Quran And Woman:

Qur'an and Woman Amina Wadud, 1999-06-10 Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qur'an written almost entirely by men. Now with *Qur'an and Woman* Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qur'an and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but patriarchal interpretation and implementation of the Qur'an that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. *Qur'an and Woman* contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought: Qur'anic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence or prejudice in the essential language of the Qur'an. Despite much Qur'anic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qur'an confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qur'an does not prescribe one timeless and unchanging social structure for men and women. Wadud argues lucidly, affirming that the Qur'an holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims. *Qur'an and Woman* Amina Wadud, 1999

Qur'an and Woman Amina Wadud, 1992 This is an analysis of the concept of woman drawn directly from the Qur'an. An explicit attempt to return to the original source, the Qur'an, when the tendency has been to confuse the works of Islamic scholars with the Qur'an, it demonstrates that in order to maintain its relevance, the Qur'an must be continually reinterpreted. That the importance of the Qur'anic text is its transcendence of time and its expression of eternal values. It is not the text which restricts women but the interpretations of the text which have come to be held in greater importance than the text. The significance of this analysis of the Qur'anic concept of woman is measured within the perspective of the text, using it both as a force in history, politics, language, culture, intellect and spirit, and as a divine text that presents guidance to humankind. This book sheds new light on the role of woman through reviewing the Qur'an itself with its principles of social justice and human equality and its objective of justice. *Woman's Identity and the Qur'an* Nimat Hafez Barazangi, 2006 An original study of the Qur'anic foundations of women's identity and agency, this book is a bold call to Muslim women and men to reread and reinterpret the Qur'an and to discover within its revelations an inherent affirmation of gender equality. Barazangi asserts that Muslim women have been generally excluded from full participation in Islamic society and thus from full and equal Islamic identity primarily because of patriarchal readings of the Qur'an and the entire range of early Qur'anic literature. Based on her study of the sacred text, she argues that Islamic higher learning is a basic human right.

that women have equal authority to participate in the interpretation of Islamic primary sources and that women will realize their just role in society and their potential as human beings only when they are involved in the interpretation of the Qur'an. Barazangi offers a curricular framework for self-teaching that could prepare Muslim women for an active role in citizenship and policymaking in a pluralistic society by affirming the self-identity of the Muslim woman as an autonomous spiritual and intellectual human being.

Woman in Islamic Shari'ah Vaḥīduddīn Khān, 2000. The book tries to clear the notion that to interpret the Islamic concept of woman as degradation of woman is to distort the actual issue. Islam has never asserted that woman is inferior to man; it has only made the point that woman is differently constituted. The prophet used a parable to explain the delicacy of women's nature, pointing out that they should be treated in accordance with their nature. Their delicate emotional constitution should always be borne in mind.

Women in the Qur'an, Traditions, and Interpretation Barbara Freyer Stowasser, 1996-08-22. Islamic ideas about women and their role in society spark considerable debate both in the Western world and in the Islamic world itself. Despite the popular attention surrounding Middle Eastern attitudes toward women, there has been little systematic study of the statements regarding women in the Qur'an. Stowasser fills the void with this study on the women of Islamic sacred history. By telling their stories in Qur'an and interpretation, she introduces Islamic doctrine and its past and present socio-economic and political applications. Stowasser establishes the link between the female figure as cultural symbol and Islamic self-perceptions from the beginning to the present time.

Modern Muslim Intellectuals and the Qur'an Suha Taji-Farouki, Institute of Ismaili Studies, 2006-01-26. This volume examines the writings of ten Muslim intellectuals working in the Muslim world and the West who employ contemporary critical methods to understand the Qur'an. Their work points to a new trend in Muslim interpretation characterised by a direct engagement with the Word of God while embracing intellectual modernity in a global context. The volume situates and evaluates their work and responses to it among Muslim and non-Muslim audiences.

Woman's Identity and The Qur'an Nimat Hafez Barazangi, 2022. Muslim women have been generally excluded from equal agency from full participation in Islamic society and thus from full and equal Islamic identity primarily because of patriarchal readings of the Qur'an and the entire range of early Qur'anic literature. Based on her pedagogical study of the sacred text, the author argues that higher learning in Islam is a basic human right that women have equal authority to participate in the interpretation of Islamic primary sources and that women will realize their just role in society and their potential as human beings only when they are involved in interpreting the Qur'an. Consequently, a Muslim woman's relationship with God must not be dependent on her husband's or father's moral agency.

The Oxford Handbook of Islam and Women Asma Afsaruddin, 2023. The Oxford Handbook of Islam and Women offers authoritative contributions from well-known scholars whose sophisticated and cutting-edge research explores the diversity of Muslim women's lives and their accomplishments, challenging common stereotypes that are particularly prevalent in the West.

Women in Islam and the Middle East Ruth Roded, 1999-01-15. Much of the lively and often heated debate on the role of

women in Islam and Middle Eastern society is grounded in different readings of the primary sources and historical precedents. But despite the increasing importance of this debate these key texts have remained inaccessible to English speaking readers. This book fills the gap by collecting extracts from a range of sources dating from the early Islamic period until today. The readings cover various aspects of women's experience: legal, domestic, political, religious and cultural. They are accompanied by introductions that explain the background of each source and discuss some of the questions it raises while bibliographies direct readers to additional material.

