The Search for Arab Democracy Larbi Sadiki, 2004 How to be a democrat and a Muslim at the same time is the subject of ongoing contests This book maps out the variety of voices contesting Islam and democracy in the Arab world insisting that neither category can be taken as unitary or fixed In the Arab Middle East the contest is over which whose and how much democracy takes place within an existing contest over which whose and how much Islam must be given pre-eminence in the political and cultural sphere There is a Democracy and there are democracies There is an Islam and there are islams Larbi Sadiki deploys the conceptual tools of contemporary Western political philosophy and theory to articulate and defend some provocative theses The book challenges Eurocentric conceptions of democracy that all too frequently display a lack of concern for specificity and context analyzes and interrogates Orientalist and Occidental discourses on democracy and considers some of the justifications for democracy in the global arena giving space for self-representation by women and Islamists among others Using interviews with Muslims from every social and economic stratum the book shows how Arabs themselves understand imagine and view democracy

The Unfinished Quest T. V. Paul, 2024 In *The Unfinished Quest* leading international relations and South Asia scholar T. V. Paul charts India's cumbersome path toward higher regional and global status covering both the successes and failures it has experienced since the modern nation's founding in 1947 Paul focuses on the key motivations driving Indian leaders to enhance India's global status and power but also on the many constraints that have hindered its progress Paul's analysis of India's quest for status also sheds important light on the current geostrategic situation and serves as a new framework for

understanding the China India rivalry as well as India's relative position in the broader Indo Pacific theater *Constitutional Democracy Under Stress* Peter L. Biro, Peter L. Biro, 2022-12-31 Constitutional democracy is not just any old form of democracy. It has a peculiar logic and is premised upon some exacting criteria and principles including good laws and institutions predicated on specific fundamental core values and principles. But it is when fully ingrained in the public sensibility a sort of civic serum necessary to inoculate free citizens against the ravages of anti-democratic populism, authoritarianism, racism, nativism, discrimination, xenophobia, corruption, self-dealing and much worse. The need for civic inoculation of that sort is urgent today globally. The essays in this volume probe the sources and malaise now confronting Constitutional Democracy. However, they go much further. Many of the essays are indeed road maps for a realistic and cultivated response to our present condition. The clues for a rehabilitated democracy are found here analytically but also prescriptively.

China's Search for Democracy Suzanne Ogden, 1992 Presents a view from the grassroots of the 1989 student and mass movement in China and its tragic consequences. Here are eyewitness and participant accounts expressed through wall posters, students' speeches, movement declarations, handbills and other documents.

Critical Reflections on the Cold War Martin J. Medhurst, H. W. Brands, 2000 Rhetoric and history intersected dramatically during the Cold War which was above all else a war of words. This volume, which combines the work of historians and communication scholars, examines the public discourse in Cold War America from a number of perspectives including how rhetoric shaped history and policies and how rhetorical images invited interpretations of history. The book opens with Norman Graebner's wideranging analysis of the rhetorical background of the Cold War. Frank Costigliola then parses Stalin's speech of February 1946, an address that many in the West took as a declaration of war by the USSR. The development of NSC68 in 1950, often referred to as America's blueprint for fighting the Cold War, is the subject of Robert P. Newman's review. Shawn J. Parry-Giles and J. Michael Hogan then focus on American propaganda responses to the perceived Soviet threat. H. W. Brands, Randall B. Woods and Rachel L. Holloway examine the effects of liberal ideology and rhetoric on domestic and foreign policy decisions. Robert J. McMahon and Robert L. Ivie raise the issue of what it has meant to be the leader of the Free World and what the task of post-Cold War rhetoric will be in this regard. Scholars concerned with the role of words in public life and in the study of history will find challenging material in this interdisciplinary volume. Historians, speech communication scholars and political scientists with an interest in the Cold War will similarly find grist for further milling.
