DeMetropolis, 2003 The primary purpose of this study was to provide an analysis of the effectiveness of leadership through the interpersonal relationship between a team leader and a team This research paper attempted to define how leaders create and handle effective teams Specifically this study was focused on UXO teams in a UXO environment performing a UXO clearance project still in progress It was the aim of this study to provide information that will be beneficial to team leaders and will contribute to improvement of UXO team leadership techniques The findings

identified in this study provide some empirical support and insight into the strengths and weaknesses found in one case study. The findings revealed positive correlation in many of the researched areas within each hypothesis in the relationships and perceptions between team leaders and team members. However, the findings also indicated considerable negative correlation within one of the dimensions: the demonstration of sufficient technical know-how, which was actually expected to be one of the strongest. Overall, it is concluded that this research has made an important contribution towards defining how a leader creates and handles an effective unexploded ordnance team. The findings of this study should be beneficial to team leaders and contribute to improvement of UXO team leadership techniques.

The Air Force Comptroller, 1992. **Leaders' Digest** J. Edwin Dietel, 1996. 12 Winning Leadership Qualities New Thrive Learning Institute, 2016-03-11. You have what it takes. You know you are the most suited person for the job. You're so positive that you can lead a lot of people towards good business. Or so you think. Because if you really are, then why did John from the other department get the job you've been dying to have since you entered the company? Leadership is more than just being confident that you can manage a number of people and make them follow your lead. Each one of us influences at least ten thousand other people during our lifetime. Hence the question is not whether we can influence these people but in what manner shall we influence them. There are instances that competitors suddenly give up believing that they just can never be leaders. Maybe I'm not really born to lead, they think. On the contrary, the key to effective leadership does not depend primarily in the abilities we are born with but in techniques, skills, character and qualities that we are open to develop throughout life.
