fictionalism making the case for its ability to resonate on an intellectual and emotional level Considering the extent to which fictionalism allows us to make sense of the role of religion in our spiritual lives she presents its limitations on adhering to what might be an attractive contemporary model for philosophy of religion called the humane turn Articulating an alternative conception of God that we can relate to in an intellectual emotional and spiritual way Eastwood sheds light on a minimalist form of religious realism which preserves the reality of God without committing the theist to a host of additional religious beliefs     **An Introduction to Hegel** Stephen Houlgate,2005-02-11 This classic introduction to one of the most influential modern thinkers G W F Hegel 1770 1831 has been made even more comprehensive through the addition of four new chapters New edition of a classic introduction to Hegel Enables students to engage with many aspects of Hegel s philosophy Covers the whole range of Hegel s mature thought Relates Hegel s ideas to other thinkers such as Luther Descartes and Kant Offers a distinctive and challenging interpretation of Hegel s work     The Criteriologic Problem Olof Franck,1988

*Rationality and Religious Theism* Joshua L. Golding,2017-11-22 Throughout the ages one of the central topics in philosophy of religion has been the rationality of theistic belief This book proposes that parties on both sides of this debate might shift their attention in a different direction by focusing on the question of whether it is rational to be a religious theist Explaining that having theistic beliefs is primarily a cognitive affair but being a religious theist involves a whole way of life that includes one s beliefs Golding argues that it can be pragmatically rational to be a religious theist even if the evidence for God s existence is minimal The argument is applied to the case of Judaism articulating what is involved in religious Judaism and arguing that it is rationally defensible to be a religious Jew The book concludes with a discussion of whether a similar argument might be constructed for other versions of religious theism such as Christianity or Islam and for non theistic religions such as Taoism or Buddhism Joshua Golding offers a carefully wrought explanation of how it can be rational for someone to live a religious life in particular but not necessarily only a traditional Jewish life
