Feminism and Christian Tradition Mary-Paula Walsh, 1999-05-30 This annotated bibliography a volume in the Greenwood series Bibliographies and Indexes in Religious Studies provides access to the numerous writings from the 1960s through the 1990s on feminism and Christian tradition Major feminist theologians and sociologists are represented As a guide to further research this cross disciplinary approach presents themes and issues in both a historical and a topical framework An extensive overview of feminism in relation to the women s movement women s studies sociology and American religion introduces the literature and provides a historical context for the nearly one thousand entries that follow Cross referenced throughout the literature is presented in six thematic categories that include introductory and background materials feminism and the development of feminist theology topical literatures in feminist theology feminism and womanist theology religious leadership of women and responses and recent developments Separate author subject and title indexes complete the volume

Has Feminism Changed Science? Londa Schiebinger, 2001-04-02 Do women do science differently And how about feminists male or female The answer to this fraught question carefully set out in this provocative book will startle and enlighten every faction in the science wars Has Feminism Changed Science is at once a history of women in science and a frank assessment of the role of gender in shaping scientific knowledge Science is both a profession and a body of knowledge and Londa Schiebinger looks at how women have fared and performed in both instances She first considers the lives of women scientists past and present How many are there What sciences do they choose or have chosen for them Is the professional culture of science gendered And is there something uniquely feminine about the science women do Schiebinger debunks the myth that women scientists because they are women are somehow more holistic and integrative and create more cooperative scientific communities At the same time she details the considerable practical difficulties that beset women in science where domestic partnerships children and other demanding concerns can put women s and increasingly men s careers at risk But what about the content of science the heart of Schiebinger s subject Have feminist perspectives brought any positive changes to scientific knowledge Schiebinger provides a subtle and nuanced gender analysis of the physical sciences medicine archaeology evolutionary biology primatology and developmental biology She also shows that feminist scientists have developed new theories asked new questions and opened new fields in many of these areas

Biographical Dictionary of Modern American Educators Shirley Ohles, Frederik Ohles, John Ramsay, 1997-10-28 Widely praised Greenwood s Biographical Dictionary of American Educators Greenwood 1978 quickly

became a standard reference work for students and scholars of American education This new volume includes biographical sketches of more than 400 notable researchers leaders reformers critics and practitioners from all major fields of education and extends the coverage of its predecessor to the mid 20th century Its topical range encompasses such diverse areas as psychology music health measurement and evaluation science special education history and administration It treats education at all levels including early childhood elementary and secondary higher and adult Most of the educators profiled were active in the 20th century but several dozen have been included from the 19th century A special effort has been made to include women and educators of color whose contributions have often been overlooked in the past Each biographical sketch includes information on family background a description of the educator s accomplishments and a digest of the person s education and career professional and civic service major publications and principal honors Each profile ends with a list of references and the volume closes with appendices listing birth places states of major service fields of work a chronological listing of educators and a list of important dates in American education A comprehensive index concludes the volume Educators are included from all fifty states and were selected from numerous suggested candidates for inclusion Most of the educators profiled were active in the 20th century but several dozen have been included from the 19th century A special effort has been made to include women and educators of color whose contributions have often been overlooked in the past

Has Feminism Changed Science? Londa L. Schiebinger, 1999-05-28 Do women do science differently This is a history of women in science and a frank assessment of the role of gender in shaping scientific knowledge Londa Schiebinger looks at how women have fared and performed in both instances **The British National Bibliography** Arthur James Wells, 1992
