Making Of The Soviet System Essays In The Social History Of Interwar Russia:

The Making of the Soviet System Moshe Lewin, 1985 Moshe Lewin traces the transformation of Russian society and the Russian political system in the period between the two world wars a transformation that was to lead to Stalinism in the 1930s Lewin focuses on the changes stemming from war revolution civil war and industrialization and he discusses such topics as rural society and religion in the twentieth century the background of Soviet collectivization Soviet prewar policies of agricultural procurement the kolkhoz and the muzhik Leninism and Bolshevism industrial relations during the five year plans of 1928 1941 and the social background of Stalinism In his introduction Lewin examines the political ideological and cultural developments that accompanied or in some cases resulted from these changes Through this comprehensive approach to understanding the origins and problems of Stalinism Lewin makes a significant contribution to the study of Russia's social history before the revolution as well as in the Soviet period Jacket Russia's International Relations in the Twentieth Century Alastair Kocho-Williams, 2013-01-04 Russia has long been a major player in the international relations arena but only by examining the whole century can Russian foreign policy be properly understood and the key questions as to the impact of war of revolution of collapse the emergence of the Cold War and Russia's post Soviet development be addressed Surveying the whole of the twentieth century in an accessible and clear manner Russia's International Relations in the Twentieth Century provides an overview and narrative with analysis that will serve as an introduction and resource for students of Russian foreign policy in the period and those who seek to understand the development of modern Russia in an international context The volume includes an analysis of the major themes which surrounded Russia's position in world affairs as one of the European Great Powers before the First World War the impact of Revolution and the emergence of Soviet foreign policy with its dual aims of normalization and world revolution the changes wrought to the international order by the rise of Nazi Germany and by the Second World War the origins and development of the Cold War the end of the Cold War and the Soviet collapse how Russia has rebuilt itself as an international power in the post Soviet era An essential resource for students of Russian history and International policy **The Totalitarian Experiment in Twentieth Century Europe** David Roberts, 2006-04-27 By developing a long term supranational perspective this ambitious multi faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book's original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important

lessons about the ongoing challenges possibilities and dangers of the modern political experiment **Stalinism and Soviet Rail Transport, 1928-41** E. A. Rees, 1995-01-12 This work provides an in depth case study of decision making in the Soviet Union in the Stalin era It focuses on the development of rail transport policy upon which the entire economy as well as the country's defence were so crucially dependent It analyses the role of institutional lobbies in shaping policy and sheds new light on the Stakhanovite movement and analyses for the first time the impact of the Great Purges on the railways The work provides a critical examination of the adequacy of existing conceptualisations of the Stalinist state **Imagined Histories** Anthony Molho, Gordon S. Wood, 1998 This collection of essays by twenty one distinguished American historians reflects on a peculiarly American way of imagining the past At a time when history writing has changed dramatically the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present more cosmopolitan character In the book's first part concerning recent historiography are chapters on exceptionalism gender economic history social theory race and immigration and multiculturalism Authors are Daniel Rodgers Linda Kerber Naomi Lamoreaux Dorothy Ross Thomas Holt and Philip Gleason The three American centuries are discussed in the second part with chapters by Gordon Wood George Fredrickson and James Patterson The third part is a chronological survey of non American histories including that of Western civilization ancient history the middle ages early modern and modern Europe Russia and Asia Contributors are Eugen Weber Richard Saller Gabrielle Spiegel Anthony Molho Philip Benedict Richard Kagan Keith Baker Joseph Zizak Volker Berghahn Charles Maier Martin Malia and Carol Gluck Together these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world Formerly writing from a conviction that America had a singular destiny American historians have gradually come to share viewpoints of historians in other countries about which they write The result is the virtual disappearance of what was a distinctive American voice That voice is the subject of this book **A History of Russia, Central Asia and Mongolia, Volume II** David Christian, 2018-01-08 Provides an all encompassing look at the history of Russia Central Asia and Mongolia Beginning with the breakup of the Mongol Empire in the mid thirteenth century Volume II of this comprehensive work covers the remarkable history of Inner Eurasia from 1260 up to modern times completing the story begun in Volume I Volume II describes how agriculture spread through Inner Eurasia providing the foundations for new agricultural states including the Russian Empire It focuses on the idea of mobilization the distinctive ways in which elite groups mobilized resources from their populations and how those methods were shaped by the region's distinctive ecology which differed greatly from that of Outer Eurasia the southern half of Eurasia and the part of Eurasia most studied by historians This work also examines how fossil fuels created a bonanza of energy that helped shape the history of the Communist world during much of the twentieth century Filled with figures maps and tables to help give readers a fuller understanding of what has transpired over 750 years in this distinctive world region A History of Russia Central Asia and Mongolia Volume II Inner Eurasia from the Mongol

