Making Crime A Study Of Detective Work:

Making Crime Richard Victor Ericson, 1993 **Making Crime Soft** Otto Ericson, 1983-12-01 **Handbook of Criminal Investigation** Tim Newburn, Tom Williamson, Alan Wright, 2012-08-21 This book provides the most comprehensive and authoritative book yet published on the subject of criminal investigation a rapidly developing area within the police and other law enforcement agencies and an important sub discipline within police studies The subject is rarely out of the headlines and there is widespread media interest in criminal investigation Within the police rapid strides are being made in the direction of professionalizing the criminal investigation process and it has been a particular focus as a means of improving police performance A number of important reports have been published in the last few years highlighting the importance of the criminal investigation process not only to the work of the police but to public confidence in this Each of these reports has identified shortcomings in the way criminal investigations have been conducted and has made recommendations for improvement The Handbook of Criminal Investigation provides a rigorous and critical approach to not only the process of criminal investigation but also the context in which this takes place the theory underlying it and the variety of factors which influence approaches to it It will be an indispensable source of reference for anybody with an interest in and needing to know about criminal investigation Contributors to the book are drawn from both practitioners in the field and academics **Making Crime Count** Kevin D. Haggerty, 2001-01-01 Haggerty sheds light on the gathering and disseminating of crime statistics through an examination of the Canadian Centre for Justice Statistics the branch of Statistics Canada responsible for producing data on the criminal justice system *Crime and Security* Lucia Zedner, 2017-07-05 The pursuit of security is now central to the development of public policy and a driving force behind the spread of private policing Just as new theoretical frameworks are needed to deal with the increasing tendency of crime control policies to focus on risk reduction new forms of governance are also required to deal with the rapid growth of the private security industry This volume brings together a wide range of contributions from leading scholars in the field and includes international and comparative perspectives on the challenges posed by the rise of the security society **Globalisation, Criminal Law and Criminal Justice** Valsamis Mitsilegas, Peter Alldridge, Leonidas Cheliotis, 2015-01-22 The book consists of the keynote papers delivered at the 2012 WG Hart Workshop on Globalisation Criminal Law and Criminal Justice organised by the Queen Mary Criminal Justice Centre The volume addresses from a cross disciplinary perspective the multifarious relationship between globalisation on the one hand and criminal law and justice on the other hand At a time when economic political and cultural systems across different jurisdictions are increasingly becoming or are perceived to be parts of a coherent global whole it appears that the study of crime and criminal justice policies and practices can no longer be restricted within the boundaries of individual nation states or even particular transnational regions But in which specific fields to what extent and in what ways does globalisation influence crime and criminal justice in disparate jurisdictions Which are the factors that facilitate or

prevent such influence at a domestic and or regional level And how does or should scholarly inquiry explore these themes These are all key questions which are addressed by the contributors to the volume In addition to contributions focusing on theoretical and comparative dimensions of globalisation in criminal law and justice the volume includes sections focusing on the role of evidence in the development of criminal justice policy the development of European criminal law and its relationship with national and transnational legal orders and the influence of globalisation on the interplay between criminal and administrative law

Judicial Applications of Artificial Intelligence Giovanni Sartor, L. Karl Branting, 2013-04-17 The judiciary is in the early stages of a transformation in which AI Artificial Intelligence technology will help to make the judicial process faster cheaper and more predictable without compromising the integrity of judges discretionary reasoning Judicial decision making is an area of daunting complexity where highly sophisticated legal expertise merges with cognitive and emotional competence How can AI contribute to a process that encompasses such a wide range of knowledge judgment and experience Rather than aiming at the impossible dream or nightmare of building an automatic judge AI research has had two more practical goals producing tools to support judicial activities including programs for intelligent document assembly case retrieval and support for discretionary decision making and developing new analytical tools for understanding and modeling the judicial process such as case based reasoning and formal models of dialectics argumentation and negotiation Judges squeezed between tightening budgets and increasing demands for justice are desperately trying to maintain the quality of their decision making process while coping with time and resource limitations Flexible AI tools for decision support may promote uniformity and efficiency in judicial practice while supporting rational judicial discretion Similarly AI may promote flexibility efficiency and accuracy in other judicial tasks such as drafting various judicial documents The contributions in this volume exemplify some of the directions that the AI transformation of the judiciary will take

