Questions Of Belief:

Questions of belief Edward Livermore Burlingame,1878 Questions of Faith Peter Berger,2015-11-04 Leading religious and cultural commentator Peter Berger explores how and what we can believe in modern times Deals clearly with questions such as Does God exist What was so special about Jesus How can one be Christian in a pluralistic society Structured around key phrases from the Apostles Creed Draws on the Christian theological tradition and the work of other relevant thinkers such as Freud and Simone Weil The author takes the position of an open minded sceptic exploring his own beliefs

50 Simple Questions for Every Christian Guy P. Harrison,2013-03-19 Written in a respectful and conversational style this unique book is designed to promote constructive dialogue and foster mutual understanding between Christians and non Christians The author a skeptic and journalist asks basic questions about Christian belief What is the born again experience Why would God want to sacrifice his only son for the world Do miracles really happen How reliable is the Bible What is the rapture Why isn t everyone a Christian Each question is followed by commentary and analysis that is skeptical and tough but never argumentative or condescending Christians will find the book useful as a basis for developing their apologetics while skeptics will welcome Harrison s probing rational analysis of religious claims

Questions of Belief T. E. Burke,1995 This book takes a fresh look at fundamental questions concerning the nature of religious belief the possibilities of justifying such belief and of fruitful communication between different belief systems

Questions of Belief Aaron Craig Mullerleile,2004 *Asking Questions* Robert Fiengo,2007-05-03 Asking Questions examines a central phenomenon of language the use of sentences to ask questions Although there is a sizable literature on the syntax and semantics of interrogatives the logic of questions and the speech act of questioning no one has tried to put the syntax and semantics together with the speech acts over the full range of phenomena we pretheoretically think of as asking questions Robert Fiengo not only does this but also takes up some more foundational issues in the theory of language By positioning the findings of contemporary grammatical theorizing within the larger domain of language use Fiengo challenges the use theorist to acknowledge the importance of grammatical form and the grammarian to acknowledge the importance of use In addition to developing an Austinian distinction between four questioning speech acts and a proposal concerning the philosophy of language Asking Questions contains a useful discussion of the type token distinction and how use of language compares with use of other things Fiengo also considers the nature of multiple questions revealing what one must know to ask them and what speech acts one may perform when asking them Asking Questions advances our understanding of a wide range of issues in a number of important respects Scholars and students of linguistics and philosophy will find plenty to interest them in this pioneering work

Questions of Faith Peter Berger,2003-10-10 Leading religious and cultural commentator Peter Berger explores how and what we can believe in modern times Deals clearly with questions such as Does God exist What was so special about Jesus How can one be Christian in a pluralistic society Structured around key phrases

from the Apostles Creed Draws on the Christian theological tradition and the work of other relevant thinkers such as Freud and Simone Weil The author takes the position of an open minded sceptic exploring his own beliefs **The Moral**

Development of Health Professionals Bertram Bandman,2003-08-30 A central challenge motivates this work How if at all can philosophical ethics help in the moral development of health professionals Bandman s three part response is to argue first that there are justifiable answers to questions in health care ethics To support this idea he singles out a trilogy of related health care rights that are justifiably held by health consumers and for which health providers are responsible These include rights to respect to receive and to refuse treatment These are vital to the principle of informed consent and to patient and provider autonomy Secondly the functioning of these health care rights depends on the ongoing cultivation and habitual practice of relevant virtues such as dedicated and trained intelligence practical wisdom responsibility caring and integrity Thirdly Bandman tries to show how health care ethics makes use of the dynamic interplay between significant and relevant cases historical and current real and imaginary along with recognition of laws customs conventions and rules together with philosophical theories of morality An underlying theme of this book is the role of conditionals in health care ethics The aim of Bandman s work is to examine conditions and opportunities that promote the moral development of health professionals Moral rights and virtues comprising standards can be taught and learned known understood and accepted These standards comprise justifiable principles for effectively guiding the conduct of health professionals Rights and virtues help differentiate right from wrong decisions in health care ethics and thereby provide an appropriate basis for the moral development of health professionals *Modality, Morality and Belief* Walter Sinnott-Armstrong,Diana Raffman,Nicholas Asher,1995-01-27

Modality morality and belief are among the most controversial topics in philosophy today and few philosophers have shaped these debates as deeply as Ruth Barcan Marcus Inspired by her work a distinguished group of philosophers explore these issues refine and sharpen arguments and develop new positions on such topics as possible worlds moral dilemmas essentialism and the explanation of actions by beliefs This state of the art collection honors one of the most rigorous and iconoclastic of philosophical pioneers **Cognitive Mechanisms of Belief Change** Aaron C. T. Smith,2016-05-22 Belief change lies at the heart of all human aspirations From career progression weight loss spiritual commitment and ideological passion to love grief war identity and sport beliefs guide our lives and to a great extent determine our success satisfaction and happiness Cognitive Mechanisms of Belief Change is relevant to anyone interested in the machinations of how this occurs It explains how certain ideas and concepts steal a place in the mind because they latch on to hardwired ways of thinking experiencing and behaving Concepts throw light upon the mind s desires which in turn casts a kaleidoscope of silhouettes against the walls of thought with those taking distinct shape forging the outlines for beliefs to inhabit Beliefs infiltrate our minds and this book shows how they arrive and change in ways critical to our sense of meaning and identity
