Walter Winans

Modern Pistol Shooting:

The Modern Pistol and How to Shoot It Walter Winans, 2022-07-31 DigiCat Publishing presents to you this special edition of *The Modern Pistol and How to Shoot It* by Walter Winans. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

The Modern Pistol and How to Shoot It Walter Winans, 2011-01-01 There is now no use learning revolver shooting. That form of pistol is obsolete except in the few instances where it survives for target shooting or is carried for self defence just as flintlock muskets even now survive in out of the way parts of the world. If a man tries to defend himself with a revolver against another armed with an automatic pistol he is at a great disadvantage. The automatic is more accurate than a revolver as the blow back does not vary as much as does the escape of gas past the cylinder in a revolver. The bullet in the revolver has to jump into the cylinder whereas in the automatic it is already fitted up against the rifling before being fired. The single shot pistol is the most accurate of any there being no escape of gas. The automatic has not only a much longer range than the revolver although the popular idea that it can be shot accurately at a thousand yards or more is nonsense but it cocks itself instead of having to be cocked by the thumb or trigger finger. Cocking by trigger pull is such a strain on not only the trigger finger but the whole hand that after a few shots good shooting cannot be made. I won all my rapid firing revolver competitions using the single action and cocking with the thumb as this rested my trigger finger. With the automatic cocking is unnecessary and with its lighter recoil good scores in rapid firing are very much easier to make. The penetration of the nickel coated automatic bullet propelled by its big charge of nitro powder is very great. A man brought me a pistol proof cuirass to test. I put a bullet at twelve yards clean through it and then through two bullet proof ones placed one behind the other. I used a regulation U S 45 Automatic pistol. This was before the war. The inventor was disappointed. He had experimented only with revolvers shooting soft leaden bullets and these his cuirass had stopped. Unfortunately in its present comparatively imperfect development the automatic is the most dangerous firearm of all pistols for a novice to handle. The long barrel of a rifle can be struck aside if a beginner swings it round and points it at the instructor or a nearby spectator but the short barrel of a pistol is easily pointed at and with difficulty brushed aside by the unfortunate person standing near a brandishing and flourishing man who is learning to shoot. In spite of all warnings even those who ought to know better do this swinging about. In fact it is the recognized way of handling a pistol according to reporters they always say. So and so was brandishing a pistol if he happens to be armed.

American Pistol Shooting William D. Frazer, 2015-01-06 The ultimate book for the gun enthusiast and the historian alike. *American Pistol Shooting* is a textbook of old world techniques for successful shooting. The author Major William D Frazer was an incredibly accomplished marksman in his day earning the US Army's Distinguished Marksman badge in 1922. Almost entirely self taught Frazer knew

that the world needed a comprehensive book on pistol shooting technique and he was the man to write that book Brilliantly detailed with sections on caring for your pistols trigger control defensive shooting and quick drawing and even shooting psychology there is something here for everyone First published in the early 1900s almost all of American Pistol Shooting is still relevant today even despite the massive technological changes that have swept across the face of the gun industry The techniques described will help anyone up their game and zero in on their aim Whether practicing alone in the backyard or practicing at the shooting range Major William D Frazer s book is a must have for anyone interested in the sport of shooting and the history of the gun Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts We publish books about shotguns rifles handguns target shooting gun collecting self defense archery ammunition knives gunsmithing gun repair and wilderness survival We publish books on deer hunting big game hunting small game hunting wing shooting turkey hunting deer stands duck blinds bowhunting wing shooting hunting dogs and more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home

