Race and Ethnic Relations in the United States Christopher G. Ellison, W. Allen Martin, 1999 Reflecting the latest data and theoretical literature available RACE AND ETHNIC RELATIONS AMERICAN AND GLOBAL PERSPECTIVES tackles diversity issues from both the American and global perspective offering an in depth exploration of today's globally diverse world The text's expansive coverage of race and ethnic relations across the globe highlights major points of difference and similarity between the United States and a number of other societies *Research Anthology on Empowering Marginalized Communities and Mitigating Racism and Discrimination* Management Association, Information Resources, 2021-02-05 With the newly inaugurated US Presidential Administration signing several orders to mitigate discrimination and racism within the United States government attentions globally are once again brought to the Black Lives Matter campaign and its message Discrimination in business contexts social interactions and educational institutions remains a concern for leaders today The empowerment of marginalized communities has been rapidly spreading through societies thanks to the platforms that social media now offer The Research Anthology on Empowering Marginalized Communities and Mitigating Racism and Discrimination is a three volume hand selected compilation of the highest quality research on the empowerment of marginalized communities that have been experiencing ongoing discrimination To shed light on the underpinnings of disparities between marginalized groups and overreaching society this text explores social justice applications and practices and the changes being made or pushed for around the globe that promote equality fair treatment and inclusivity This book is ideal for sociologists teachers activists practitioners managers administrators policymakers government officials researchers academicians and students working in fields such as gender studies race studies social justice behavioral studies history sociology anthropology psychology law as well as anyone interested in the current practices and advances in mitigating racism and discrimination in society **Being White** Karyn D. McKinney, 2013-04-15 Karyn McKinney uses written autobiographies solicited from young white people to empirically analyze the contours of the white experience in U S society This text offers a unique view of whiteness based on the rich data provided by whites themselves writing about what it means to be white *Race, Ethnicity, and the American Urban Mainstream* Christopher Bates Doob, 2005 Race and Ethnicity in the American Nation Mainstream uses history biography and sociological analysis to examine the achievements and struggles of racial and ethnic groups in American cities Doob focuses on race and ethnicity in U S cities where most immigrant groups have historically settled and where most inter group relations have taken place The book is organized around social systems politics housing economics and work education rather than groups or concepts such as prejudice and discrimination Crime and Racial Constructions Jeanette Covington, 2010-04-12 Crime and Racial Constructions Cultural Misinformation about African Americans in Media and Academia focuses on how film images of dangerous hedonistic blacks have assumed greater significance since blacks protested racial injustice during the Civil Rights Movement and the Black Power Movement

of the 1960s and 1970s It does so by reviewing a number of films that have been released from the 1970s until the present in which black males are depicted as violent and threatening It likewise considers how these same films represent black females as prostitutes drug addicts and irresponsible abusive mothers who spawn violence in their children Because these on screen images of a violent apolitical and immoral black underclass find their way into the criminological literature the book also takes a look at how criminologists use these images to link crime to underclass culture Both Hollywood and criminologists alike manage to ignore how black activism during the 1960s social movements actually sparked black opposition to the kind of black on black crime that is routinely depicted on screen By taking a critical look at these negative images Crime and Racial Constructions seeks to correct some of the distortions that arise from the undue academic and cinematic focus on black criminals at the expense of racially conscious blacks The Praeger Handbook of Latino Education in the U.S.

Lourdes Diaz Soto,2006-11-30 Latinos in the United States have fought hard to attain equality especially in the field of education The Praeger Handbook of Latino Education in the U S focuses on this fight for equal educational access and represents a significant addition to American educational literature The contributors to this volume reveal that many Latino children still face challenges that were present many decades ago In addition to such obstacles as cultural conflicts and racism they also face teachers curricula and assessments that are not always respectful to their backgrounds Educators parents policy makers and communities across the country will find this work a goldmine of detailed historical and current information **Operation Gatekeeper and Beyond**

Systems: Emerging Research and Opportunities Hampton-Garland, Pamela,Sechrest-Ehrhardt, Lisa,Cooke, Benson George,2017-11-03 America has the reputation of being one of the wealthiest and most powerful countries in the world yet within its borders social problems persist and negatively impact Americans Though profound changes are taking place in the

social economic and cultural contexts of America they are precipitated by the urge for equal opportunity and social justice Socio Economic and Education Factors Impacting American Political Systems Emerging Research and Opportunities provides emerging research on the most current issues facing the American public and political system While highlighting the changes America is making in the social economic and cultural regions of society readers will learn how these changes are coming to shape their lives in the country This book is an important resource for undergraduate and graduate students and professionals seeking current research on how social economic and educational issues impact the American political system and policies

