Probing Popular Culture:

Probing Popular Culture Marshall Fishwick, 2004-06-30 When it comes to seeing depth and lateral connections in the development of popular culture nobody exceeds Marshall Fishwick Canadian Psychology In *Probing Popular Culture On and Off the Internet* one of the leading authorities in American and popular culture studies presents an eye opening examination of *Probing the Ethics of Holocaust Culture* Claudio Fogu, Wulf Kansteiner, Todd Presner, 2016-10-17 Probing the Ethics of Holocaust Culture is a reappraisal of the controversies that have shaped Holocaust studies since the 1980s Historians artists and writers question if and why the Holocaust should remain the ultimate test case for ethics and a unique reference point for how we understand genocide and crimes against humanity

Phenomenological Approaches to Popular Culture

Michael Thomas Carroll, Eddie Tafoya, 2000 Within popular culture studies one finds discussions about quantitative sociology Marxism psychoanalysis myth criticism feminism and semiotics but hardly a word on the usefulness of phenomenology the branch of philosophy concerned with human experience In spite of this omission there is a close relationship between the aims of phenomenology and the aims of popular culture studies for both movements have attempted to redirect academic study toward everyday lived experience The fifteen essays in this volume demonstrate the way in which phenomenological approaches can illuminate popular culture studies and in so doing they take on the entire range of popular culture

Popular Culture in a New Age Marshall Fishwick, 2014-06-11 With a Foreword by Dr Fishwick's student Tom Wolfe This book redefines popular culture in the light of the revolutionary changes brought about by the information revolution and the digital divide It explores the phenomenal growth and extension of popular culture in the last decade and ties in the vast changes brought about by technology and the Internet In an era when American television and the Internet reach virtually every corner of the globe *Popular Culture in a New Age* shows how the poorly understood and often underestimated area known as popular culture affects all of our lives Beginning with an evaluation of the millennium celebrations and the enormous error of Y2K madness *Popular Culture in a New Age* then moves on to the New Gold Rush brought about by technology and takes a hard look at its risks The book examines a wide variety of pop culture phenomena such as carnivals celebrities and the road from nineteenth century humbuggery P T Barnum's term to today's hype In *Popular Culture in a New Age* you'll learn about the three faces of popular culture folk fake and pop how they relate and how they differ today's popular icons the empire of Disney World Marshall McLuhan our era's most profound and shocking electronic thinker African American popular culture and style *Popular Culture in a New Age* gives characterization to the postmodern world in a chapter on postmodern pop followed by the shift from civil religion to civil disobedience and the myth of success This insightful book will help you understand the way we eat think vote and respond to our fast changing world in the era of hype spin doctors chat rooms and jargon

Prelude to a Super Airplane Brian Spaeth, 2008-12-09 In the year 2012 These United States of America is politically divided to a magnitude not seen since the Civil War On one side stands the fast

emerging pro flying car contingent on the other the stubborn and traditional pro airplane members of the populace At stake The entire future of airborne leisure and transportation Set against this tumultuous backdrop a young fiction writer has written a book about the only thing that can save the airplane riding industry an impossible to conceive 47 story airplane of such power and wonder the world will have no choice but to submit to its glory The world's first comedy political thriller mystery drama romance action adventure science fiction showbiz insider horror family energy drink industry insider holiday autobiography *Prelude to a Super Airplane* weaves the lives and destinies of 40 people together in astounding ways as they all find themselves facing the future of airplane riding the *Super Airplane* Ethical Probe on Mixed Martial Arts Enthusiasts in the USA Andy Martrich, 2018-03-14 Ethical Probe on Mixed Martial Arts Enthusiasts in the USA is an ethicist's account of the development of mixed martial arts MMA as it relates to its prophets and proselytizers i.e. enthusiasts who serve as testament to the sport's corrupt disposition Profiles on six enthusiasts reveal bizarre and in some cases nefarious activities that extend from proto MMA fads such as the ninja craze of the 1980s *Political Satire, Postmodern Reality, and the Trump Presidency* Mehnaaz Momen, 2018-12-11 This book attempts to grasp the recent paradigm shift in American politics through the lens of satire It connects changes in the political and cultural landscape to corresponding shifts in the structure and organization of the media in order to shed light on the evolution of political satire on late night television Satire is situated in its historical background to comprehend its movement away from the fringes of discourse to the very center of politics and the media Beginning in the 1990s certain trends such as technological advances media consolidation and the globalization of communications reinforced each other paving the way for satire to claim a prized spot in the visual media a tendency that only gained strength after September 11 While the Bush presidency presented itself as an apposite target for satirists their stronghold on American television was made possible by a number of transitions in broader culture which are encapsulated in the shrinking space available for political engagement under neoliberalism This largely underestimated development can be understood through the framework of postmodernism which focuses on the relationship between language power and the presentation of reality These trends and transitions reached a climax in the 2016 election where President Trump was elected embodying what can only be considered a significant turning point in American politics The bigger narrative contains various subplots represented in the rise of the neoliberal economy the acceptance of postmodernism as the dominant cultural code and the role of the voyeur superseding that of the engaged citizen It is only through understanding each of these pieces and connecting them that we can comprehend the current political transformation The present moment may feel like a golden age of satire and it may well be but this book addresses the hardest questions about the realities behind such a claim what can we conclude about when and how satire is effective judging by the history of this genre in its various incarnations and how can the apolitical postmodern media landscape be reconciled with what the best of this genre has had to offer during times of political duress *The Handbook of Critical*

Intercultural Communication Thomas K. Nakayama, Rona Tamiko Halualani, 2011-03-21 The Handbook of Critical Intercultural Communication aims to furnish scholars with a consolidated resource of works that highlights all aspects of the field its historical inception logics terms and possibilities A consolidated resource of works that highlights all aspects of this developing field its historical inception logics terms and possibilities Traces the significant historical developments in intercultural communication Helps students and scholars to revisit assess and reflect on the formation of critical intercultural communication studies Posits new directions for the field in terms of theorizing knowledge production and social justice engagement

state and the market in articulating new forms of subjectivity Ho examines the types of Chinese subjects that the state applauds and aggrandizes in contrast to those that it condemns and attempts to eliminate Her focus on the socialist spirit exposes inherent contradictions in the current Chinese project of nation building This comparative study shines a harsh light on these cultural products and on much more the confluence between commerce and politics and popular culture the interaction between state and individuals in popular culture and the complexity of governmentality in an era of globalization
