Race Et Histoire:

Race et histoire; suivi de L'oeuvre de Claude Lévi-Strauss par Jean Pouillon Claude Lévi-Strauss, 1969 *Race et histoire dans les sociétés occidentales (XV-XVIIIe siècle)* Jean-Frédéric Schaub, Silvia Sebastiani, 2021-10-06 Ce livre présente les processus de racialisation qui ont ponctué la transformation de l'Europe et de ses colonies de la fin du Moyen âge jusqu'à nos jours. Cette histoire claire l'évolution des sociétés, des institutions, des cultures et des théories. Elle décrit la volonté de catégoriser les individus et les groupes de les enclore dans des identités présentes comme intangibles de discriminer les collectifs dominés voire d'organiser l'oppression grand échelle contre des populations définies par leur race. La racialisation procède par naturalisation des rapports sociaux et des caractères physiques et moraux qui se transmettent de génération en génération à travers la procréation. Elle repose sur une contradiction : le racisme affirme que les gens sont prisonniers de leur race et s'emploie néanmoins à gommer la transformation des races. Quatre coups de projecteur permettent de rendre compte de cette histoire : la noblesse de naissance face à l'anoblissement ; la nature juive ou musulmane qui persiste dans le sang des convertis ; l'origine ineffaçable des métis dans l'Amérique coloniale ; la déshumanisation des Africains par la traite esclavagiste. Ces phénomènes sont les expériences culinaires sur lesquelles les auteurs des Lumières se sont fondés pour classer l'humanité en races. Ils hiérarchisent les groupes humains mais proclament aussi l'universalité des droits de l'homme. Le siècle des philosophes peut alors se lire comme le fruit d'une histoire passée autant que comme le fondement d'une histoire inachevée et la nôtre. *Race et histoire* Claude Lévi-Strauss, 1961

Culture and Rights Jane K. Cowan, Marie-Bénédicte Dembour, Richard A. Wilson, 2001-11-29 Do people everywhere have the same or even compatible ideas about multiculturalism, indigenous rights, or women's rights? The authors of this book move beyond the traditional terms of the universalism versus cultural relativism debate. Through detailed case studies from around the world (Hawaii, France, Thailand, Botswana, Greece, Nepal, and Canada) they explore the concrete effects

Blood and Kinship

Christopher H. Johnson, Bernhard Jussen, David Warren Sabean, Simon Teuscher, 2013-01-01 The word blood awakens ancient ideas but we know little about its historical representation in Western cultures Anthropologists have customarily studied how societies think about the bodily substances that unite them and the contributors to this volume develop those questions in new directions Taking a radically historical

perspective that complements traditional cultural analyses they demonstrate how blood and kinship have constantly been reconfigured in European culture This volume challenges the idea that blood can be understood as a stable entity and shows how concepts of blood and kinship moved in both parallel and divergent directions over the course of European history

Thinking without Desire Panu Minkkinen,1999-09-01 The book is an attempt to evaluate the reception of Continental philosophy phenomenology hermeneutics deconstruction etc within mainstream jurisprudence The book claims that the reduction of philosophy to social theory can only be accomplished by impoverishing the impetus of philosophical thinking and consequently by transforming critique into criticism and the philosophy of law into legal theory The response developed in this book is the creation of a metaphysical understanding of law or in other words what Aristotle called a first philosophy In addition to philosophy proper the classics of Antiquity the great German philosophers contemporary French thinking the book covers a wide range of jurisprudential literature These include the neo Kantian philosophers of law whose thinking is allegedly at the root of legal positivism but special emphasis is also given to existential philosophers of law deeply inspired by the hermeneutical phenomenology of Martin Heidegger Lastly the book encourages specifically philosophical approaches in law to the thinking of French contemporaries whose work has inspired critical legal scholarship during the past ten years

