The GMS is an innovative system developed by the Commonwealth Secretariat for gender mainstreaming. The system is a comprehensive network of structures, mechanisms, and processes for bringing a gender perspective to bear on all government policies, plans, programmes, and projects. The kit consists of a handbook which presents the GMS in detail, sectoral guides to gender mainstreaming in specific sectors, and resource documents to assist the user in gender analysis, monitoring, evaluation, and other aspects of gender mainstreaming. Each sectoral guide also has a corresponding Quick Guide, a short user-friendly publication presenting the essential points. It is designed for policy makers, planners, field staff, and other government personnel involved in gender mainstreaming, as well as for academic users, NGOs, the private sector, and others who have a stake in advancing gender equality and equity.

*A Quick Guide to Gender Mainstreaming in Information and Communications* Joan Ross Frankson, 2001 Gender mainstreaming is the current international approach to promoting equality between women and men. It aims to ensure that women and men benefit equitably from all that society has to offer and are equally empowered to affect its governance and decisions. The Gender Management System (GMS) is a holistic and system-wide approach to gender mainstreaming developed by the Commonwealth for the use of governments in partnership with other stakeholders, including civil society and the private sector.