Modern Pistol Shooting Peter Cuthbert Freeman,1968 Modern Pistol Shooting P. C. Freeman,1968 American Pistol Shooting William David Frazer,1929 **Automatic Pistol Shooting** Walter Winans,1915 **Automatic Pistol Shooting** Walter Winans,2019-12-03 Walter Winans Automatic Pistol Shooting stands as a seminal work in the realm of firearm training literature providing an exhaustive exploration of the techniques and principles essential for mastering the automatic pistol The book expertly balances technical precision with practical advice employing a clear and engaging style that makes complex concepts accessible to both novices and experienced shooters Within its pages Winans delves into the psychology of shooting aiming mechanics and the importance of practice all while situating his discourse within the growing interest in marksmanship during the early 20th century a period marked by advancements in firearm technology and shooting sports Walter Winans a multifaceted individual known for his prowess in both marksmanship and art was influenced by the cultural milieu of his time which embraced competitive shooting as both a sport and a personal discipline Winans background as a champion shooter coupled with his artistic sensibilities infused his writing with an appreciation for precision and aesthetics allowing him to convey intricate details of shooting technique with clarity and enthusiasm His experiences not only lent authority to his instruction but also showcased his belief in the importance of disciplined practice For those seeking to elevate their shooting skills or gain insights into the art and science of marksmanship Automatic Pistol Shooting is an indispensable resource Winans methodical approach coupled with his engaging narrative invites readers from casual enthusiasts to serious competitors to deepen their understanding of pistol shooting This book is not just a guide it is a tribute to the discipline of shooting making it a must read for anyone interested in the sport **The Modern Day Gunslinger** Don Mann,2010-08-01 A result of twelve years of research The Gunfighter s Bible was written to meet the needs of the gun owner

the experienced shooter those who own a weapon strictly for home and self defense and for the military member who wants to become a better shooter in defense of our country It s also for the law enforcement officer who risks his or her life going against the thugs of our society and for anyone interested in learning the defensive and tactical training techniques from some of the best and most experienced shooters in the world The shooting skills taught in this book carry broad application in civilian law enforcement and military contexts Common criminals terrorists assailants the enemy and threat all will find themselves outgunned in the face of a properly armed and trained gunslinger Members of the armed services government and law enforcement agencies as well as civilians will find that the close range shooting methods addressed in this book can provide a decisive advantage An all encompassing manual that addresses safety equipment tactics and the best practices for all shooters The Gunfighter s Bible is the most all encompassing book on shooting ever published It s a book that in the words of senior special agent and U S government senior weapons and tactics instructor Dick Conger will save lives

Modern Handgun Fundamentals Brad Engmann,2012-02-01 This guide is for shooters of all levels it establishes a strong shooting foundation by solidifying strengths and eliminating weaknesses **The Modern Pistol and how to Shoot it** Walter Winans,James A. Casada,1919 **The Modern American Pistol and Revolver** Arthur Corbin Gould,2022-09-04 Arthur Corbin Gould s The Modern American Pistol and Revolver stands as a seminal work in the domain of firearms literature meticulously unraveling the intricacies of pistol and revolver design usage and historical evolution in America Written with an authoritative yet accessible prose Gould employs a blend of technical detail and engaging narrative to illuminate the advancements in firearm technology and their societal implications during the late 19th and early 20th centuries The book navigates various models mechanisms and the cultural significance of these weapons situating them within the broader context of American life and history during a transformative era Gould a noted firearms expert and enthusiast possessed a unique vantage point as both a journalist and a firearms historian His background in firearms regulation and public safety likely fueled his desire to articulate the profound impact of pistols and revolvers on American society As a contemporary of significant developments in firearms technology Gould captures the zeitgeist of an era where personal liberty and self defense principles were being hotly debated For enthusiasts historians and scholars alike The Modern American Pistol and Revolver is an indispensable reference that not only enriches one s understanding of firearms but also offers insights into the cultural narrative of the United States This work is highly recommended for anyone interested in the intersection of technology personal security and American identity **The Art of Wing Shooting** William Bruce Leffingwell,1894 Pistol and Revolver Shooting A. L. A. Himmelwright,2022-08-01 In Pistol and Revolver Shooting A L A Himmelwright meticulously explores the art and science of handguns providing a comprehensive guide that marries practical instruction with a deep seated respect for the nuances of marksmanship This seminal text is characterized by its clear didactic prose and systematic approach making complex techniques accessible to both novices and seasoned shooters

