Making And Breaking Of The Soviet System An Interpretation:

The Making and Breaking of the Soviet System Christopher Read, 2001-06-18 The consequences of the Russian Revolution of 1917 have been among the most dominant shaping forces of the twentieth century eventually dividing almost the entire globe into a battleground between capitalism and communism The reputations of the main leaders of Russia the Soviet Union Lenin Stalin Khrushchev Brezhnev Gorbachev and Yeltsin have soared and plummeted Great achievements such as victory over Nazi Germany putting the first satellite and human in space building a massive industrial base and advancing the living and educational standards of the population have been undermined by political repression and incalculable human cost In a cool non polemical manner the author shows how the contradictory parts of the Soviet experience are linked Using post Soviet materials and perspectives he examines the reasons for the successes and failures of the Soviet system In particular the book argues that the underlying reasons for the system's collapse can be found in the contradictions of the revolution which gave birth to it The consequences are traced through the Stalin Revolution the Great Terror the Second World War the Cold War the Khrushchev and Brezhnev years down to Gorbachev's doomed attempt to transform the Soviet system Particular attention is given to the divergence between the aspirations of the leadership and the social evolution of the ordinary Russian people The study concludes with a survey of the post Soviet scene from Yeltsin to Putin The result is a volume indispensable to anyone who needs a readily comprehensible guide to the Russia that lies beyond the stereotypes

Bourgeois Liberty and the Politics of Fear Marc Mulholland, 2012-10-04 In 1842 Heinrich Heine the German poet wrote that the bourgeoisie obsessed by a nightmare apprehension of disaster and an instinctive dread of communism were driven against their better instincts into tolerating absolutist government Theirs was a politics motivated by fear Over the next 150 years the middle classes were repeatedly accused of betraying liberty for fear of red revolution The failure of the revolutions of 1848 conservative nationalism from the 1860s fascist victories in the first half of the twentieth century and repression of national liberation movements during the Cold War these fateful disasters were all explained by the bourgeoisie's fear of the masses For their part conservatives insisted that demagogues and fanatics exploited the desperation of the poor to subvert liberal revolutions leading to anarchy and tyranny Only evolutionary reform was enduring From the 1970s however liberal revolution revived on an unprecedented scale With the collapse of communism bourgeois

liberty once again became a crusading force but now on a global scale In the twenty first century the armed forces of the United States Britain and NATO became instruments of regime change seeking to destroy dictatorship and build free market democracies President George W Bush called the invasion of Iraq in 2003 a watershed event in the global democratic revolution This was an extraordinary turn around with the middle classes now hailed as the truly universal class which in emancipating itself emancipates all society The debacle in Iraq and the Great Recession from 2008 revealed all too clearly that hubris still invited nemesis Bourgeois Liberty and the Politics of Fear examines this remarkable story and the fierce debates it occasioned It takes in a span from the seventeenth century to the twenty first covering a wide range of countries and thinkers Broad in its scope it presents a clear set of arguments that shed new light on the creation of our modern world

A History of Eastern Europe 1918 to the Present Ian D. Armour,2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe s tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945

The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe's backwardness. Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism. A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation; it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re-emerged more virulent than ever. This book is the essential textbook for any student of 20th century Eastern Europe. **Teaching History**, 2004

