Violence Against Women Act of 1999, Stalking Prevention and Victim Protection Act of 1999 United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime,2000 Using Force to Protect Civilians Stian Kjeksrud,2023

This book offers the first comprehensive analysis of United Nations military protection operations across time and UN missions It draws on a novel dataset that covers 200 operations from ten UN peacekeeping missions in Africa from 1999 to 2017 and evaluates the successes and failures of UN military troops in protecting civilians from violence *Protection Against Sexual Exploitation of Children Act of 2005, and the Prevention and Deterrence of Crimes Against Children Act of 2005* United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime, Terrorism, and Homeland Security,2005 *Victims of Trafficking and Violence Protection Act of 2000.* United States,2012 Encyclopedia of Victimology and Crime Prevention Bonnie S. Fisher,Steven P. Lab,2010-02-02

Victimology and crime prevention are growing interrelated areas cutting across several disciplines Victimology examines victims of all sorts of criminal activity from domestic abuse to street violence to victims in the workplace who lose jobs and pensions due to malfeasance by corporate executives Crime prevention is an important companion to victimology because it offers insight and techniques to prevent situations that lead to crime and attempts to offer ideas and means for mitigating or minimizing the potential for victimization In many ways the two fields have developed along parallel yet separate paths and the literature on both has been scattered across disciplines as varied as sociology law and criminology public health and medicine political science and public policy economics psychology and human services and more The Encyclopedia of Victimology and Crime Prevention provides a comprehensive reference work bringing together such dispersed knowledge as it outlines and discusses the status of victims within the criminal justice system and topics of deterring and preventing victimization in the first place and responding to victims needs Two volumes containing approximately 375 signed entries provide users with the most authoritative and comprehensive reference resource available on victimology and crime prevention both in terms of breadth and depth of coverage In addition to standard entries leading scholars in the field have contributed Anchor Essays that in broad strokes provide starting points for investigating the more salient victimology and crime prevention topics A representative sampling of general topic areas covered includes interpersonal and domestic violence child maltreatment and elder abuse street violence hate crimes and terrorism treatment of victims by the media courts police and politicians community response to crime victims physical design for crime prevention victims of nonviolent crimes deterrence and prevention helping and counseling crime victims international and comparative perspectives and more *Bioethical Challenges in New Hiv Prevention Technologies* Calvin Gwandure,Ruth Gwandure,2018-05-23

Ruth Gwandure earned her master of science degree in medicine bioethics and law from the University of the Witwatersrand South Africa Her research and consulting fields include bioethics health law environmental bioethics research ethics HIV and AIDS ethics and law

clinical ethics and HIV counselling and testing in schools Calvin Gwandure has a PhD in psychology He graduated from Nelson Mandela University South Africa His research and consulting fields include HIV and AIDS prevention new HIV prevention technologies HIV risk behavior and group behavior Clinical trials on HIV and AIDS prevention face challenges associated with infection of participants with HIV and sexually transmitted infections Participants also experience adverse events associated with voluntary medical male circumcision and the use of microbicides and vaccines in clinical trials The results obtained from clinical trials investigating the efficacy of microbicides and vaccines in preventing HIV infection are disappointing but there is hope that one day a breakthrough could be made Clinical trials on voluntary medical male circumcision and preexposure prophylaxis have shown positive results that warranted approval by the US Food and Drug Administration FDA and the World Health Organization WHO The major challenge experienced in new HIV prevention clinical trials that are underway and in approved interventions that are being scaled up apparently relates to HIV incidence that threatens the social value and scientific validity of the interventions Paradoxically the clinical trials and scale up interventions have become the new sources of HIV infection although the hypothesized benefit to be realized in the end is conceptualized as outweighing the current risks involved

The Secret, Whom Does It Protect? Jay Foster,2021-07-11 When an abuser s actions are kept secret who benefits The abuser or the abused The difficult questions posed in this harrowing story of one woman s account of her abuse will challenge the status quo With the rise of the MeToo movement many have stepped up and relayed their experiences This specific event covers one woman and her sister s experience of horrific abuse as children Their experience happened in broad daylight In their neighborhood In front of their home Where they thought they were safe For years they held their secret and hid feelings of shame These secrets became a prison and now the author is choosing to break free The shame was never hers the shame belongs with the evil that invaded her and her sister s lives that fateful day It s time to have an uncomfortable conversation and point the blame where blame is due directly on the shoulders of pedophiles and rapists

Schools as Protection? Bjorn H. Nordtveit,2016-04-20 In 1900 the Swedish social theorist Ellen Key launched the idea of a Century of the Child Recent media reports from shooting and racial violence in the US to the latest news from ISIS dominated areas provide a darker vision it is certainly not a time for children it is a time during which children s wellbeing is being the cause of worry This book is about schools and protection of children and proposes ways to ensure the minimum standards of safety in schools The issue of protection is not only important in specific conflict settings but also more and more in mainstream schools in the Western context Therefore the book is not focusing on a specific geographic area but analyzing various contexts of adversity including those affected by poverty high incidence of HIV AIDS as well as conflict and post conflict affected areas It also illustrates the effects of such contexts non enrollment of children or early dropout from

school various forms of abuse and bullying at home and school increased incidence of child marriage abusive child labor and in some cases the worst forms of child labor The school emerges as an institution that could play a stronger role in protection of children and that also could provide better support in the transition from childhood to work and marriage
