New Directions In Greek American Studies

Cyrée Jarelle Johnson

New Directions In Greek American Studies:

New Directions in Greek American Studies Dan Georgakas, Charles C. Moskos, 1991 New Directions in American Religious History Harry S. Stout, D. G. Hart, 1998-01-01 The eighteen essays collected in this book had their origin in a conference of the same title held at the Wingspread Conference Center in October of 1993 Some of the most distinguished scholars in the field were invited to reflect on their specialties in American religious history in ways that summarized where the field is and where it ought to move in the decades to come Organized according to four general ways of looking at religious history places and regions universal themes transformative events and marginal groups and ethno cultural outsiders the essays address a wide range of topics including Puritanism religion and the Civil War Protestantism and economic behavior gender and sexuality in American Protestantism and the contemporary de Christianization of American culture Featuring contributions from David D Hall Donald G Matthews Allen C Guelzo Gordon S Wood Daniel Walker Howe Robert Wuthnow Jon Butler David A Hollinger and others this thought provoking and up to date collection will interest anyone involved in the study of American religion and history *Greeks in Michigan* Stavros K. Frangos, 2012-05-02 The influence of Greek culture on Michigan began long before the first Greeks arrived The American settlers of the Old Northwest Territory had definite notions of Greeks and Greek culture America and its developing society and culture were to be the New Athens a locale where the resurgence in the values and ideals of classical Greece were to be reborn Stavros K Frangos describes how such preconceptions and the competing desires to retain heritage and to assimilate have shaped the Greek experience in Michigan From the padrone system to the church communities Greek institutions have both exploited and served Greek immigrants and from scattered communities across the state to enclaves in Detroit Greek immigrants have retained and celebrated Greek culture *Educating Greek Americans* Fevronia K. Soumakis, Theodore G. Zervas, 2020-05-19 This edited collection considers Greek American formal and informal educational efforts institutions and programs broadly conceived as they evolved over time throughout the United States The book's focus on Greek Americans aims to highlight the vast array of educational responses to local needs and contexts as this distinct yet heterogeneous immigrant community sought to maintain its linguistic cultural and religious heritage for over one hundred years The chapters in this volume amend the scholarly literature that thus far has not only overlooked Greek American educational initiatives but has also neglected to recognize and analyze the community's persistence in sustaining them This book is an important contribution to an understanding of Greek Americans long overdue history as a significant diaspora community within an American context *Modern Greece and the Diaspora Greeks in the United States* George Kaloudis, 2018-02-20 This book examines the history and politics of modern Greece from the early nineteenth century to the present and the presence of diaspora Greeks in the United States during the same approximate period It considers not only the main periods of modern Greek diaspora but also surveys the main historical and political events in modern Greek history Furthermore this book examines the

relationship between Greeks in Greece and Greeks in the United States and how this relationship affected developments in Greece and beyond the confines of Greece

Immigrant and Ethnic-Minority Writers since 1945, 2018-07-17 This study analyses how immigrant and ethnic minority writers have challenged the understanding of certain national literatures and have markedly changed them In other national contexts ideologies and institutions have contained the challenge these writers pose to national literatures Case studies of the emergence and recognition of immigrant and ethnic minority writing come from fourteen national contexts These include classical immigration countries such as Canada and the United States countries where immigration accelerated and entered public debate after World War II such as the United Kingdom France and Germany as well as countries rarely discussed in this context such as Brazil and Japan Finally this study uses these individual analyses to discuss this writing as an international phenomenon Sandra R G Almeida Maria Zilda F Cury Sarah De Mul Sneja Gunew Dave Gunning Kristina Iwata Weickgenannt Martina Kamm Liesbeth Minnaard Maria Oikonomou Wenche Ommundsen Marie Orton Laura Reeck Daniel Rothenb hler Cathy J Schlund Vials Wiebke Sievers Bettina Spoerri Christl Verduyn Sandra Vlasta

