

The background of the book cover is a teal-toned photograph. It depicts a coastal scene with a large, white-capped wave breaking in the middle ground. In the foreground, there are dark, silhouetted rocks or a shoreline. The background consists of a range of mountains under a cloudy sky. The overall mood is serene yet powerful.

**Remembering** Edward S. Casey, 1987-01-01      **Remembering Places** Janet Donohoe, 2014-06-18 This book is a phenomenological investigation of the interrelations of tradition memory place and the body Drawing upon philosophers such as Husserl Heidegger Merleau Ponty Gadamer and Ricoeur Janet Donohoe uses the idea of a palimpsest to argue that layers of the past are carried along as traditions through places and bodies such that we can speak of memory as being written upon place and place as being written upon memory In dialogue with theorists such as Jeff Malpas and Ed Casey Donohoe focuses on analysis of monuments and memorials to investigate how such deliberate places of collective memory can be ideological or can open us to the past and different traditions The insights in this book will be of particular value to place theorists and phenomenologists in disciplines such as philosophy geography memory studies public history and environmental studies      *Remembering to Perform Actions* Michael J. DeVries, 1986      **Remembering the Personal Past** Bruce M. Ross, 1992-01-02 In this resonant scholarly work Bruce Ross presents an encompassing theoretical framework and overview of autobiographical memory Drawing on a wide range of ideas from academic psychology the social sciences psychoanalysis and the humanistic disciplines the author presents a stimulating and original perspective on this increasingly important topic Ross description encompasses the full range of subjective responsiveness to personal memories both with

and without awareness including real world social context and examples that can be compared with one's own experience critical assessment of psychoanalytic memory concepts with a clear distinction drawn between Freud's ideas and those of his later followers childhood memories dealt with from dual standpoints of initial origin and adult retrospection explanations of problems and dilemmas in philosophy and the human sciences that determine both what is to be counted as a memory experience and how memories can be validated and the phenomena of individual memories compared with characteristics of group determined memories and socially structured memories that persist across generations Cognizant of the rich intellectual history of the field the book also calls on the works of James Titchener Freud Piaget Baldwin Janet Bartlett Ellis Bergson Bloch Halbwachs and Merleau Ponty among others to broaden our current understanding of the experience of autobiographical memory Students and researchers from a number of disciplines concerned with the psychology of memory cognition and identity will find this volume both insightful and thought provoking

**Remembering Violence** Nicolas Argenti, Katharina Schramm, 2010 Psychologists have done a great deal of research on the effects of trauma on the individual revealing the paradox that violent experiences are often secreted away beyond easy accessibility becoming impossible to verbalize explicitly However comparatively little research has been done on the transgenerational effects of trauma and the means by which experiences are transmitted from person to person across time to become intrinsic parts of the social fabric With eight contributions covering Africa Central and South America China Europe and the Middle East this volume sheds new light on the role of memory in constructing popular histories or historiographies of violence in the absence of or in contradistinction to authoritative written histories It brings new ethnographic data to light and presents a truly cross cultural range of case studies that will greatly enhance the discussion of memory and violence across disciplines

Buried City, Unearthing Teufelsberg Benedict Anderson, 2017-07-06 Cities are built over the remnants of their past buried beneath their present We build on what has been built before whether over foundations formalising previous permanency or over the temporal occupations of ground

But what happens when you shift a city when you dislodge its occupation of ground towards a new ground bury it and forget it Focusing on Berlin s destruction during World War II and its reconstruction after the end of the war this book offers a rethinking of how the practices of destruction and burial combine to reform the city through geography and how burying a city is intricately tied to forgetting destruction ruination and trauma Created from 25 million cubic meters of rubble produced during World War II Teufelsberg Devil s Mountain is the exemplar of the destroyed city Its critical journey is chronicled in combination with Berlin s seven other rubble hills and their connections to constructing forgetting through burial Furthermore the book investigates Berlin s sublime relation to Albert Speer s urban vision to rival the ancient cities of Rome and Athens through their now shared geographies of seven hills Finally there is a central focus on the role of the citizens who cleared Berlin s streets of rubble and the subsequent human relationships between people and ruins This book is valuable reading for those interested in Architectural Theory Urban Geography Modern History and Urban Design