My Soul is a Woman Annemarie Schimmel, 1997. An internationally acclaimed scholar who has dedicated more than fifty years of her life to understanding the Islamic world. Annemarie Schimmel examines a much misunderstood feature of Islam: the role of women. Schimmel is critical of those especially Western feminists who take Islam to task without taking the time to comprehend the culture's language and traditions of the many societies in which Islam is the majority religion. Shattering stereotypes, Schimmel reconstructs an important but little known chapter of Islamic spirituality. With copious examples she shows the clear equality of women and men in the conception of the Prophet Muhammad, the Quran, the feminine language of the mystical tradition and the role of holy mothers and unmarried women as manifestations of God. This work is studded with luminous texts from Arabic, Turkish, Persian and particularly Indo-Muslim cultures which reveal how physical love can give expression to the highest forms of mysticism.

The Rights of Women in Islam Asghar Ali Engineer, 2008. Women's issues continue to dominate the Islamic world in particular as there has been a very gradual change in the status of women in the Islamic world as a whole. This book covers various aspects relating to the status of women in the pre-Islamic period: customs and traditions, forms of marriage, divorce and forms of divorce, dower, traditions regarding slave girls and so on. It then goes on to deal with the status of women in the post-Islamic period: the Quranic concept of women's rights in marriage, divorce, inheritance, custody of children, polygamy, maintenance, property, right to earn etc. It quotes extensively from the Quran and Sunnah. It also deals with the Arab *adaab* that is pre-Islamic customs and traditions regarding women. Altogether it attempts to arm Muslim women with Islamic arguments for their empowerment. The author, a renowned scholar, has sought to set the record straight by reinterpreting women's rights in the true Quranic spirit. He argues quite convincingly that the Holy Book gives equal rights to both the sexes and it does not discriminate between them as regards personal, democratic and human rights. The question whether in a secular society Muslim personal law needs any change and if so in which direction the reform should be undertaken is dealt with in detail. This third edition contains a chapter on a Muslim Woman Leading the Congregational Prayer. This chapter deals with the important aspect of Muslim women's problems and also hopes to further enhance their understanding of the Shari'ah issues.

Authenticity of Quran, **Woman in Islam** Fatima Ali, 2005. *Inside the Gender Jihad* Amina Wadud, 2006-06. In this insightful study Amina Wadud introduces the feminist movement in Islam and delves into its challenges, textual foundations in the Quran and its achievements.

Reading the Qur'an in the Twenty-First Century

Abdullah Saeed, 2013-12-04 *Reading the Qur'an in the Twenty First Century* considers the development of Qur'anic interpretation and highlights modern debates around new approaches to interpretation. It explores how Muslims from various theological, legal, socio-political and philosophical backgrounds think about the meaning and relevance of the Qur'an and how their ideas apply in the contemporary world. The book reflects on one of the most dominant approaches to interpretation in the pre-modern period, textualism, and the reaction to that in Muslim feminist readings of the Qur'an today. It covers issues such as identifying the hierarchical nature of Qur'anic values, the criteria for the use of hadith in interpretation, fluidity of meaning and ways of ensuring a degree of stability in interpretation. It examines key Qur'anic passages and compares pre-modern and modern interpretations to show the evolving nature of interpretation. Examples discussed include the authority of men over women, the death of Jesus, shura and democracy, and riba and interest. Abdullah Saeed provides a practical guide for interpretation and presents the principal ideas of a contextualist approach which situates the original message of the Qur'an in its wider social, political, cultural, economic and intellectual context. He advocates a more flexible method of interpretation that gives due recognition to earlier interpretations of the Qur'an while also being aware of changing conditions and the need to approach the Qur'an afresh today.

Islam and Gender Adis Duderija, Alina Isac Alak, Kristin Hissong, 2020-05-17 Given the intense political scrutiny of Islam and Muslims which often centres on gendered concerns, *Islam and Gender: Major Issues and Debates* is an accessible and comprehensive introduction to the key topics, problems and debates in this engaging subject. Split into three parts, this book places the discussion in its historical context, provides up-to-date case studies and delves into contemporary debate on the subject. This book includes discussion of the following important topics: Marriage and divorce; Interpretations of the Qur'an and Sunna; Male and female sexuality and sexual diversity; Classical Islamic thought on masculinity and femininity; Gender and hadith; Polygamy and inheritance; Adultery and sexual violence; Veiling; female circumcision and crimes of honour; Lived religiosities; Gender justice in Islam. *Islam and Gender* is essential reading for students in religious studies, Islamic studies and gender studies as well as those in related fields such as cultural studies, politics, area studies, sociology, anthropology and history.

Woman's Identity and Rethinking the Hadith Nimat Hafez Barazangi, 2016-03-09 The Prophet Muhammad's reported traditions have evolved significantly to affect the social, cultural and political lives of all Muslims. Though centuries of scholarship were spent on the authentication and trustworthiness of the narrators, there has been less study focused on the contents of these narratives, known as Hadith or Sunnah, and their corroboration by the Qur'an. This book is a first step in a comprehensive attempt to contrast Hadith with the Qur'an in order to uncover some of the unjust practices by Muslims concerning women and gender issues. Using specific examples, the author helps the reader appreciate and understand the magnitude of the problem. It is argued that the human rights and the human development of Muslim women will not progress in a meaningful and sustainable manner until the Hadith is re-examined in a fresh new approach from within the Islamic framework, shifting the discourse in understanding Islam from a dogmatic

religious law to a religio moral rational worldview The author argues that such re examination requires the involvement of women in order to affirm their authority in exegetical and practical leadership within Muslim societies and she encourages Muslim women to stand up for their rights to effect change in understanding the role of sunnah in their own life **The Islamic Review** ,1915 **Islamic Review and Muslim India** ,1913
