The Last Shah Ray Takeyh, 2021-01-26 The surprising story of Iran's transformation from America's ally in the Middle East into one of its staunchest adversaries An original interpretation that puts Iranian actors where they belong at center stage Michael Doran Wall Street Journal An extraordinary account Deeply nuanced and eloquent Benjamin Weinthal Jerusalem Post Offering a new view of one of America's most important infamously strained and widely misunderstood relationships of the postwar era this book tells the history of America and Iran from the time the last shah Mohammad Reza Pahlavi was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power This revolution was not as many believe the popular overthrow of a powerful and ruthless puppet of the United States rather it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and ultimately lost the support of every sector of Iranian society Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events including the 1953 coup against Prime Minister Mohammad Mossadeq and the rise of Ayatollah Ruhollah Khomeini significantly revising our understanding of America and Iran's complex and difficult history

Hidden Liberalism Hussein Banai, 2020-12-10 Compared to rival ideologies liberalism has fared rather poorly in modern Iran This is all the more remarkable given the essentially liberal substance of various social and political struggles for liberal legality individual rights and freedoms and pluralism in the century long period since the demise of the Qajar dynasty and the subsequent transformation of the country into a modern nation state The deeply felt but largely invisible purchase of liberal political ideas in Iran challenges us to think more expansively about the trajectory of various intellectual developments since the emergence of a movement for reform and constitutionalism in the late nineteenth century It complicates parsimonious accounts of Shi'ism secularism socialism nationalism and royalism as defining or representative ideologies of particular eras Hidden Liberalism offers a critical examination of the reasons behind liberalism's

invisible yet influential status and its attendant ethical quandaries in Iranian political and intellectual discourses

Guardians of the Revolution Ray Takeyh, 2009-05-27 For over a quarter century Iran has been one of America's chief nemeses Ever since Ayatollah Khomeini overthrew the Shah in 1979 the relationship between the two nations has been antagonistic revolutionary guards chanting against the Great Satan Bush fulminating against the Axis of Evil Iranian support for Hezbollah and President Ahmadinejad blaming the U S for the world's ills The unending war of words suggests an intractable divide between Iran and the West one that may very well lead to a shooting war in the near future But as Ray Takeyh shows in this accessible and authoritative history of Iran's relations with the world since the revolution behind the famous personalities and extremist slogans is a nation that is far more pragmatic and complex than many in the West have been led to believe Takeyh explodes many of our simplistic myths of Iran as an intransigently Islamist foe of the West Tracing the course of Iranian policy since the 1979 revolution Takeyh identifies four distinct periods the revolutionary era of the 1980s the tempered gradualism following the death of Khomeini and the end of the Iran Iraq war in 1989 the reformist period from 1997 2005 under President Khatami and the shift toward confrontation and radicalism since the election of President Ahmadinejad in 2005 Takeyh shows that three powerful forces Islamism pragmatism and great power pretensions have competed in each of these periods and that Iran's often paradoxical policies are in reality a series of compromises between the hardliners and the moderates often with wild oscillations between pragmatism and ideological dogmatism The U S's task Takeyh argues is to find strategies that address Iran's objectionable behavior without demonizing this key player in an increasingly vital and volatile region With its clear sighted grasp of both nuance and historical sweep *Guardians of the Revolution* will stand as the standard work on this controversial and central actor in world politics for years to come

Fundamentalisms and the State Martin E. Marty, R. Scott Appleby, 1993 This third volume of the Fundamentalism Project provides a systematic overview of the advances made by antiseccular religious movements over the

past twenty five years The distinguished contributors to this volume economists political scientists religious historians social anthropologists and sociologists focus on the impact these movements have had on national economies political parties constitutional issues and international relations on five continents and within the religious traditions of Islam Christianity Judaism Buddhism Hinduism and Sikhism Do fundamentalisms tend toward political activism and how successful have they been in remaking political structures To answer this question and others the contributors discuss the anti abortion movement in the U S the Islamic war of resistance in Afghanistan and Shiite jurisprudence in Iran Martin E Marty and R Scott Appleby conclude the volume with a synthetic statement of fundamentalist impact on polities economies and state security The Fundamentalism Project is a monumental undertaking by the American Academy of Arts and Sciences that involves an international group of scholars Taken together the volumes in this series will become a standard reference for educators and policy analysts for years to come *Secularization of Islam in Post-Revolutionary Iran* Mahmoud Pargoo,2021-05-30

Examining the trajectory of the secularization of Islam in Iran this book explains how efforts to Islamize society led self destructively to its secularization The research engages a range of debates across different fields emphasizing the political and epistemological instability of the basic categories such as Islam Sharia and secularism The volume is an interdisciplinary study of both the history of Islamic revival and Khomeini s very specific merger of Islamic law and mysticism It traces back the process of secularization to the early encounter of Iranian intellectuals with Europeans and adoption of their fundamental framework in an Islamic guise The process continued until the Islamic Revolution of Iran in 1979 when Khomeini tried to substantively de secularize Iranian social imaginaries His attempts were not followed up by his followers who vigorously reinstated the previous trend after his death resulting in a polity that is mostly secular but with Islamic ornaments Bringing together area studies Iran religious studies Islam and political theory secularism this interdisciplinary volume places findings in a broader narrative that is both specific to Iran and broad enough to engage a global readership Peace as Liberation

Fatima Waqi Sajjad,2023-09-29 This edited volume highlights a type of violence largely overlooked by peace psychologists it explores epistemic violence which refers to the silencing of the marginalized racialized and colonized people in the process of knowledge production This book celebrates the voices and the agency of the subalterns honoring their visions testimonies and struggles to push boundaries and create spaces for peace within oppressive environments Visions and Praxis from below refers to peace visions and struggles of the people who live below the vital ability of shaping the world according to their own vision It is a challenge to the hegemonic perspective that credible thinking on peace can only be done by the people from above This perspective will add to the understanding of not only peace psychologists but all those who work toward social justice **Deadly Connections** Daniel Byman,2005-06-27 Thousands of people have died at the hands of terrorist groups who rely on state support for their activities Iran and Syria are well known as sponsors of terrorism while other countries some with strong connections to the West have enabled terrorist activity by turning a blind eye Daniel Byman s hard hitting

and articulate book analyzes this phenomenon Focusing primarily on sponsors from the Middle East and South Asia it examines the different types of support that states provide their motivations and the impact of such sponsorship The book also considers regimes that allow terrorists to raise money and recruit without providing active support The experiences of Iran Pakistan Afghanistan Syria Saudi Arabia and Libya are detailed here alongside the histories of radical groups such as al Qaida and Hizballah The book concludes by assessing why it is often difficult to force sponsors to cut ties to terrorist groups and suggesting ways in which it could be done better in the future
