Europe It combines interdisciplinary and intermedial research on experimental aesthetics and poetics The essays written by experts from more than fifteen countries seek to bring out the complexity of the European avant garde and modernism by relating it to Europe s intricate history multiculturalism and multilingualism They aim to inquire into the divergent cultural views on Europe taking shape in avant garde and modernist practices and to chart a composite image of the other Europe s that have emerged from the contemporary avant garde and experimental modernism How did the avant garde and modernism in and outside Europe give shape to local national and pan European forms of identity and community To what extent does the transnational exchange and cross fertilisation of aesthetic tendencies illustrate the well rehearsed claim that the avant gardes form a typically European phenomenon Dealing with canonised as well as lesser known exponents of modernism and the avant garde throughout Europe this book will appeal to all those interested in European cultural literary and art history

Radicalism in French Culture Niilo Kauppi, 2016-09-17 An invisible pattern draws together most studies dealing with French cultural radicalism in the 1960s with intellectual creation reduced to individual creation and the role of semiotic and social factors that influence intellectual innovation minimized Sociological approaches often see a more or less external link between social location and intellectual production but because of their structural approach they are incapable of taking into account unique historical circumstances the crucial role of personal impulses and more importantly the semiotic logic of ideas as conditions of innovative thinking This ground breaking book will further an internal sociological analysis of ideas and styles of thought It will show that the defining but largely neglected feature of what has become French theory was a collective mind and style of thought an explosive but fragile mixture of scientific and political radicalism that rather quickly watered down to academic orthodoxy For some time radical intellectuals succeeded in producing ideas that were perfectly in tune with the demands of the consumers mostly the young university audience Ideas were used as part of radical posture that was set in opposition to

the establishment and those in power Ideas could not be too empirical or verifiable and they had to shock It is not surprising that a slew of new sciences and concepts were invented to indicate this radical posture The central argument of this study is that ideas become power ideas only if they succeed in uniting individual and collective psychic investment in powerful social networks with significant institutional and political backing These conditions were met in the French context for a certain specific period of time From roughly the mid 1960s to the beginning of the 1970s radical intellectuals such as Roland Barthes Pierre Bourdieu Jacques Derrida Michel Foucault Julia Kristeva developed a host of new ideas concepts and theories a number of which have subsequently been labelled as French theory The Future of Theory Jean-Michel Rabaté, 2008-04-15 In this controversial manifesto Jean Michel Rabat addresses current anxieties about the future of literary and cultural theory and proposes that it still has a crucial role to play *French Intellectual Nobility* Niilo Kauppi, 1996-11-26 French thinkers like Roland Barthes Pierre Bourdieu A J Greimas Michel Foucault and Claude Levi Strauss created the structuralist and poststructuralist movements They succeeded Sartrean existentialism and formed a new aristocracy of culture French Intellectual Nobility is the first study to examine the conditions for the creation of these movements Through case studies in cultural history sociology semiology and literature the book discusses the processes that enabled the French intellectual nobility to reinvent itself By developing a historical and comparative approach Kauppi analyzes the challenges that an intellectual generation faced and he contributes to a context sensitive analysis of culture and power **A Companion to James Joyce** Richard Brown, 2013-06-06 A Companion to James Joyce offers a unique composite overview and analysis of Joyce s writing his global image and his growing impact on twentieth and twenty first century literatures Brings together 25 newly commissioned essays by some of the top scholars in the field Explores Joyce s distinctive cultural place in Irish British and European modernism and the growing impact of his work elsewhere in the world A comprehensive and timely Companion to current debates and possible areas of future development in Joyce studies Offers new critical readings of several of Joyce s works including *Dubliners* *A Portrait of the Artist as a Young Man* and *Ulysses* **Understanding Sade, Understanding Modernism** James Martell, 2025-01-23 The most current multidisciplinary and multivocal engagement with Sade s enduring influences on modernism and the philosophical need for continued analysis of his work and the questions it raises From Lacan to Dal through Simone de Beauvoir Beckett Horkheimer Burroughs Pasolini Foucault Deleuze up to i ek the Marquis de Sade s influence and impact on modernism and modern thinking is hard to measure Understanding Sade Understanding Modernism presents its readers with a chance to reflect on the importance of this radical oeuvre from different perspectives Contributors examine Sadean literature and thought through some of its main texts including *120 Days of Sodom* *History of Juliette* *The Crimes of Love* and *Philosophy in the Boudoir* in a series of comparative essays that not only examine Sade s influence in French European and American thought but also critique it in the context of some of modern philosophy s most relevant subjects ecology nature universalism and the links between ethics and aesthetics The final section

identifies key concepts and notions within Sade's corpus in a series of entries offering context and a discussion of their relevance for current thought

Robert Rauschenberg and Surrealism Gavin Parkinson, 2023-03-23 The art of Robert Rauschenberg 1925-2008 is usually viewed as quite distinct from Surrealism a movement which the artist himself displayed some hostility towards However Rauschenberg had a very positive reception among Surrealists particularly across the period 1959-69 In the face of Rauschenberg's avowals of his own literalism and insistence on his art as facts this book gathers generous evidence of the poetic metaphorical allusive associative and connotative dimensions of the artist's oeuvre as identified by Surrealists and thus extrapolates new readings from Rauschenberg's key works on that basis By viewing Rauschenberg's art against the expansion of the cultural influence of the United States in Europe in the period after the Second World War and the increasingly politicized activities of the Surrealists in the era of the Algerian War of Independence 1954-62 *Robert Rauschenberg and Surrealism* shows how poetic inference of the artist's work was turned towards political interpretation By analysing Rauschenberg's art in the context of Surrealism and drawing from it new interpretations and perspectives this volume simultaneously situates the Surrealist movement in 1960s American art criticism and history

Kristeva and the Political Cecilia Sjöholm, 2005 Julia Kristeva is one of the most influential French thinkers of the twentieth century and is best known for her work in linguistics Even though her work has been very influential the political implications of her writings have so far been neglected *Kristeva and the Political* is the first book to explore the relation of Kristeva's work to the political and casts new light on her work connecting her to recent developments in literary theory political theory and cultural studies In particular it shows how Kristeva's account of the unconscious and psychoanalysis generally widens the notion of the political Each chapter introduces a fundamental theme in Kristeva's work highlighting a specific period of development in her thought and drawing on texts from the 1960s through to the 1990s Themes addressed include Kristeva's theory of discourse the theory of the subject the notion of alterity feminism and marginality and her theory known as the politics of meaning *Kristeva and the Political* also shows how Kristeva's notions of the political draw on a rich array of thinkers and writers from Freud Melanie Klein and Lacan to Proust and Marguerite Duras

Reflets Réciproques Pamela Marie Hoffer, 2006 *Reflets r ciproques A Prismatic Reading of Stéphane Mallarmé and Hélène Cixous* evokes the refractory aspect of a prism that bends and deflects light in order to produce a spectrum of twentieth century thought emanating from the late nineteenth century French literary avant garde Because the works of Mallarmé and Cixous are often described as hermetic and illisible Jacques Derrida intervenes to play the role of intermediary through his separate writings on these poets Important questions arise How does the elliptical writing of Mallarmé relate to the hyperbolic writing of Cixous What common strategies emerge and how do these strategies address the critical areas of sexual difference and political testimony for each writer
