

Of all the children in my school,

I may not be the tallest.

Of all the voices in the world,

Mine may be the smallest.

But I can almost touch the stars,

If I stand on my toes.

And soon my words might change the world,

So you'd better listen close.

Making A Poem:

Making Poems Todd F. Davis, Erin Murphy, 2010-02-02 This diverse collection of poems and companion essays by forty nationally and internationally known poets allows readers to experience the creative process through the eyes and voice of each poet No matter how often we are told that revision is an essential component of poetic composition it can be difficult to resist the temptation to think of the poem as having sprung spontaneously Athena like from the writer s head By exposing readers to the finished product as well as the poet s own account of the poem s creation Making Poems offers a behind the scenes perspective on the poetic process that will fascinate both beginning and established writers The book also affords poetry instructors an opportunity to demonstrate to their students the ways in which poems can originate from seemingly mundane and unlikely sources

To Make a Poem Alberta Turner, 1992-04 A poem comes from the same human need as a prayer a curse a lullaby and a keen How can emotion use language to satisfy its most urgent need and how can it share and prolong that satisfaction by putting it into poems that will satisfy the same need in others The answer can be learned and the skill taught Unlike many other textbooks this one has no teaching manual and Alberta Turner does not expect those who use it to agree with her interpretations Each principle is illustrated with detailed analysis of several poems but it is up to the teachers and students to decide whether it has succeeded or failed Poetic tastes can t be legislated they have to creep by underground runners Although a poem never illustrates only one poetic principle at a time this book has focused on each separately Since the book is intended to be used by beginning poets the principles are sequenced from simpler to more complex As courses in writing poetry range from two week enrichment programs to full semester college workshops the book is arranged so that the course can be shortened or lengthened This book will work best for flexible imaginative teachers of flexible imaginative students A Collegiate Press book
