that science cannot verify theories but can only refute them and this is how science makes progress Scientists are forced to think up something better and it is this according to Popper that drives science forward But Nicholas Maxwell finds a flaw in this line of argument Physicists only ever accept theories that are unified theories that depict the same laws applying to the range of phenomena to which the theory applies even though many other empirically more successful disunified theories are always available This means that science makes a questionable assumption about the universe namely that all disunified theories are false Without some such presupposition as this the whole empirical method of science breaks down By proposing a new conception of scientific methodology which can be applied to all worthwhile human endeavours with problematic aims Maxwell argues for a revolution in academic inquiry to help humanity make progress towards a better more civilized and enlightened world *Air University Review* ,1981-09 **Energy Abstracts for Policy Analysis**

,1979-07 **Thinking the Unthinkable: A new imperative for leadership in the digital age** Chris Langdon,Nik Gowing,2018-06-08 Executive leadership faces new vulnerabilities Many leaders privately concede them but few are willing to talk publicly about them Unthinkable events since 2014 have revealed a new leadership fragility at the highest levels And the pace of change in 2017 shows that the uncertainties are greater than ever Is this the new normal Thinking The Unthinkable is an investigation into why leaders have appeared more unable or unwilling than ever to anticipate the biggest issues of our time In an era of wicked problems why are current leadership behaviours and culture apparently not fit for purpose What are the causes of so many failures in policy and strategic forecasting Are they human frailties Or are they systemic failures to embrace smartly new realities Through hundreds of interviews and conversations Nik Gowing and Chris Langdon have analysed the deep new challenges to the human capacity of leaders at the highest keels to accept understand embrace then handle the extraordinary processes of change and disruption This essential book draws on the candid responses The findings are scary and disconcerting **Beyond Deterrence** Hugh Miall,Oliver Ramsbotham,2016-07-27 The

collapse of communism in Eastern Europe the unification of Germany the withdrawal of Soviet troops the possible disintegration of the Soviet Union disengagement of the United States and creation of a federal Europe all this has changed the security context in Europe and stimulated a Europe wide debate about the future Deep questions about the nature of security itself have been raised This book will add fuel to the debate **Theology Matters** Gary Holloway,Randall J. Harris,Mark Cothran Black,Randy Harris,1998 When you hear the word theology you may automatically think of something irrelevant and unpractical Yet here is a book that demonstrates the significance theology has to the life of the Believer In this

collection of writings by a variety of gifted authors issues of faith and Christian Living are explored Topics such as God salvation the church and worship are dealt with in a highly readable interesting way *Irregular War* Paul Rogers,2016-06-16 If the rise of Islamic State can overthrow powerful states in a matter of weeks what kind of a secure future can the world expect After more than a decade of the war on terror security specialists thought that Islamist paramilitary movements were in decline the threat from ISIS in Syria and Iraq Boko Haram in Nigeria al Qaida in Yemen the chaos in Libya and the return of the Taliban in Afghanistan have all shown that to be wishful thinking Once again the West is at war in the Middle East Paul Rogers the distinguished global security specialist provides a much needed look at the rise of such global terrorist movements from the margins and presents a new argument as troubling as it is compelling While Islamic State has taken root in the Middle East and North Africa and has increasing impact across the world as thousands of young men and women rally to its cause Rogers argues that it should be seen not just as a threat in its own right but as a marker of a much more dangerous world riddled with irregular war **John Stott on Creation Care** R.J. (Sam) Berry,Laura Yoder,2021-10-21 Discover John Stott s writings on creation care brought together for the first time in this definitive collection for the global church Compiled by R J Sam Berry and Laura Yoder this brilliant anthology demonstrates both Stott s passion for the environment and its place in Christian discipleship Showcasing his unique way of explaining the Bible simply and clearly John Stott on Creation Care traces Stott s own process of coming to embrace creation care as a vital part of the Christian life and in turn shows us how creation care must have an integral place in our own discipleship Commentary by noted scientist R J Sam Berry connects Stott s writings together and illuminates how his wisdom still speaks to us today Alongside reflections from others that Stott inspired and disciplined John Stott on Creation Care is the perfect resource for every Christian looking to understand biblical teaching on the environment and how creation care should form part of their discipleship It is also an ideal biblical and theological resource for those involved in creation care ministry Published as part of the John Stott Centenary celebrations proceeds from John Stott on Creation Care will go to A Rocha International a charity that carries community based conservation projects in response to biodiversity loss around the world John Stott viewed creation care as an inevitable implication of the biblical message and as a grounding for Christian engagement in environmental commitments This collection will give you a deeper more thorough understanding of his writings and how his views developed and will leave you motivated and inspired to look again at your discipleship and how you approach creation care **Re-Purposing Universities for Sustainable Human Progress** Iain Stewart,Victoria Hurth,Stephen Sterling,2022-03-31
