The Constitutional Documents of the Puritan Revolution Samuel Rawson Gardiner, 2020 In this volume are reprinted for convenient reference more than ninety documents which are intended to serve either as a basis for the study of the constitutional history of an important period or as a companion to the political history of the time With the exception of four mentioned in the preface they are taken from books that are beyond the reach of most students unless they have access to large and well equipped libraries The whole is prefaced by a concise account of the period so that we have at hand what might be compared to the finder on a telescope Among the papers are the following of which we have often heard and which we can here examine that they may throw light upon our understanding of the history of the period The Declaration of Sports the Scottish National Covenant the Root and Branch Petition the Solemn League and Covenant the Self denying Ordinance

The Majesty of God's Law W. Cleon Skousen, Someday God's law is coming to America It could come rapidly after a period of cleansing and reform It might even happen in our day And since Moses said it would eventually transpire there needs to be a generation of Americans trained and motivated to put it into

effect Dr Skousen has carefully outlined the entire code of God's law in this book Under this judicial system there are only about a hundred statutes required to govern a community a state a nation or the world if these guidelines are in the hands of wise and virtuous judges Learn which political ideas are in tune with God's law so you can support them Understand why political ideas contrary to God's law simply don't work See just how marvelous life in America will be once God's majestic law is established here
