Modelle Der Jeans Prosa:

Modelle der Jeans Prosa Aleksandar Flaker, 1975 **Exploring Postmodernism** Matei Calinescu, Douwe W.

Fokkema, 1988-01-01 The great diversity of contexts in which the term Postmodernism is currently encountered reflects the remarkable success of a coinage that has been in circulation for only about forty years. It has been used by philosophers, sociologists, art critics and literary historians to become finally a household word in the language of advertising and politics. Before letting it fade to a derelict cliché, an attempt is made in this volume of essays to use its potential as a cultural concept for the analysis and understanding of contemporary literature and thought.

Eastern European Youth Cultures in a Global Context Matthias Schwartz, Heike Winkel, 2016-04-29 The demise of state Socialisms caused radical social, cultural and economic changes in Eastern Europe. Since then, young people have been confronted with fundamental disruptions and transformations to their daily environment while an unsettling globalized world substantially reshapes local belongings and conventional values. In times of multiple instabilities and uncertainties, this volume argues young people prefer to try to adjust to given circumstances than to adopt the behaviour of potential rebellious adolescent role models, dissident counter cultures or artistic breakings of taboo. **Eastern European Youth Cultures in a Global Context** takes this situation as a starting point for an examination of generational change, cultural belongings, political activism and everyday practices of young people in different Eastern European countries from an interdisciplinary perspective. It argues that the conditions of global change not only call for a differentiated evaluation of youth cultures but also for a revision of our understanding of youth itself in Eastern Europe and beyond.

Aspects and Issues in the History of Children's Literature Maria Nikolajeva, 1995-06-13 The contributors to this collection of essays address children's literature as an art form rather than an educational instrument, as has been the traditional approach. Scholars from 10 different countries present a variety of approaches to the history of children's literature, including views on sociological, semiotic and intertextual models of its evolution. Other issues explored include influence and interaction between stories and their countries of origin. This strong presentation of international perspectives on children's literature will be a valuable resource for scholars of children's and comparative literature.

Children's Literature Comes of Age Maria Nikolajeva, 2015-08-27 Originally published in 1996, a detailed analysis of the art of children's literature covering world literature for children, children's literature as a canonical art form, the history of children's literature from a semiotic perspective and epic polyphony, chronotope, intertextuality and metafiction in children's literature.

Contemporary Adolescent Literature and Culture Maria Nikolajeva, Mary Hilton, 2016-05-13 Offering a wide range of critical perspectives, this volume explores the moral, ideological and literary landscapes in fiction and other cultural productions aimed at young adults. Topics examined are adolescence and the natural world, nationhood and identity, the mapping of sexual awakening onto postcolonial awareness, hybridity and trans-racial romance, transgressive sexuality, the sexually abused adolescent body, music as a code for identity formation, representations of adolescent emotion and what

neuroscience research tells us about young adult readers writers and young artists Throughout the volume explores the ways writers configure their adolescent protagonists as awkward alienated rebellious and unhappy so that the figure of the young adult becomes a symbol of wider political and societal concerns Examining in depth significant contemporary novels including those by Julia Alvarez Stephenie Meyer Tamora Pierce Malorie Blackman and Meg Rosoff among others Contemporary Adolescent Literature and Culture illuminates the ways in which the cultural constructions adolescent and young adult fiction share some of society's most painful anxieties and contradictions Language, Literature & Meaning John Odmark, 1980-01-01 The essays in this two volume anthology provide the reader with an overview of current Czech Polish and Hungarian research in language literature and meaning as well as some new perspectives on the major theoretical contributions of Roman Ingarden Georg Lukács and Jan Mukařovský For the most part the emphasis is on Poetics and Literary Theory however in some of the essays the focus shifts to such related disciplines as Aesthetics Linguistics and Semiotics The heterogeneity of this collection reflects the broad spectrum of interests and approaches to problems of theory being pursued at present in Poland Hungary and Czechoslovakia Much of the work being done in these countries remains relatively unknown outside of Eastern Europe This anthology is an attempt to rectify this situation and make better known the nature and extent of research which promises new insights into a whole range of phenomena in language literature and culture
