

Superpowers (6 of the 21)

Empathy (A)

You have amazing powers of perception. You sense needs and emotions, even when no one is saying anything, which makes you a great asset when the team is building a new relationship.

Experimentation (B)

You have a prototyping mindset. You rapidly generate ideas, identify the best, set them in motion, and refine as you go. You have high standards, but aren't afraid to fail, which helps your team take action.

Grit (C)

You are the quiet engine of the team—pushing yourself and the work until it is truly done. You pace yourself, overcoming setbacks and procrastination, and you motivate others to do the same.

Provocation (D)

You often strive for greatness when others might be content with good enough. You push the team outside its comfort zone. The team needs you most when the work lacks originality.

Systems Thinking (E)

You see the forest and the trees—even the underground root system. When the team is navigating a complicated situation, you help them think through the pros and cons of various options.

Vision (F)

You have a kind of crystal ball—you can see a future destination in vivid color. Even if some details about how to get there may be hazy, you keep the team's ambition high throughout the journey.