Dynamic Process Methodology in the Social and Developmental Sciences Jaan Valsiner, Peter C. M. Molenaar, Maria C.D.P. Lyra, Nandita Chaudhary, 2009-07-09 All psychological processes like biological and social ones are dynamic Phenomena of nature society and the human psyche are context bound constantly changing and variable This feature of reality is often not recognized in the social sciences where we operate with averaged data and with homogeneous stereotypes and consider our consistency to be the cornerstone of rational being Yet we are all inconsistent in our actions within a day or from one day to the next and much of such inconsistency is of positive value for our survival and development Our inconsistent behaviors and thoughts may appear chaotic yet there is generality within this highly variable dynamic The task of scientific methodologies qualitative and quantitative is to find out what that generality is It is the aim of this handbook to bring into one framework various directions of construction of methodology of the dynamic processes that exist in the social sciences at the beginning of the 21st century This handbook is set up to bring together pertinent methodological scholarship from all over the world and equally from the quantitative and qualitative orientations to methodology In addition to consolidating the pertinent knowledge base for the purposes of its further growth this book serves the major educational role of bringing practitioners students researchers and professionals interested in applications the state of the art know how about how to think about extracting evidence from single cases and about the formal mathematical statistical tools to use for these purposes

**The Collective Memory Reader** Jeffrey K. Olick, Vered Vinitzky-Seroussi, Daniel Levy, 2011-01-21 In the last few decades there are few concepts that have rivaled collective memory for attention in the humanities and social sciences Indeed use of the term has extended far beyond scholarship to the realm of politics and journalism where it has appeared in speeches at the centers of power and on the front pages of the world s leading newspapers Seen by scholars in numerous fields as a hallmark characteristic of our age an idea crucial for understanding our present social political and cultural conditions collective memory now guides inquiries into diverse though connected phenomena Nevertheless there

remains a great deal of confusion about the meaning origin and implication of the term and the field of inquiry it underwrites The Collective Memory Reader presents organizes and evaluates past work and contemporary contributions on collective memory Combining seminal texts hard to find classics previously untranslated references and contemporary landmarks it will serve as a key reference in the field In addition to a thorough introduction which outlines a useful past for contemporary memory studies The Collective Memory Reader includes five sections Precursors and Classics History Memory and Identity Power Politics and Contestation Media and Modes of Transmission Memory Justice and the Contemporary Epoch comprising ninety one texts A short editorial essay introduces each of the sections while brief capsules frame each of the selected texts An indispensable guide The Collective Memory Reader is at once a definitive entry point into the field for students and an essential resource for scholars *American Continental Philosophy* Walter Brogan, James Risser, 2000-07-22

Horsley, Applies new methods to the study of the historical Jesus Includes illuminating maps **Shared Landscapes** Rodney Harrison, 2004 The heritage of the pastoral industry stands as an integral symbol of identity for rural communities both black and white in New South Wales Modern changes in pastoral land management infrastructure and technology combined with broader land use changes and increased community interest in the conservation and rehabilitation of former grazing lands has meant that many former pastoral properties have been abandoned or acquired for other uses Tracking the history of these land use changes *Shared Landscapes* presents new ways of understanding historic heritage in settler societies through cross disciplinary case studies that examine the heritage of the pastoral industry in two national parks Assessing its current state of interpretation and

management in New South Wales Rodney Harrison shows that pastoral heritage is more than just woolsheds and homesteads the showpieces of white male settler colonial economies Pastoral heritage is the product of the mutual histories of Aboriginal and settler Australians It is a form of heritage that is both in and a part of the landscape His archaeological approach to the heritage of the pastoral industry involves both recording sites and revealing attachments to community heritage demonstrating that writing shared histories and celebrating shared heritage has the creative power to reconcile Aboriginal and settler Australians in powerful and positive ways Remembering the War, Forgetting the Terror Ekaterina V. Haskins, 2024-03-19 Russian state propaganda has framed the invasion of Ukraine as a liberation mission by invoking the Soviet era myth of the Great Patriotic War 1941-45 in which the Soviet people led by Russia saved the world from the greatest evil of the twentieth century At the same time the Russian government has banned civil society institutions and initiatives that remind the country of the legacy of Soviet political violence Remembering the War, Forgetting the Terror explores the appeal of the cult of the Great Patriotic War and the waning public interest in Soviet political terror as intertwined trends Ekaterina V Haskins argues that these developments are driven not only by the weaponization of the official memory of World War II but also by familial pieties and deep seated habits of memory Haskins uncovers how widely shared practices of remembrance have taken root and flourished through recurring exposure to war films urban environments popular commemorative rituals and digital archives Combining scholarship and personal biography Haskins illuminates why despite the staggering toll of World War II and internal political violence on Soviet families most Russian citizens continue to proudly embrace their family's participation in the war effort and avoid discussion of domestic political persecution Elegantly written and convincingly argued this book is an important intervention into contemporary rhetoric and memory studies that will also appeal to broader audiences interested in Russia Eastern Europe and the war in Ukraine