Women and Work Sonia Carreon, Amy Cassedy, Kathryn Borman, Paula J. Dubeck, 2013-11-26 Focuses on vital contemporary issues Women in the work force today are still subjected to the glass ceiling sexual discrimination income inequality stereotyping and other obstacles to equal employment and professional advancement Now a collection of 150 original articles written for this handbook explores the challenges and career blocks that today s women face in the workplace discuss important contemporary issues and offers a wide range of facts and data on women s employment Offers insights and information The Handbook answer hundreds of questions as it illuminates current achievements and obstacles to success for women in the marketplace Drawing upon a growing body of research in the social and behavioral sciences the articles provide insights into such issues as the sex segregation of occupations comparable worth women in traditionally male occupations career plans of college women gender bias in job evaluations and personnel decisions sexual harassment the gendered culture of organizations the effects of maternal employment on children and child care and more The articles draw on extensive research and studies on women in the workplace across the U S and around the world A valuable research aid This handbook presents the reader with a broadly based understanding of women s work experiences and provides a useful set of sources for in depth research It is a valuable reference for professors librarians researchers guidance counselors and students who need reliable up to date information The handbook includes a subject and name index

Hellenisms Katerina Zacharia, 2016-12-14 This volume casts a fresh look at the multifaceted expressions of diachronic Hellenisms A distinguished group of historians classicists anthropologists ethnographers cultural studies and comparative literature scholars contribute essays exploring the variegated mantles of Greek ethnicity and the legacy of Greek culture for the ancient and modern Greeks in the homeland and the diaspora as well as for the ancient Romans and the modern Europeans Given the scarcity of books on diachronic Hellenism in the English speaking world the publication of this

volume represents nothing less than a breakthrough The book provides a valuable forum to reflect on Hellenism and is certain to generate further academic interest in the topic The specific contribution of this volume lies in the fact that it problematizes the fluidity of Hellenism and offers a much needed public dialogue between disparate viewpoints in the process making a case for the existence and viability of such a polyphony The chapters in this volume offer a reorientation of the study of Hellenism away from a binary perception to approaches giving priority to fluidity hybridity and multi vocality The volume also deals with issues of recycling tradition cultural category and perceptions of ethnicity Topics explored range from European Philhellenism to Hellenic Hellenism from the Athens 2004 Olympics to Greek cinema from a psychoanalytical engagement with anthropological material to a subtle ethnographic analysis of Greek American women s material culture The readership envisaged is both academic and non specialist with this aim in mind all quotations from ancient and modern sources in foreign languages have been translated into English **Labor Visions and State Power** Victoria C.

Hattam,2014-07-14 Why has labor played a more limited role in national politics in the United States than it has in other advanced industrial societies Victoria Hattam demonstrates that voluntarism as American labor s policy was known was the American Federation of Labor s strategic response to the structure of the American state particularly to the influence of American courts The AFL s strategic calculation was not universal however This book reveals the competing ideologies and acts of interpretation that produced these variations in state labor relations Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Cinema of Theo Angelopoulos** Angelos Koutsourakis,2015-10-08 Bringing together established and emerging scholars from multiple disciplines the collection s unique contribution is to show how Angelopoulos created

singularly intricate forms whose aesthetic contours invite us to think critically about modern history **Narratives of Place, Culture and Identity** Anastasia Christou,2025-10-01 Christou explores the phenomenon of return migration in Greece through the settlement and identification processes of second generation Greek American returning migrants She examines the meanings attached to the experience of return migration The concepts of home and belonging figure prominently in the return migratory project which entails relocation and displacement as well as adjustment and alienation of bodies and selves Furthermore Christou considers the multiple interactions social cultural political between the place of origin and the place of destination network ties historical and global forces in the shaping of return migrant behaviour and expressions of identity The human geography of return migration extends beyond geographic movement into a diasporic journey involving re constructions of homeness and belongingness in the ancestral homeland *How Greek Immigrants*

Made America Home Cyrée Jarelle Johnson, 2018-07-15 Written by a descendent of Greek immigrants this book explores the stories behind leaving the mountains and islands of Greece throughout its recent tumultuous history Many of those emigrants came to the sprawling cities and countryside of the United States This book explores how Greek Americans did much to overcome war family conflicts exploitative labor practices restrictive xenophobic quotas and generational identity differences to become part of the American experiment The history of how Greeks became Americans through these contemplations of the problems that immigration poses will activate the reader's critical thinking skills They will recognize that these problems are relevant today

Making It in America Elliott Robert Barkan, 2001-05-01 This collection of over 400 biographies of eminent ethnic Americans celebrates a wide array of inspiring individuals and their contributions to U S history The stories of these 400 eminent ethnic Americans are a testimony to the enduring power of the American dream These men and women from 90 different ethnic groups certainly faced unequal access to opportunities Yet they all became renowned artists writers political and religious leaders scientists and athletes Kahlil Gibran Daniel Inouye Zbigniew Brzezinski Thurgood Marshall Madeleine Albright and many others are living proof that the land of opportunity sometimes lives up to its name Alongside these success stories as historian Elliot R Barkan notes in his introduction to this volume there have been many failures and many immigrants who did not stay in the United States Nevertheless the stories of these trailblazers visionaries and champions portray the breadth of possibilities from organizing a nascent community to winning the Nobel prize They also provide irrefutable evidence that no single generation and no single cultural heritage can claim credit for what America is