Set against the backdrop of an evolving American landscape regarding firearms Himmelwright's work reflects contemporary debates on gun safety responsibility and the culture of shooting sports during the early 20th century. A. L. A. Himmelwright was a pivotal figure in the early shooting sport community with years of experience that informed his insightful perspectives. His background in military training and personal passion for marksmanship imbue the book with authority and authenticity. Himmelwright's firsthand knowledge of shooting competitions and firearms maintenance lends invaluable credence to his instructional methods and philosophies, making this work a cornerstone for understanding firearm proficiency. For readers seeking to elevate their skills in pistol and revolver shooting, Himmelwright's guide is an indispensable resource. Rich with practical exercises, safety guidelines, and philosophical reflections on the philosophy of shooting, this book is a must-have for anyone intrigued by the complexities of firearm handling and marksmanship. Engage with Himmelwright's insights to enhance both your technical proficiency and appreciation for the sport.

(Just About) Everything You Should Know About A Handgun DC Vesser, 2018-10-18

Just About Everything You Should Know about a Handgun stresses safety; you can never be too safe with your weapon. I have the heart of a teacher, and sometimes I get to foot stomping. I can promise you whether you have never touched a handgun before or if you grew up with a handgun on your hip, you will learn something from this book. Just About Everything You Should Know about a Handgun tells first-time buyers how to choose a weapon, then it tells you to buy that weapon and then buy another one exactly like the one you just bought. Don't worry, I explain why. In the book Just About Everything You Should Know about a Handgun, we explain necessary equipment for the range and a little of what to expect on the range for your first time. In Just About Everything You Should Know about a Handgun, we talk about murder, both justifiable and excusable. We also talk about deadly force, stand your ground, and duty to retreat. We even talk about flashlights. Bet you gun experts did not see that one coming. Just About Everything You Should Know about a Handgun explains how and when to clean your weapon and talks about storing weapons, cleaning equipment, and ammunition, all together and separately. We discuss different kinds of ammo, what kind of ammo to carry, and what kind of ammo to shoot on the range. We even talk a little about loading and reloading your own ammunition. Just About Everything You Should Know about a Handgun explains what Title 18, United States Code, means to a shooter. We talk about revolver and semiautomatic handgun history, how to grip and draw your weapon, what different stances there are to shoot from, and we train to shoot with both hands. The state laws pertaining to carry, either open or concealed, for all fifty states and five territories of these United States are included in Just About Everything You Should Know about a Handgun. Additionally, there are points of contact in each venue. We discuss operations of a revolver and a semiautomatic handgun. There is a pretty thorough review of holsters and ideas on how you might carry. Just About Everything You Should Know about a Handgun has a section I like to call Gun a Linguist, so I did. I was going to call it Gun Talk, but there are about 253 bazillion references to Gun Talk in Google, so I made up my own word, ergo Gun a Linguist. And of course pictures, lots of pictures. My son told me, "Ya gotta have pictures, Dad. To

Modern Pistol Shooting Introduction

In today's digital age, the availability of Modern Pistol Shooting books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Modern Pistol Shooting books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Modern Pistol Shooting books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Modern Pistol Shooting versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Modern Pistol Shooting books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Modern Pistol Shooting books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Modern Pistol Shooting books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital

libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Modern Pistol Shooting books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Modern Pistol Shooting books and manuals for download and embark on your journey of knowledge?

FAQs About Modern Pistol Shooting Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Modern Pistol Shooting is one of the best book in our library for free trial. We provide copy of Modern Pistol Shooting in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Modern Pistol Shooting. Where to download Modern Pistol Shooting online for free? Are you looking for Modern Pistol Shooting PDF? This is definitely going to save you time and cash in something you should think about.
