Love's Knowledge Martha C. Nussbaum,1990-11-15 This volume brings together Nussbaum s published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge

Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules. She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical. It is consequently necessary to broaden our conception of moral philosophy in order to include these forms. Featuring two new essays and revised versions of several previously published essays, this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements.

A Companion to Gottfried Von Strassburg's "Tristan" Will Hasty, 2003. The legend of Tristan and Isolde, the archetypal narrative about the turbulent effects of all-consuming passionate love, achieved its most complete and profound rendering in the German poet Gottfried von Strassburg's verse romance *Tristan* ca. 1200. Along with his great literary rival Wolfram von Eschenbach and his versatile predecessor Hartmann von Aue, Gottfried is considered one of the three greatest poets produced by medieval Germany, and over the centuries his *Tristan* has lost none of its ability to attract with the beauty of its poetry and to challenge if not provoke with its sympathetic depiction of adulterous love. The essays, written by a dozen leading Gottfried specialists in Europe and North America, provide definitive treatments of significant aspects of this most important and challenging high medieval version of the Tristan legend. They examine aspects of Gottfried's unparalleled narrative artistry, the important connections between Gottfried's *Tristan* and the socio-cultural situation in which it was composed, and the reception of Gottfried's challenging romance both by later poets in the Middle Ages and by nineteenth and twentieth-century authors, composers, and artists, particularly Richard Wagner. The volume also contains new interpretations of significant figures, episodes, and elements: Riwalin and Blanscheflur, Isolde of the White Hands, the Love Potion, the performance of love, the female figures in Gottfried's revolutionary romance, which provocatively elevates a sexual human love to a summum bonum. Will Hasty is Professor of German at the University of Florida. He is the editor of *Companion to Wolfram's Parzival* (Camden House, 1999).