Greek Diaspora and Migration since 1700 Dimitris Tziovas, 2016-04-22 The Greek diaspora is one of the paradigmatic historical diasporas Though some trace its origins to ancient Greek colonies it is really a more modern phenomenon Diaspora exile and immigration represent three successive phases in Modern Greek history and they are useful vantage points from which to analyse changes in Greek society politics and culture over the last three centuries Embracing a wide range of case studies this volume charts the role of territorial displacements as social and cultural agents from the eighteenth century to the present day and examines their impact on communities politics institutional attitudes and culture By studying migratory trends the aim is to map out the transformation of Greece from a largely homogenous society with a high proportion of emigrants to a more diverse society inundated by immigrants after the end of the Cold War The originality of this book lies in the bringing together of diaspora exile and immigration and its focus on developments both inside and outside Greece

Transatlantic Subjects Ioanna Laliotou, 2004-01-15 The early twentieth century was marked by massive migration of southern Europeans to the United States *Transatlantic Subjects* views this diaspora through the lens of Greek migrant life to reveal the emergence of transnational forms of subjectivity According to Ioanna Laliotou cultural institutions and practices played an important role in the formation of migrant subjectivities Reconstructing the cultural history of migration her book points out the relationship between subjectivity formation and cultural practices and performances such as publishing

reading acting storytelling consuming imitating parading and traveling Transatlantic Subjects then locates the development of these practices within key sites and institutions of cultural formation such as migrant and fraternal associations educational institutions state agencies and nongovernmental organizations mental institutions coffee shops the church steamship companies banks migration services and chambers of commerce Ultimately Laliotou explores the complex and situational entanglements of migrancy cultural nationalism and the politics of self Reading against the grain of hegemonic narratives of cultural and migration histories she reveals how migrancy produced distinctive forms of sociality during the first half of the twentieth century

Hoover vs. Roosevelt Hal Elliott Wert, 2023-01-01 Herbert Hoover out of office since his defeat in 1932 by Franklin Roosevelt maintained a strong international reputation due to his achievements as an engineer and his success during World War I and beyond in organizing aid for the starving millions of Europe And yet in nearly all accounts of the ferocious debate over American aid to Europe before the United States entered World War II Hoover's role has been overlooked Hoover vs Roosevelt tells the story of American efforts to stay out of war following the German invasion of Poland Historian Arthur Schlesinger Jr called it the most savage political debate of my lifetime Both men fiercely disagreed on how to respond but the heart of their disagreement was over aid for the huge numbers of Polish refugees flooding into neighboring countries and those that were left behind Hoover found Roosevelt's policy of limited emergency aid unacceptable countering by rapidly assembling teams comprised of talented people who had served in prior Hoover relief organizations Here for the first time are the courageous stories of those that achieved that success in Romania Hungary and Lithuania When the Soviets invaded Finland on November 30 Hoover assisted the Finns by conducting a Hollywood star studded campaign spearheading nation wide support for this small country But Hoover's relief efforts were complicated by his burning ambition to obtain the Republican presidential nomination a second opportunity to defeat Roosevelt For Roosevelt Hoover's relief successes threatened to derail his limited aid policy which aimed to conserve resources to assist Britain and France and could also cost the president votes Politics aside Hoover wars in the first year of the war succeeded in forcing Roosevelt to provide far more aid than intended Hoover's victory the only one achieved in his battles with Roosevelt accomplished relief for hundreds of thousands in need Widely and deeply researched in an array of rarely used secondary and primary sources both domestic and international Hoover vs Roosevelt reveals the story of the two contenders battles over feeding Europe and going to war