Writing the History of Memory Stefan Berger, Bill Niven, 2014-02-13 How objective are our history books? This addition to the Writing History series examines the critical role that memory plays in the writing of history. This book includes Essays from an international team of historians bringing together analysis of forms of public history such as museums, exhibitions, memorials and speeches. Coverage of the ancient world to the present on topics such as oral history and generational and collective memory. Two key case studies on Holocaust memorialisation and the memory of Communism. **Communism** Mark Sandle, 2014-05-22 The twentieth century cannot be properly understood unless we understand communism: its origins, growth, demise and legacy. This brief overview of the history of communism challenges us to think about its role in shaping the contemporary world. This book shows how the modern communist movement emerged out of radical millenarian movements of the Middle Ages and the English Civil War, becoming a mass movement of industrial society seeking to overturn capitalism and replace it with a society of equality, justice, harmony and co-operation. It traces the growth of modern communism from its beginnings in the early nineteenth century to its position of global power at the end of the Second World War. Why did communism grow so quickly? Why did it spread to turn almost half of the world red by the mid 1970s? What impact did it have upon capitalism and capitalist society? **Political Science Quarterly**, 2002 A review devoted to the historical, statistical and comparative study of politics, economics and public law. **Canadian-American Slavic Studies**, 2005 A quarterly journal devoted to Russia and East Europe. **Army Research and Development**, 1975 *Education of a Canadian* Gordon Skilling, 2000-12-06 Gordon Skilling writes candidly of each way station in this personal odyssey: the idealism of his student years at the University of Toronto and Oxford; his presence in Czechoslovakia on the eve of the Nazi and later Soviet invasions; his opposition to the Marshall Plan, NATO and U.S. intervention in Korea; the effect of McCarthyism on his academic life; his involvement with the Czech and Slovak dissident movements; and finally the Velvet Revolution. *The Education of a Canadian* also captures conversations with writers, journalists, scholars and myriad friends throughout Russia and Eastern Europe, including Havel, Djilas and Sakharov, making this history a distinctly human yet forceful document of profound humanity and international scope. [Making Russia and Turkey Great Again?](#) Norman A. Graham, Folke Lindahl, Timur Kocaoglu, 2021-03-19 This study analyzes theoretically and empirically the background of the rise to power of Vladimir Putin in Russia and Recep Tayyip Erdogan in Turkey. It situates this analysis in the contexts of the historical

assessment of the fragility of liberal democracy and the persistence and growth of authoritarianism populism and dictatorship in many parts of the world The authors argue that the question whether Putin and Erdogan can make Russia and Turkey great again is hard to confirm personal ambition for power and wealth is certainly key to an understanding of both rulers They each squandered opportunities to build from free and fair democratic electoral legitimacy and economic progress The prospect for restored national greatness depends on how they can handle the economic and political challenges they now face and will continue to face in the near future in a climate of global pandemic and economic recession Both rulers so far have succeeded in maintaining and increasing their powers and influence in their respective regions but neither has made real contributions to regional stability and order Chaos seems to be growing and the EU and the U S thus far seem unable to provide coherent responses to mitigate the impact of their adventurism and disruption **Army RD & A. ,1974 Army RD & A Bulletin ,1975 *Problems of Communism* ,1990 **Intelligence in the Cold War: What Difference did it Make?** Michael Herman,Gwilym Hughes,2013-09-13 Intelligence was a major part of the Cold War waged by both sides with an almost warlike intensity Yet the question What difference did it all make remains unanswered Did it help to contain the Cold War or fuel it and keep it going Did it make it hotter or colder Did these large intelligence bureaucracies tell truth to power or give their governments what they expected to hear These questions have not previously been addressed systematically and seven writers tackle them here on Cold War aspects that include intelligence as warning threat assessment assessing military balances Third World activities and providing reassurance Their conclusions are as relevant to understanding what governments can expect from their big secret organizations today as they are to those of historians analysing the Cold War motivations of East and West This book is valuable not only for intelligence international relations and Cold War specialists but also for all those concerned with intelligence s modern cost effectiveness and accountability This book was published as a special issue of Intelligence and National Security **Bulletin of the Atomic Scientists** ,1985-04 Ideology And Political System Kundan Kumar,2003 Contents Evolution of the Concept Impact of Ideology on the Theorising Politics The Soviet Ideology Origin Evolution and Formulations Ideological Socialist Bloc Emergence Role and Configuration Break up of the Soviet Union Rationale and Consequences Conclusion An End Or New Beginning**