Empire to Today 1260 2000 is a magisterial but accessible account of this area's past that will offer readers new insights into the history of an often misunderstood part of the world. Situates the histories of Russia, Central Asia and Mongolia within the larger narrative of world history. Concentrates on the idea of Inner Eurasia as a coherent ecological and geographical zone. Focuses on the powerful ways in which the region's geography shaped its history. Places great emphasis on how mobilization played a major part in the development of the regions. Offers a distinctive interpretation of modernity that highlights the importance of fossil fuels. Offers new ways of understanding the Soviet era. A History of Russia, Central Asia and Mongolia Volume II is an ideal book for general audiences and for use in undergraduate and graduate courses in world history. The Blackwell History of the World Series. The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world. It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time. The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change. Each provides a systematic account of a very large subject but they are also both imaginative and interpretative. The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production. Russian Foreign Policy in the Twenty-first Century and the Shadow of the Past Robert Legvold, 2007. Because the turbulent trajectory of Russia's foreign policy since the collapse of the Soviet Union echoes previous moments of social and political transformation, history offers a special vantage point from which to judge the current course of events. In this book a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history. The authors explain the impact of empire and its loss, the interweaving of domestic and foreign impulses, long-standing approaches to national security and the effect of globalization over time. Contributors focus on the underlying patterns that have marked Russian foreign policy and that persist today. These patterns are driven by the country's political makeup, geographical circumstances, economic strivings, unsettled position in the larger international setting and above all its tortured effort to resolve issues of national identity. The argument here is not that the Russia of Putin and his successors must remain trapped by these historical patterns but that history allows for an assessment of how much or how little has changed in Russia's approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve. A truly unique collection, this volume utilizes history to shed crucial light on Russia's complex, occasionally inscrutable relationship with the world. In so doing it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined. *The Fate of the Bolshevik Revolution* Lara Douds, James Harris, Peter Whitewood, 2020-01-23. How did a regime that promised utopian style freedom end up delivering terror and tyranny? For some the Bolsheviks were totalitarian and the descent was inevitable; for others Stalin was responsible

for others still this period in Russian history was a microcosm of the Cold War The Fate of the Bolshevik Revolution reasons that these arguments are too simplistic Rather the journey from Bolshevik liberation to totalitarianism was riddled with unsuccessful experiments compromises confusion panic self interest and over optimism As this book reveals the emergence and persistence of the Bolshevik dictatorship was in fact the complicated product of a failed democratic transition Drawing on long ignored archival sources and original research this fascinating volume brings together an international team of leading scholars to reconsider one of the most important and controversial questions of 20th century history how to explain the rise of the repressive Stalinist dictatorship

Soviet Criminal Justice Under Stalin Peter H. Solomon,1996-10-28 Soviet Criminal Justice under Stalin first published in 1997 is a comprehensive account of Stalin s struggle to make criminal law in the USSR a reliable instrument of rule Using recently declassified archives Peter Solomon tells the revealing story of non political justice on the local scene as well as in the center Contrary to conventional wisdom Solomon emphasizes the initial weakness of the Soviet state and the limits of Stalin s capacity to rule Solomon s study also offers new perspectives on collectivization the Great Terror the politics of abortion and the disciplining of the labour force This book should appeal to anyone interested in the political social or legal history of the USSR judicial reform in post Soviet states law in authoritarian regimes or comparative legal development

