Macleod Norman Macleod, 1861 **The Principle of Non-contradiction in Plato's Republic** Laurence Bloom, 2017-03-08 Plato s formulation of the Principle of Non contradiction PNC in Republic IV is the first full statement of the principle in western philosophy His use of the principle might seem to suggest that he endorses the PNC After all how could one possibly deny so fundamental a principle especially when it seems difficult to deny it without relying on it However the endorsement in the text is qualified Socrates refers to the principle as one that he and his interlocutors will hypothesize and warns that if it should ever be shown to be false all that follows from it will also be refuted Scholars who have noticed this issue have tended to assume that the truth of the hypothesis in question can be guaranteed

Laurence Bloom argues against unthinkingly accepting this claim. He suggests that what emerges from the text is more sophisticated. Plato's concession that the PNC is hypothetical is a textual clue pointing us to a complex philosophical argument that grounds the PNC as well as the sort of reasoning it grounds in form. Indeed, in framing the problem in this way, we can read the Republic as providing an extended argument for form. The argument for forms that emerges is complex and difficult. It is not and cannot be a normal discursive argument. Indeed, the argument cannot even be one that assumes the PNC, if it did so it would fall prey to a vicious circularity. Rather, the argument rests on the very possibility of our hypothesizing the PNC in the first place. Our ability to hypothesize the PNC and perhaps our inability not to hypothesize it is the linchpin. When we ask questions such as to what objects does the PNC apply or how is it possible that we apply the PNC, we are asking questions that lead us to the existence of form. The Principle of Non-contradiction in Plato's Republic also explores the soul of the knower, the very entity to which and by which the principle is applied in the text and its underlying unity.
