Questions Of Identity:

Questions of Cultural Identity Stuart Hall, Paul du Gay, 1996-04-04 Why and how do contemporary questions of culture so readily become highly charged questions of identity The question of cultural identity lies at the heart of current debates in cultural studies and social theory At issue is whether those identities which defined the social and cultural world of modern societies for so long distinctive identities of gender sexuality race class and nationality are in decline giving rise to new forms of identification and fragmenting the modern individual as a unified subject Questions of Cultural Identity offers a wide ranging exploration of this issue Stuart Hall firstly outlines the reasons why the question of identity is so compelling and yet so problematic The cast of outstanding contributors then interrogate different dimensions of the crisis of identity in so doing they provide both theoretical and substantive insights into different approaches to understanding identity **Identity:**

Quest and Questions Raisun Mathew, 2022-08-27 This academic edited volume analyses and interprets the constantly altering meanings and expressions of identity in the context of rising tensions and conflicts caused by society's dominant power structures on vulnerable and victimised groups The question of identity that arises in a person gets into conflict with the social structures that complicate the notion at every instant of developing newer definitions of existence in the multifaceted world These social constructs either directly or indirectly employing persuasion or coercion and through manoeuvre or manipulation develop to deviate from the expected normative identity possessed to knowingly or unknowingly embrace the other identity The freedom to continue in one's own identity or freely transit between identities without the stains of society's constructs is critical thus resulting in the debates and questions raised by one for identity It is equally important to understand the theoretical and conceptual underpinnings of the notion of identity that influence and get influenced by the connected spheres of gender dysphoria patriarchal ascendancy cultural diversity and construction uncertainties and conflicts of diaspora alterity and entrapment migration and displacement caste oppression vulnerability and victimisation state apparatuses and subalternity Through multifarious themes and topics of discussion related to exploring the notion of identity this book converges the diverse perspectives on various situational existences of people Thus an elaborate and wider angle on the transitions and formation of identity is captured to decipher the relevance and significance of identity Identity in question The Open University, 1992-01-01 This 12 hour free course explored how

identity can be categorised including in terms of gender socio economic categories race and place of birth **600 Targeted**
