Making Government Work Martin A. Levin,1994-05-01 Making Government Work Martin A. Levin,Mary Bryna Sanger,2001-08-29 In this refreshing look at leadership and management in government the authors suggest that innovative policy programs are only as good as the managerial skills of the government employees who carry them out They detail key characteristics of successful innovations and managerial skills of successful innovators Using success stories drawn from a broad range of innovative public programs and agencies over the last twenty years Making Government Work reveals how executives create public sector innovation and the ways in which even ordinary public managers can improve public performance The authors show how executives can make a difference Bright ideas and policy choices grab all the attention But bright ideas are not enough to produce policy success Management matters because that is often where policy and programs fail and succeed

Changing Public Sector Values Montgomery Van Wart,2013-10-28 First Published in 1998 The single most important purpose of this book is to create a field of public administration values a field that currently does not exist in a recognizable form Surely values are discussed significantly and usefully by the fields of

ethics management decision making and organization behavior and theory to mention only a few But these discussions are inevitably narrower in scope than is necessary for a true field of values Such a field is needed to help bridge the seeming chasm about discussions of values among the established fields A second purpose of this text is to provide a comprehensive treatment of values A third purpose of the text is to provide a balanced treatment giving all the major schools of thought roughly the same coverage so that their values can be compared as dispassionately as possible A fourth purpose of the book is to make the subject accessible to and interesting for practitioners and students

Unleashing Change Steven Kelman,2005-11-01 This is a hopeful account of the potential for organizational change and improvement within government Despite the mantra that people resist change it is possible to effect meaningful reform in a large bureaucracy In *Unleashing Change* public management expert Steven Kelman presents a blueprint for accomplishing such improvements based on his experience orchestrating procurement reform in the 1990s Kelman s focuses on making change happen on the front lines not just getting it announced by senior policymakers He argues that frequently there will be a constituency for change within government organizations The role for leaders is not to force change on the unwilling but to unleash the willing and to persist long enough for the change to become institutionalized Drawing on the author s own personal experience and extensive research among frontline civil servants as well as literature in organization theory and psychology *Unleashing Change* presents an approach for improving agency performance from soup to nuts mixing theory with practice Its analysis is innovative and empirically rich Kelman s conclusions challenge conventional notions about achieving reform in large organizations and mark a major advance in theories of organizational change His lessons will be of interest not only to scholars interested in improving the performance of the public sector but for anyone struggling to manage a large organization

Celebrity Influence Mark Harvey, 2018-01-12 Why should we listen to celebrities like Bono or Angelina Jolie when they endorse a politician or take a position on an issue Do we listen to them Despite their lack of public policy experience celebrities are certainly everywhere in the media appealing on behalf of the oppressed advocating policy change even in one spectacular case leading the birther movement all the way to the White House In this book Mark Harvey takes a close look into the phenomenon of celebrity advocacy in an attempt to determine the nature of celebrity influence and the source and extent of its power Focusing on two specific kinds of power the ability to spotlight issues in the media and to persuade audiences Harvey searches out the sources of celebrity influence and compares them directly to the sources of politicians influence In a number of case studies such as Jolie and Ben Affleck drawing media attention to the civil war in the Democratic Republic of Congo Bob Marley uniting warring factions in Jamaica John Lennon networking with the new left to oppose Richard Nixon's re-election Elvis Presley working with Nixon to counter anti-war activism he details the role of celebrities working with advocacy groups and lobbying politicians to affect public opinion and influence policy A series of psychological experiments demonstrate that celebrities can persuade people to accept their policy positions even on national security issues Harvey's analysis of news sources reveals that when celebrities speak about issues of public importance they get disproportionately more coverage than politicians Further his reading of surveys tells us that people find politicians no more or less credible than celebrities except politicians from the opposing party who are judged less credible At a time when the distinctions between politicians and celebrities are increasingly blurred the insights into celebrity influence presented in this volume are as relevant as they are compelling

The Tides of Reform Paul Charles Light, 1997-01-01 During the past fifty years the Congresses and presidents of the United States have made many efforts to improve the performance of the federal government In this book a leading expert in public management examines the most important reform statutes passed and concludes that the problem is not too little reform but too much Paul Light explains that Congress and the presidency have never decided whether they trust government and its employees to do their jobs well and so they have moved back and forth over the decades between four reform philosophies scientific management war on waste watchful eye and liberation management These four philosophies argues Light operate with different goals implementation strategies and impacts Yet reform initiatives draw on one or another of them almost at random often canceling out the potential benefits of a particular statute by passing a contradictory statute soon afterward Light shows that as the public has become increasingly distrustful of government the reform agenda has favored the war on waste and watchful eye He analyzes the consequences of these

changes for the overall performance of government and offers policy recommendations for future reform approaches
