The Decline of Regionalism in Putin's Russia J. Paul Goode, 2011-05-11 This book reassesses Putin's attempt to reverse the decentralization of power that characterised centre regional relations in the 1990s focusing on regional responses to Putin's federal reforms It explains the decline of regionalism after 2000 in terms of the dynamics of regional boundaries understood as the juridical boundaries which demarcate a region's territorial extent and its resources institutional boundaries that sustain regional differences and cultural boundaries that define the ethnic or technocratic principles on which a region could claim legitimate existence The book questions the conventional wisdom regarding the success of Putin's regime It shows how regional governors responded not by attempting to deflect the reforms with outright resistance but by mimicking Putin's centralisation of power at the regional level In turn this facilitated the homogenisation of regional political regimes and regional mergers The book demonstrates how the reordering of regions advanced sporadically how pockets of resistance persist and how the potential for the revival of regionalism continues

conflicts in regional development **Social Service Reform in the Postcommunist State** Janelle A. Kerlin, 2005 In this detailed study Janelle A Kerlin demonstrates how and why reforms intended to improve services and increase citizen participation in social service programming largely failed to meet expected goals The politics of reform development including political deals exclusionary tactics and hidden maneuvering by Polish policymakers prevented any significant upgrade of services or real change in decision making structures Kerlin uses focused interviews with leading reform actors and a nationwide representative survey of two hundred public social service institutions to develop a model that connects the politics of the decentralization process with social service outcomes Not only students of the former Soviet bloc but also those interested in the links between politics and policy outcomes more broadly will find in this volume an informative and instructive case study that has far reaching implications BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Regionalism After Regionalisation* Frans Schrijver, 2006 Concentrating on three countries Spain France and the United Kingdom and three regional case studies of Galicia Brittany and Wales this book offers an analysis of the development of political regionalism after regionalisation **The Political Economy of Uneven Development** Shaoguang Wang, Angang Hu, 1999 Exploring one of the most dynamic and contested regions of the world this series includes works on political economic cultural and social changes in modern and contemporary Asia and the Pacific

Decentralization In Mexico Victoria Rodriguez, 2018-05-04 This book assesses the impact of decentralization on Mexico's intergovernmental relations and examines the constraints upon the devolution of political power from the center to the lower levels of government It also discusses the distribution of power and authority to governments of opposition parties within the context of a more open political space Victoria Rodriguez uncovers a new paradox in the Mexican political system retaining power by giving it away She argues that since the de la Madrid presidency 1982-1988 the Mexican government has embarked upon a major effort of political and administrative decentralization as a means to increase its hold on power That effort continued under Salinas but paradoxically led to further centralization However since Zedillo assumed the presidency it has become increasingly clear that the survival of the ruling party and indeed the viability of his own government require a genuine de facto reduction of centralism *Toward an Anthropology of Government* W. Schumann, 2009-09-14 The National Assembly for Wales was established in 1999 granting the people of Wales a parliament for the first time in nearly six centuries The Assembly was intended to create a parliamentary culture of open inclusive and modern democracy that stood apart from the Houses of Parliament in London Based on anthropological fieldwork this informative book analyzes how power in Wales is legitimated and justified William Schumann's intriguing argument makes the case that contradictory political practices exist which affirm elected officials as public representatives while also reproducing the subordinate status of Wales within the institutional hierarchies of the United Kingdom and European Union *Centre and Provinces: China 1978-93* Linda Chelan Li, 1998-05-14 *Centre and Provinces China 1978-93* goes beyond the dominant state capacity paradigm to argue

for an interactive model to explain the political relations between the central and provincial governments in contemporary China. The uni-dimensional centrist perspective of the state capacity paradigm has failed to adequately explain the coexistence of central and provincial power and to anticipate circumstances of change. In this book, a hybrid rational choice cum institutional approach highlights the mutual power of both the Centre and the provinces: each party the Centre or the provinces imposes structural constraints upon the other. Power is not a zero-sum game. The cases of Shanghai and Guangdong, important resourceful provinces under very different central policy contexts, contrast possible interactions between central policy and provincial choice. Conflicts amidst a context of mutual dependence necessitate compromise on both sides and qualitative changes to centre-province relations as a result may well have long-term implications for wider political processes.
