Many professional women intuit that male colleagues whose spouse handle for them the details of everyday life are favored in the workplace Blair Loy confirms this intuition and shows us how it happens She captures how the cultural schemas of family devotion and work devotion contribute to the reproduction of gender inequality and how meeting the demands of a husband's job and other people's needs push professional women to progressively abandon their work to take care of others Her analysis also gives us hope by comparing the fate of pre and post baby boomers This is both an important scholarly contribution and a book that will help readers think differently about their lives It should be required reading for professional women who aspire to maintain multidimensional lives

Michelle Lamont author of *The Dignity of Working Men Morality and the Boundaries of Race Class and Immigration* This is a fascinating book with an important message Blair Loy's findings are surprising She challenges conventional viewpoints She is on to something really new when she writes about not only the interplay between cultural norms and individual actions and institutional structures but on the cultural schemas that evoke deep emotional resonances An outstanding book

Cynthia Fuchs Epstein author of *Deceptive Distinctions Sex Gender and the Social Order* Mary Blair Loy's book transcends old debates about work and family by examining the women who have beaten the odds and risen to the top Her detailed examination of careers and strategies perfectly complements her subtle analysis of the schemas and visions these women have for their lives Blair Loy has given us not only a splendid view into a little known world but also a new way of understanding the dynamic interplay of work and family Looking beyond the static conflict we have studied so much she shows how creative women put traditional schemas of family and work into a mutual transformation to build for themselves a new and more livable world