Race and History Claude Levi-Strauss,2017-08-24 Coming Clean Eric Heinze,2025-04-08 What has gone wrong with the left and what leftists must do if they want to change politics ethics and minds Leftists have long taught that people in the West must take responsibility for centuries of classism racism colonialism patriarchy and other gross injustices Of course right wingers constantly ridicule this claim for its wokeness In Coming Clean Eric Heinze rejects the idea that we should be less woke In fact we need more wokeness but of a new kind Yes we must teach about these bleak pasts but we must also

educate the public about the left's own support for regimes that damaged and destroyed millions of lives for over a century: Stalin in the Soviet Union, Mao Zedong in China, Pol Pot in Cambodia or the Kim dynasty in North Korea. Criticisms of Western wrongdoing are certainly important yet Heinze explains that leftists have rarely engaged in the kinds of open and public self-scrutiny that they demand from others. Citing examples as different as the Ukraine war, LGBTQ people in Cuba, the concept of hatred and the problem of leftwing antisemitism, Heinze explains why and how the left must change its memory politics if it is to claim any ethical high ground. *Encyclopedia of Modern French Thought* Christopher John Murray, 2013-01-11

In this wide-ranging guide to twentieth-century French thought, leading scholars offer an authoritative, multi-disciplinary analysis of one of the most distinctive and influential traditions in modern thought. Unlike any other existing work, this important work covers not only philosophy but also all the other major disciplines including literary theory, sociology, linguistics, political thought, theology, and more.

Rétrovolution Jean-Loup Amselle, 2010-09-08

L'idée que l'avenir de l'humanité se trouve dans le passé et que la solution aux problèmes du présent est de chercher du côté d'une sagesse venue du fond des générations n'est pas neuve. Chaque époque a connu la tentation du primitivisme. L'incertitude idéologique actuelle lui donne toutefois une vigueur nouvelle. Le regain d'un tourisme mystique cherchant au loin dans l'absorption ritualisée de substances hallucinogènes les clés d'un paradis perdu n'est qu'un aspect de cet attrait des origines. Car le primitivisme aujourd'hui prend trois formes : politique, anthropologique, artistique. Jean-Loup Amselle soumet ici chacune d'elles au feu de la critique. De la conception du musée du quai Branly à la référence à la grandeur dans le discours de Nicolas Sarkozy, Dakar en passant par la promotion en Afrique de l'Ouest comme en Amérique du Sud d'identités et de valeurs ethniques, il montre comment tats et hommes d'État font de l'authenticité et de la tradition des arguments ou des instruments de pouvoir. Il dénonce galement chez certains de ses collègues anthropologues une conception figée des cultures exotiques voire un fétichisme des savoirs indigènes comme s'il fallait renvoyer les sauvages hors de l'histoire pour mieux pouvoir juger la pensée occidentale. Il analyse enfin le processus de purification culturelle de l'autre travers une production artistique dont l'exotisme format est apte à séduire un public international. Cet ouvrage argumenté, parfois ironique, prend ainsi résolument parti contre les usages contemporains du mythe primitiviste.

Europe's New Racism Evens Foundation, 2002-06

Europe has seen a tremendous rise in popularity of new rightist political parties in the last two decades or so, claiming cultural supremacy of the so-called native Europeans over foreign immigrants. In this volume, European scholars from Russia to Britain have come together to examine the media and social and legal policies in an effort to determine the causes of this resurgence of rightist and anti-democratic ideologies. They furthermore suggest actions that might help combat racism more effectively.

Affirmative Exclusion Jean-Loup Amselle, 2003

Jean-Loup Amselle explores the issue of multiculturalism by delving into the history of France's confrontation with ethnic difference. Amselle analyzes France's relationship to Egypt, Algeria, and Senegal to show how ideas about difference and assimilation played out in French colonial policies and how these same tensions continue to be problematic as

France grapples with cultural pluralism Amselle's book has timely and wide ranging implications Arguing against the liberal communitarian state as it exists in the United States Amselle contends that an overemphasis on difference can lead to what he calls affirmative exclusion the flip side of affirmative action The recognition of a multiplicity of ethnic groups in France he asserts creates an environment that fosters racism Despite an outward appearance of generosity supporters of French style multiculturalism by promoting affirmative action run the risk of creating as many difficulties as there are target groups which they have helped identify and hence produce Calling on theories of racial difference devised by early anthropologists most notably Louis Faidherbe and on the work of political philosophers such as Thomas Hobbes John Locke and Jean Jacques Rousseau Amselle makes historical and sociological sense of the debates over multiculturalism and the violence they engender Toward a French Multiculturalism proposes directions for the future
