Remembering And The Sound Of Words Mallarme Proust Joyce Beckett:

Remembering and the Sound of Words Adam Piette, 1996 Remembering the Sound of Words is a major new study of four of modern literature's most important writers and the first serious attempt to account for complex sound effects in prose. Adam Piette establishes fascinating new links between such sound effects and the representation of memory in literary texts. He sets out a workable taxonomy of sound repetitions in prose and formulates through a theory of alternating devices the ways in which the reader's attention is drawn to the acoustic surface of the text. Through close analysis of Mallarmé's prose poetry, Proust's musical syntax, Joyce's memory rhymes from the Portrait of the Artist through Ulysses to Finnegans Wake, and Beckett's prose and drama, Piette demonstrates that sound effects act as intricate reminders of memory traces in the text. Despite wide divergence in these four writers' representations of memory, the book shows that the use of this memory rhyme technique is common to them all and is employed in particular to express the textual migration of past key words, self-centred comic tyranny, and the fitful unification of body and memory within the narrative voice. Mimesis is redefined in terms of textual rhymes, facsimiles of the complex resemblances, fusions, and re-enactments of the mind's verbal memory. **Joyce's Book of Memory** John S. Rickard, 1999-01-06 Discusses Ulysses, arguing that through the operation of memory it mimics the working of the human mind and achieves its status as one of the most intellectual achievements of the 20th century.

Remembering and the Sound of Words Adam Piette, 2023 The work of Mallarmé, Proust, Joyce, and Beckett is discussed in this text in relation to remembering and the sound of words. It should be of value to comparative literature students and specialists and linguists, particularly those concerned with phonosemantics. [Beckett's Voices / Voicing Beckett](#), 2021-08-16 Beckett's Voices: Voicing Beckett uses voice as a prism to investigate Samuel Beckett's work across a range of texts, genres, and performance cultures. Twenty-one contributors, all members of the Samuel Beckett Working Group of the International Federation for Theatre Research, discuss the musicality of Beckett's voices, the voice as absent, other, the voices of the vulnerable, the cinematic voice, and enacted voices in performance and media. The volume engages not only with Beckett's history and legacy but also with many of the central theoretical issues in theatre studies as a whole. Featuring testimonies from Beckett practitioners as well as emerging and established scholars, it is emblematic of the thriving and diverse community that is twenty-first century Beckett Studies. Contributors: Svetlana Antropova, Linda Ben-Zvi, Jonathan Bignell, Llewellyn Brown, Julie Campbell, Thirthankar Chakraborty, Laurens De Vos, Everett C. Frost, S.E. In doing so, it explores how the mind makes sound through experience as it interprets codes on the written page and creates an internal leitmotif that then interacts with new sounds made through an aural partnership with the external world, chosen and

involuntary exposure to music and sound messages both friendly and antagonistic to the identity of the self It creates an argument for sound as an underlying force that links us to the world we inhabit an essential part of being in the same primal sense as the calls of birds and other inhabitants of a shared earth Street argues that sound as a poetic force is part of who we are linked to our visualisation and sense of the world as idea and presence within us This incredibly interdisciplinary book will be of great interest to scholars of radio sound media and literature as well as philosophy and psychology

Samuel Beckett's Lyric Failure Mantra Mukim, 2025-03-06 Providing one of the first book length accounts of Samuel Beckett's poetry this work illustrates how Beckett's poetry and its failures reconfigure the lyric form Reading Beckett alongside nineteenth and twentieth century European poets such as Hölderlin Mallarmé Rimbaud Montale and Apollinaire the book situates failure in the triangulation of the lyric impulse subjectivity and the human voice Beckett in his poems employs lyric tactics that range from deixis parataxis and caesura to specific kinds of timbre resonances and punctuations These tactics situate the poetic voice in the liminal points between life and death event and non event beginning and ending and more broadly between expression and failure The book frames these liminalities under the rubric of lyric failure Moving beyond the usual comparisons with his prose and drama the study highlights failure as a generative force that structures Beckett's anti expressive poetics

The Sound of Nonsense Richard Elliott, 2017-12-28 In The Sound of Nonsense Richard Elliott highlights the importance of sound in understanding the nonsense of writers such as Lewis Carroll Edward Lear James

Joyce and Mervyn Peake before connecting this noisy writing to works which engage more directly with sound including sound poetry experimental music and pop By emphasising sonic factors Elliott makes new and fascinating connections between a wide range of artistic examples to ultimately build a case for the importance of sound in creating maintaining and disrupting meaning Elizabeth Bishop's Prosaic Vidyan Ravinthiran, 2015-07-01 Elizabeth Bishop is now recognized as one of the greatest poets of the twentieth century a uniquely cosmopolitan writer with connections to the US Canada Brazil and also the UK given her neglected borrowings from many English authors and her strong influence on modern British verse Yet the dominant biographical psychoanalytical approach leaves her style relatively untouched and it is vital that an increasing focus on archival material does not replace our attention to the writing itself Bishop's verse is often compared with prose sometimes insultingly writing fiction she worried she was really writing poems But what truly is the difference between poetry and prose structurally conceptually historically speaking Is prose simply formalized speech or does it have rhythms of its own Ravinthiran seeks an answer to this question through close analysis of Bishop's prose like verse her literary prose her prose poems and her letter prose This title is a provocation It demands that we reconsider the pejorative quality of the word prosaic playing on mosaic Ravinthiran uses Bishop's thinking about prose to approach for the first time her work in multiple genres as a stylistic whole Elizabeth Bishop's Prosaic is concerned not only with her inimitable style but also larger questions to do with the Anglo American shift from closed to open forms in the twentieth century This study identifies not just borrowings from but rich intertextual relationships with writers as diverse as among others Gerard Manley Hopkins W H Auden Virginia Woolf Flannery O'Connor and Dorothy Richardson Though Bishop criticized Woolf she in particular is treated as a central and thus far neglected precursor crucial to our understanding of Bishop as a feminist poet Finally the sustained discussion of how the history of prose frames effects of rhythm syntax and acoustic texture in both Bishop's prose proper and her prosaic verse extends a body of research which seeks now to treat literature as a form of cognition Technique and thought are finely wedded in Bishop's work her literary forms evince a historical intelligence attuned to questions of power nationality tradition both literary and otherwise race and gender