Settlers on the Edge Niobe Thompson,2009-01-01 Based on extensive research in the Arctic Russian region of Chukotka *Settlers on the Edge* is the first English language account of settler life anywhere in the circumpolar north to appear since Robert Paine s *The White Arctic* 1977 and the first to explore the experiences of Soviet era migrants to the far north Niobe Thompson describes the remarkable transformation of a population once dedicated to establishing colonial power on a northern frontier into a rooted community of locals now resisting a renewed colonial project He also provides unique insights into the future of identity politics in the Arctic the role of resource capital and the oligarchs in the Russian provinces and the fundamental human questions of belonging and transience

The Anatomy of Revolution Revisited Bailey Stone,2014 This study aims to update a classic of comparative revolutionary analysis Crane Brinton s 1938 study *The Anatomy of Revolution* It invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the English Revolution of 1640 60 the French Revolution of 1789 99 and the Russian Revolution of 1917 29 This book intends to do what no other comparative analysis of revolutionary change has yet adequately done It not only progresses beyond Marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major European revolutions with postmodernist explanations of those upheavals that play up the centrality of human agency revolutionary discourse mentalities ideology and political culture

Reforming Rural Russia Francis William Wcislo,2014-07-14 As he examines administrative reform of Russian rural local government between the abolition of serfdom and World War I Francis William

Wcislo takes as his theme the repeated attempts of tsarist statesmen to restructure the most critical mediating link between the autocratic state and a rapidly modernizing agrarian society. His broader objective however is to use the issue of autocratic politics to probe the character and evolution of bureaucratic mentality in this period. Wcislo links the social psychological ideological and institutional nexus of the bureaucracy with its social underpinnings in rural society and lays bare the connections of the bureaucratic world with its traditional social base among the service nobility and the peasantry. Placing the conflicting views of officials within the context of the two political cultures of old regime society he shows how bureaucratic reformers anxious to promote civic culture were undermined by defenders of traditional autocracy and the society of service estates *soslovie* with which that autocracy had coexisted. This defense of tradition and the resulting failure of reformist initiatives were fundamental to the crisis of Russia in the early twentieth century. Originally published in 1990. The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Moscow Politics and The Rise of Stalin Catherine Merridale, 1990-10-19 Focusing on the development of the Communist Party in Moscow between 1925 and 1932 and its ultimate assumption of absolute power. This volume examines in detail the political changes in Moscow including the crisis over collectivization and the organization strategy of the Party in Moscow.

Russians in Iran Rudi Matthee, Elena Andreeva, 2018-01-25 *Russians in Iran* seeks to challenge the traditional narrative regarding Russian involvement in Iran and to show that whilst Russia's historical involvement in Iran is longstanding it is nonetheless much misunderstood. Russia's influence in Iran between 1800 and the middle of the twentieth century is not simply a story of inexorable intrusion and domination rather it is a complex and interactive process of mostly indirect control and constructive engagement. Drawing on fresh archival material the contributors provide a window into the power and influence wielded in Iran not just by the Russian government through its traditional representatives but by Russian nationals operating in Iran in a variety of capacities including individuals, bankers and entrepreneurs. *Russians in Iran* reveals the multifaceted role that Russians have played in Iranian history and provides an original and important contribution to the history and international relations of Iran, Russia and the Middle East.

Stalin's Railroad Matthew J. Payne, 2010-11-23 The Turkestan-Siberian Railroad or Turksib was one of the great construction projects of the Soviet Union's First Five Year Plan. As the major icon to ending the economic backwardness of the USSR's minority republics it stood apart from similar efforts as one of the most potent metaphors for the creation of a unified socialist nation. Built between December 1926 and January 1931 by nearly 50,000 workers and at a cost of more than 161 million rubles, Turksib embodied the Bolsheviks' commitment to end ethnic inequality and promote cultural revolution in one of the far

flung corners of the old Tsarist Empire Kazakhstan Trumpeted as the forge of the Kazakh proletariat the railroad was to create a native working class bringing not only trains to the steppes but also the Revolution In the first in depth study of this grand project Matthew Payne explores the transformation of its builders in Turksib s crucible of class war race riots state purges and the brutal struggle of everyday life In the battle for the souls of the nation s engineers as well as the racial and ethnic conflicts that swirled far from Moscow around Stalin s vast campaign of industrialization he finds a microcosm of the early Soviet Union

