*Faith in Democracy* Mahmoud Masaeli, Nikolaos Asproulis, Rico Sneller, Timo Sloomweg, 2020-01-02 This book explores the spiritual potential of faith mysticism and transcendence in answer to the dangers of a mythologised state and the sacro sanctification of liberal democracy and its rule of law It searches for a curative for the pathological transformation of these institutions into so called political religions Along this line it explores the importance of spirituality and transcendence for political legitimacy democratic participation and international cooperation law and politics There being no general agreed upon definition of spirituality the authors examine what may be seen as spiritual dimensions of the political These dimensions have in common a focus on transcendence as a vanishing point of rationality and rational justification This vanishing point may become manifest for example in a primordial requisite of becoming an individual person in responding in freedom to the call of theocracy in the phenomenon of prophecy or political wisdom in the remaining shards of formerly all pervasive religious institutions in tenacious hope for a democracy to come in the courageous resilience and resistance of citizens of non or un democratic states etc The authors of this book philosophers theologians psychologists jurists and others are more or less suspicious of the Modern theories of the social contract allegedly justifying democracy It may turn out however that the inexhaustive and unfathomable dimension of faith which comes up as an alternative is not so easy to handle as a rational argument This impracticality of faith and transcendence might be the irreducible yet indispensable predicament of democracy