The Necessary Nation Gregory Jusdanis, 2011-06-27 In this controversial look at nationalism Gregory Jusdanis offers a sweeping defense of the nation as a protector of cultural difference and a catalyst for modernization Since the end of the Cold War the nation state has undergone intense scrutiny among critics in the media and the academy Many believe that civic nationalism may be fruitful but that cultural nationalism fosters xenophobia and backward thinking Jusdanis however emphasizes the positive collaboration between nation building and culture Through a series of critical readings of multicultural postcolonial and globalization theories the author reveals how nationalism enables

people to defend their distinctive ways of life to fight colonial oppression and to build an independent society of citizens He explains why people over the last two hundred years have politicized their ethnic identities and have sought a union of culture and power within an autonomous nation state While seeking to defend nationalism Jusdanis also examines its potential to unleash extraordinary violence into the world He thus proposes federalism as a political solution to the challenges posed by nationalism and globalization Jusdanis applies the tools of disciplines ranging from anthropology to philosophy as he explores the nation building projects of numerous and diverse countries around the world What emerges is a fresh perspective on the subjects of national culture identity political nations globalization postcolonialism and diaspora

The Mediterranean in Music David Cooper, Kevin Dawe, 2005-03-22 The most recent scholarship available in the field of Ethnomusicology is presented in this collection of essays which seeks to reveal the commonality of traditional music in the Mediterranean region An interdisciplinary approach to the study embraces not only musicology and ethnology but also material culture considerations In spite of the complexity of the topic treated here care has been taken to use simple readable language that will be relevant to serious musicologists and general readers alike

Communities Across Borders Paul Kennedy, Victor Roudometof, 2003-08-27 Communities across Borders examines the many ways in which national ethnic or religious groups professions businesses and cultures are becoming increasingly tangled together It shows how this entanglement is the result of the vast flows of people meanings goods and money that now migrate between countries and world regions Now the effectiveness and significance of electronic technologies for interpersonal communication including cyber communities and the interconnectedness of the global world economy simultaneously empowers even the poorest people to forge effective cultures stretching national borders and compels many to do so to escape injustice and deprivation

Race and Labor in Western Copper Philip J. Mellinger, 2022-04-05 This is the story of immigrant copper workers and their attempts to organize at the turn of the century in Arizona New Mexico Nevada Utah and El Paso Texas These Mexican and European laborers of widely varying backgrounds and languages had little social economic or political power Yet they achieved some surprising successes in their struggles all in the face of a racist society and the unbridled power of the mine owners Mellinger's book is the first regional history of these ordinary working people miners muckers millhands and smelter workers who labored in the thousands of mountain and desert mining camps across the western heartland early in this century These men largely uneducated frequently moving from camp to camp subjected to harsh and dangerous conditions often poorly paid nevertheless came together for a common purpose They came from Mexico from the U S Hispanic Southwest and from several European countries especially from Greece Italy the former Yugoslavia and Spain They were far from a homogeneous group Yet in part because they set aside ethnic differences to pursue cooperative labor action they were able to make demands plan strikes carry them out and sometimes actually win They also won the aid of the Western Federation of Miners and the more radical Industrial Workers of the World After initial rejection

they were eventually accepted by mainstream unionists Mellinger discusses towns mines camps companies and labor unions but this book is largely about people In order to reconstruct their mining community lives he has used little known union and company records personal interviews with old time workers and their families and a variety of regional sources that together have enabled him to reveal a complex and significant pattern of social economic and political change in the American West

This book delves into New Directions In Greek American Studies. New Directions In Greek American Studies is a vital topic that must be grasped by everyone, from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into New Directions In Greek American Studies, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to New Directions In Greek American Studies
 - Chapter 2: Essential Elements of New Directions In Greek American Studies
 - Chapter 3: New Directions In Greek American Studies in Everyday Life
 - Chapter 4: New Directions In Greek American Studies in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, this book will provide an overview of New Directions In Greek American Studies. This chapter will explore what New Directions In Greek American Studies is, why New Directions In Greek American Studies is vital, and how to effectively learn about New Directions In Greek American Studies.
 3. In chapter 2, this book will delve into the foundational concepts of New Directions In Greek American Studies. This chapter will elucidate the essential principles that need to be understood to grasp New Directions In Greek American Studies in its entirety.
 4. In chapter 3, this book will examine the practical applications of New Directions In Greek American Studies in daily life. The third chapter will showcase real-world examples of how New Directions In Greek American Studies can be effectively utilized in everyday scenarios.
 5. In chapter 4, the author will scrutinize the relevance of New Directions In Greek American Studies in specific contexts. The fourth chapter will explore how New Directions In Greek American Studies is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, this book will draw a conclusion about New Directions In Greek American Studies. The final chapter will summarize the key points that have been discussed throughout the book.
- The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of New Directions In Greek American Studies.