One-Party Classroom David Horowitz, Jacob Laksin, 2009-03-10 David Horowitz has single handedly exposed the intellectual corruption that exists within the classrooms of American colleges Like all forms of corruption indoctrination flourishes when kept in the dark Here Horowitz turns on the bright lights to expose what has become profoundly wrong with our colleges and universities We are all in his debt Ward Connerly former regent University of California David Horowitz and coauthor Jacob Laksin take us inside twelve major universities where radical agendas have been institutionalized and scholarly standards abandoned The schools they examine are not the easily avoided bottom of the barrel Rather they are an all too representative sampling of American higher education today Horowitz and Laksin have conducted the first comprehensive in depth multiyear investigation of what is being taught in colleges and universities across the country public to private from large state schools to elite Ivy League institutions They have systematically scrutinized course catalogs reading lists professors biographies scholarly records and the first person testimonies of students administrators and faculty Citing more than 150 specific courses they reveal how academic standards have been violated and demonstrate beyond dispute that systematic indoctrination in radical politics is now an integral part of the liberal arts curriculum of America s colleges The extreme ideological cant that today s students are being fed includes Promoting Marxist approaches as keys to understanding human societies with no mention of the bloody legacy of these doctrines and total collapse in the real world of the societies they created Instilling the idea that racism brutally enforced by a white male patriarchy to oppress people of color and other marginalized groups has been the organizing principle of American society throughout its history and into the present Requiring students to believe that gender is not a biological characteristic but a socially created aspect of human behavior designed by men to oppress women Persuading students that America and Israel are imperialistic and racist states and that the latter has no more right to exist than the South African regime in the days of apartheid In page after shocking page Horowitz and Laksin demonstrate that America s colleges and universities are platforms for a virulent orthodoxy that threatens academic ideals and academic freedom In place of scholarship and the dispassionate pursuit of truth that have long been the hallmarks of higher learning the new militancy embraces activist zealotry and ideological fervor In disturbingly large segments of today s universities students are no longer taught how to think but are told what to think

God and Karate on the Southside Joseph E. Yi, 2009-06-16 Recent demographic changes have sparked debate about the civic health of American democracy Democracy requires people of different backgrounds to be disposed toward working together and it requires little noticed meeting places where neighbors interact with each other share their thinking and address common problems As issues of ethnic and social diversity become increasingly foregrounded social scientists find pervasive social distrust and civic withdrawal in racially and ethnically heterogeneous communities whether in big cities Los Angeles or small Yakima WA In this book Yi argues that increasing diversity can revitalize social and civic connectedness if our institutions rise up to the challenge of finding common ground and shared enterprise for people of different backgrounds He highlights two types of organizational actors in the USA One type renews and adapts longstanding religious cultural and civic traditions to a dynamic multiethnic society The second type attempts to introduce Americans to the many religious and cultural traditions from outside the United States These tendencies point to a dynamic many stranded model of liberal plural democracy which fosters and benefits from a variety of group affiliations and types of engagement Organizations that combine internal authoritative community with external plural outreach such as some evangelical mega churches and karate schools connect people across racial and economic divides In these bridging organizations people find a sense of unity among diversity they get to know each other as individuals rather than as representatives of disliked groups Using fieldwork on churches karate schools and other organizations in a racially mixed Chicago Southside neighborhood as well as a broader analysis of race and religion in the 1972 1998 General Social Survey Yi combines classical democratic theory with compelling personal stories and rigorous empirical analysis *God and Karate in the Southside* is the first

Militarizing the American Criminal Justice System Peter B. Kraska, 2001 Controlling threats to national security has long been the mission of the U S military while civilian law enforcement has dealt with domestic

problems of crime illegal drugs and internal disorder This groundbreaking collection argues persuasively that the conventional distinctions between these two forces are becoming blurred and considers the far reaching consequences of the disquieting trend to militarize the nation s criminal justice system The contributors examine the historical and current interrelationships between the military and police illuminating such areas as the ideological similarities between waging real wars and fighting the wars on drugs and crime the reshaping of the military s role after the end of the Cold War the rapidly growing influence of advanced military technology in civilian society and the adaptation of military models such as boot camps and SWAT teams in policing and corrections As the lines between the military industrial complex and the criminal justice enterprise become ever more clouded this work provides a much needed evaluation of the thorny issues dangers and public policy ramifications raised by the entanglement between militari