Debates on Stalinism Mark Edele,2020-06-11 Debates on Stalinism introduces major debates about Stalinism during and after the Cold War Did Stalinism form a system in its own right or was it a mere stage in the overall development of Soviet society Was it an aberration from Leninism or the logical conclusion of Marxism Was its violence the revenge of the Russian past or the result of a revolutionary mindset Was Stalinism the work of a madman or the product of social forces beyond his control The book shows the complexities of historiographical debates where evidence politics personality and biography are strongly entangled Debates on Stalinism allows readers to better understand not only the history of history writing but also contemporary controversies and conflicts in the successor states of the Soviet Union in particular Russia and Ukraine

From Tsarism to the New Economic Policy R. W. Davies,1990-06-18 A comparison between the tsarist economy on the eve of the revolution and the Soviet economy in the mid 1920s Questions posed include was the tsarist economy successful but destroyed by World War I And was the breakdown of the mixed economy of the 1920s an arbitrary political act

Building a new New World Jean-Louis Cohen,2021-01-12 An essential exploration of how Russian ideas about the United States shaped architecture and urban design from the czarist era to the fall of the U S S R Idealized representations of America as both an aspiration and a menace played an important role in shaping Russian architecture and urban design from the American Revolution until the fall of the Soviet Union Jean Louis Cohen traces the powerful concept of Amerikanizm and its impact on Russia s built environment from early czarist interest in Revolutionary America through the spectacular World s Fairs of the 19th century to department stores skyscrapers and factories built in Russia using American methods during the 20th century Visions of America also captivated the Russian avant garde from El Lissitzky to Moisei Ginzburg and Cohen explores the ongoing artistic dialogue maintained between the two countries at the mid century and in the late Soviet era following a period of strategic competition This first major study of Amerikanizm in the architecture of Russia makes a timely contribution to our understanding of modern architecture and its broader geopolitics

Socialism, Perestroika, And The Dilemmas Of Soviet Economic Reform John E Tedstrom,2019-07-09 This book highlights that Soviet economic planners and politicians must come to recognize the need to make fundamental changes not simply incremental refinements in the failing Soviet system It examines the dynamics of the process of perestroika and the complexity of individual economic issues

Purity and Compromise in the Soviet Party-State Daniel Stotland,2017-11-15 This work offers new ways of conceptualizing the decision making paradigm of the Soviet party state

that was defined by the persistent shortage of qualified manpower that afflicted the Russian elite. The traditional Russian problems of under administration combined with the unique features of the Soviet political system resulted in a dichotomy between practical and ideological demands. The WWII era examined in this book provides a microcosm of pressures facing the Kremlin and illustrates the cyclical nature of policy formation forced on it by the paradoxes of the system. As the party's responsibilities expanded into specialized economic and military areas, political experts increasingly depended on the specialized professionals. These trends grew increased drastically during the war. An unexpected consequence of the party's expansion into economic or military professions was the discovery that cooptation worked both ways and many party members became managers rather than ideological overseers. Throughout the existential crisis of the system, the war and its aftermath, the party would find itself in a fundamental conflict over its identity, challenged over its role both vis à vis the state and its own priorities. After an abortive attempt to reverse the wartime trends, a new paradigm was articulated by the party during the last five years of Stalin's reign. This resulted in the emergence of a new elite consensus which envisioned the party as integral and invasive economic actor. This shift in the party's identity was the price of maintaining centralized political power and came at the expense of the focus on ideological purity. In the long term, however, the diminished role of ideology robbed the party of its core value system and steadily eroded its legitimizing and self-energizing power. Over time, the new consensus would undermine the very foundations of the party-state construct. Yet if the USSR was to survive as a modern industrialized state, the accommodation with the technocrats was necessary. The contradiction between ideological and pragmatic aims was inherent to the system and demanded an eventual choice between the long-term health of the state and that of the party.

The Enigmatic Realm of **Making Of The Soviet System Essays In The Social History Of Interwar Russia**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary.