Globalizing Local Policing David Sausdal, 2023-03-24 The book examines the globalization of local policing through an ethnographic study of the Danish Police Where many studies are looking into how larger inter or transnational policing bodies and policies are changing the world of policing few have gauged how local public police forces are also globalizing This book provides some unique insights into this under researched process Specifically it describes the daily practices and perceptions of two Danish detective task forces tasked with the investigation of organized property crimes committed by foreign nationals In the book readers get to see how the detectives think and work including the many efforts they make in attuning their daily work to a more global reality More so readers get to see how the detectives fail and the many frustrations and concerns that such changes include One the one hand Danish detectives very much understand the need to de localize and develop their work On the other hand they feel that many of these changes are in conflict with what they find to be real and rewarding police work For people interested in contemporary issues of policing the book thus points to a puzzling paradox Globalization might be making for

more mobile and even mobilised local forces more technologically driven and collaborating with international partners However these very processes are also making local officers feel more disarmed than ever Ultimately the book describes why that is its consequences as well as how to imagine a form of global policing more in tune with its local actors **Forever Loved: Exposing the hidden Crisis of Missing and Murdered Indigenous Women and Girls in Canada** Lavell Memee.D Harvard,2016-05-01 The hidden crisis of missing and murdered Indigenous women and girls in Canada is both a national tragedy and a national shame In this ground breaking new volume as part of their larger efforts to draw attention to the shockingly high rates of violence against our sisters Jennifer Brant and D Memee Lavell Harvard have pulled together a variety of voices from the academic realms to the grassroots and front lines to speak on what has been identified by both the Inter American Commission on Human Rights and the United Nations as a grave violation of the basic human rights of Aboriginal women and girls Linking colonial practices with genocide through their exploration of the current statistics root causes and structural components of the issue including conversations on policing media and education the contributing authors illustrate the resilience strength courage and spirit of Indigenous women and girls as they struggle to survive in a society shaped by racism and sexism patriarchy and misogyny This book was created to honour our missing sisters their families their lives and their stories with the hope that it will offer lessons to non Indigenous allies and supporters so that we can all work together towards a nation that supports and promotes the safety and well being of all First Nation M tis and Inuit women and girls **International Prosecutors** Luc Reyndams,Jan Wouters,Cedric Ryngaert,2012-05-31 This volume examines the prosecution as an institution and a function in a dozen international and hybrid criminal tribunals from Nuremberg to the International Criminal Court It is the result of a sustained collaborative effort among some twenty scholars and former tribunal staffers The starting point is that the prosecution shapes a tribunal s practice and legacy more than any other organ and that a systematic examination of international prosecutors is therefore warranted The chapters are organized chronologically according to the successive phases of the life of the institution and the various stages of the trials The analysis includes each institution s establishment mandate and jurisdiction as well as the prosecutorial framework and strategy the prosecutor s external relations and the completion of the institution s work The book also considers the prosecutors independence and impartiality and their accountability for their decisions The volume thus provides a comprehensive picture of the mandate organization and operation of the prosecution in international criminal trials As the first comprehensive study of an international legal actor whose decisions have widespread political repercussions this book will be essential reading for all with an interest in international criminal justice **The Routledge International Handbook of Ethnomethodology** Andrew P. The Persistent Prison? Maeve Winifred McMahon, 1992-01-01 The Prison system is widely believed to be an immutable element of contemporary society Many criminologists and sociologists of deviance believe that decarceration movements have failed to yield progressive reform and that feasible alternatives to the prison system do not exist Maeve McMahon challenges these views Reconstructing the emergence of critical perspectives on decarceration she examines analytical and empirical problems in the research She also points out how indicators of community programs and other penalties serving as alternatives to prison have typically been overshadowed through critical focus on their effects in widening the net of control McMahon presents a detailed analysis of decreasing imprisonment and of the part played by alternatives in this during the postwar period in Ontario Drawing from extensive documentary research and from interviews with former correctional officials she charts the changing climates of opinions and socio economic factors which facilitated decarceration By situating her analysis in the context of theoretical and political arguments about the possibility of decarceration McMahon provides in her work a stimulus to the development of progressive penal politics not just in Canada but in all western countries

Police Culture in a Changing World Bethan Loftus, 2012-01-19 This fascinating new title offers an ethnographical investigation of contemporary police culture based on extensive field work across a range of ranks and units in the UK s police force By drawing on over 600 hours of direct observation of operational policing in urban and rural areas and interviews with over 60 officers the author assesses what impact three decades of social economic and political change have had on police culture She offers new understandings of the policing of ethnicity gender and sexuality and the ways in which reform initiatives are accommodated and resisted within the police The author also explores the attempts of one force to effect cultural change both to improve the working conditions of staff and to deliver a more effective and equitable service to all groups in society Beginning with a review of the literature on police culture from 30 years ago the author goes on to outline the new social economic and political field of contemporary British policing Taking this as a starting

point the remaining chapters present the main findings of the empirical research in what is a a truly comprehensive analysis of present day policing culture
