The Making of Modern English Society from 1850 Janet Roebuck, 1982 In the second half of the nineteenth century and the first half of the twentieth century a variety of forces emerged which changed society in many profound and subtle ways *The Making of Modern English Society from 1850* uses the findings of recent historical and sociological research contemporary literature and a wide range of historical sources to form a clear picture of the main patterns of the social changes which took place in this turbulent period Jane Roebuck shows how in these hundred years the whole fabric of society altered more rapidly and radically than in any preceding century She gives an account of the dramatic change which occurred in all spheres of national life She demonstrates how the drift towards socialism which began in the nineteenth century gathered momentum in the twentieth and how massive social change was produced by the two world wars In the field of economics the author considers the development of the maturing but still primitive industrial economy of the mid nineteenth century into a modern economy based on mass production and mass consumption She also describes the change in emphasis from desire for world power to concern for domestic prosperity and welfare services

members of the family to allow them to remain politically active and socially influential within a solidly Protestant nation. In so doing it contributes to ongoing attempts to integrate the study of Catholicism into the mainstream of English social and political history transcending its traditional status as a special interest category remote from or subordinate to the central narratives of historical change. It will be particularly welcomed by historians of the sixteenth through to the nineteenth century who increasingly recognise the importance of both Catholicism and anti Catholicism as central themes in English cultural and political life.

Modern English Society Judith Ryder, 1983 **The Origins of Modern English Society, 1750-1880** Harold Perkin, 1971 *The Politics and Poetics of Contemporary English Tragedy* Sean Carney, 2013-01-01

The Politics and Poetics of Contemporary English Tragedy is a detailed study of the idea of the tragic in the political plays of David Hare, Howard Barker, Edward Bond, Caryl Churchill, Mark Ravenhill, Sarah Kane and Jez Butterworth. Through an in depth analysis of over sixty of their works, Sean Carney argues that their dramatic exploration of tragic experience is an integral part of their ongoing politics. This approach allows for a comprehensive rather than selective study of both the politics and poetics of their work. Carney's attention to the tragic enables him to find a common discourse among the canonical English playwrights of an older generation and representatives of the nineties generation, challenging the idea that there is a sharp generational break between these groups. Finally, Carney demonstrates that tragic experience is often denied by the social discourse of Englishness and that these playwrights make a crucial critical intervention by dramatizing the tragic.

The Culture of Sensibility G. J. Barker-Benfield, 1992

During the eighteenth century, sensibility, which once denoted merely the receptivity of the senses, came to mean a particular kind of acute and well developed consciousness invested with spiritual and moral values and largely identified with women. How this change occurred and what it meant for society is the subject of G. J. Barker Benfield's argument in favor of a culture of sensibility in addition to the more familiar cult. Barker Benfield's expansive account traces the development of sensibility as a defining concept in literature, religion, politics, economics, education, domestic life and the social world. He demonstrates that the cult of sensibility was at the heart of the culture of middle class women that emerged in eighteenth century Britain. The essence of this culture, Barker Benfield reveals, was its articulation of women's consciousness in a world being transformed by the rise of consumerism that preceded the industrial revolution. The new commercial capitalism, while fostering the development of sensibility in men, helped many women to assert their own wishes for more power in the home and for pleasure in the world beyond. Barker Benfield documents the emergence of the culture of sensibility from struggles over self definition within individuals and, above all, between men and women as increasingly self conscious groups. He discusses many writers from Rochester through Hannah More but pays particular attention to Mary Wollstonecraft as the century's most articulate analyst of the feminized culture of sensibility. Barker Benfield's book shows how the cultivation of sensibility, while laying foundations for humanitarian reforms, generally had as its primary concern the improvement of men's treatment of women. In the eighteenth century, identification

of women with virtue in distress the author finds the roots of feminism to the extent that it has expressed women's common sense of their victimization by men Drawing on literature philosophical psychology social and economic thought and a richly developed cultural background *The Culture of Sensibility* offers an innovative and compelling way to understand the transformation of British culture in the eighteenth century **Early English Text Society (Series).** ,1876 **Modern English Society** Judith Ryder, Harold Silver, 1974
