Right And Wrong How To Decide For Yourself:

Right and Wrong Hugh Mackay, 2011-01-23 In modern Western societies we are presented with a huge array of choices and encouraged to believe that having the freedom to choose sets us on the path to happiness Yet as renowned social commentator Hugh Mackay shows in *Right Wrong* how to decide for yourself freedom to choose is no freedom at all unless it is accompanied by the confidence of knowing we have made the right choice In this insightful book Hugh Mackay suggests some personal strategies that will make it easier to work out what is right and wrong for you whenever you are confronted by a moral choice In an engaging conversational style Hugh confidently tackles the moral minefield of personal relationships business ethics the difference between legal and ethical morality and religion and why they should not be confused the benefits of moral mindfulness and the reasons why we should strive for a good life in which we are true to ourselves and sensitive to the wellbeing of others who might be affected by our actions

A Wiccan Bible A.J. Drew, 2003-08-15 If there is one quote from this book which deserves to be emblazoned on the opening pages of your Book of Shadows above the door of your house or temple and in every mind it is this Wicca is not a place to go it is a journey to take Spiral Nature For thousands of years we have been told that God was a man Then someone reminded us of when God was a woman Now we have a reference for the sensible folk who have always felt that it takes two If you have ever thought there was more to religion than ancient rituals performed for reasons unknown this book will show you exactly what you have been looking for If you have already come to the realization that Wicca is the religion for you this book will help fill those many blanks that have been left by other books Author A J Drew makes no attempt to dictate religious dogma or routine He is quick to point out that the title does not start with the word the He illustrates the many issues a person's religion should address and shows how he has been able to find answers to those issues through the practice of a modern religion that was based on some of the oldest principles of the ancient world A Wiccan Bible takes you through the journey of life in three stages Maiden and Master Creation Wiccaning and Self dedication Mother and Father Initiation Handfasting Handparting and the Wheel of the Year Crone and Sage Community the world and death Mythology and science converge as the author details a life's journey into a religion with both old world ritual and new world science fusing both into a creation myth which satisfies not only mind but soul as well A Wiccan Bible not only shows a religious path filled with joy but one that offers the ability to accept and manage sorrow It is filled with ritual and with the reasons why ritual is fulfilling rewarding and a necessary part of everyday life As A J addresses each issue he demonstrates not only how he found the solutions in Wicca and the many ways in which science and magick have helped him to do so A Wiccan Bible also contains select recipes that the author has collected including mixtures for incense oils and baths

Discourses of Religion and Secularism in Religious Education Classrooms Karin Kittelmann Flensner, 2017-07-07 This book answers the question on how students and teachers talk about religion when the mandatory and nonconfessional school subject of Religious Education is on the schedule in the world's most secular country

To do this it analyses discourses of religion as they occur in the classroom practice It is based on findings from participant observation of Religious Education lessons in several upper secondary schools in Sweden The book discusses different aspects of the role and function of nonconfessional integrative Religious Education in an increasingly pluralistic multireligious yet also secularized society at a general level It looks at the religious landscape different perspectives on school subjects various models and the development of Religious Education and discourses of religion of a secularist spiritual and nationalistic nature Religious Education is a school subject that manoeuvres in the midst of a field that on the one hand concerns crucial knowledge in a pluralistic society and on the other hand deals with highly contested questions in a society characterized by diversity and secularity In the mandatory integrative and non confessional school subject of Religious Education in Sweden all students are taught together regardless of religious or secular affiliation The subject deals with major world religions important non religious worldviews and ethics from a non confessional perspective Thus in the classroom individuals who identify with diverse religious and non religious worldviews with a different understanding of what religion could be and what it might mean to be religious are brought together The book examines questions raised in this pluralistic context What discourses of religion become hegemonic in the classroom How do these discourses affect the possibility of reaching the aim of Religious Education which concerns understanding and respect for different ways of thinking and living in a society characterized by diversity

Ourselves Frank Smith,2013-05-13 This book delves into how we come to terms with ourselves with other people and with the world in general It is about how we come to be what we are and to think the way we do It is a book about influences on this process A particular influence to which Smith gives central consideration is language not just in terms of the communicative networks in which it engages us the information that presents itself to us but in the largely unsuspected framework for thought that lies within language itself He also considers deeply the role of technology This is a book of description not of explanations these are two quite different intellectual territories Smith writes about what can be observed not philosophized about Thus he does not discuss the inner workings of the human brain His claim is that what he is interested in thinking learning understanding remembering have never been found in the brain The aim is to describe the scope and limits for how we can be seen to think learn understand and remember but not to explain such behavior by recourse to hypothetical inner entities *Ourselves* speaks especially to educators It outlines the possibilities and limitations inherent in all of us It delineates who we are but also stresses that no two people are the same that what we become depends on our journeys in life and the people we encounter on the way The formal part of learning that is called education is particularly sensitive to the role of people who organize critical experiences for us our teachers The brief summaries at the end of each chapter reinforce and highlight points that are of particular relevance to teachers Researchers professionals and graduate students across the fields of literacy education psychology of reading learning theory human learning educational psychology and psycholinguistics will find this book compelling

The Zen Manifesto: Freedom From Oneself Osho,2023-03-17 It is time ripe time for a Zen manifesto The Western intelligentsia have become acquainted with Zen have also fallen in love with Zen but they are still trying to approach Zen from the mind They have not yet come to the understanding that Zen has nothing to do with mind Its tremendous job is to get you out of the prison of mind It is not an intellectual philosophy it is not a philosophy at all Nor is it a religion because it has no fictions and no lies no consolations It is a lion s roar And the greatest thing that Zen has brought into the world is freedom from oneself

All the religions have been talking about dropping your ego but it is a very weird phenomenon they want you to drop your ego and the ego is just a shadow of God God is the ego of the universe and the ego is your personality Just as God is the very center of existence according to religions your ego is the center of your mind of your personality They have all been talking about dropping the ego but it cannot be dropped unless God is dropped You cannot drop a shadow or a reflection unless the source of its manifestation is destroyed
