Steinberg, 2016-12-27 The classic reference work that provides annually updated information on the countries of the world *Degei's Descendants* Matthew Spriggs, Deryck Scarr, 2014-08-01 Dr Parke's monograph examines how Fijians especially in western areas of Fiji currently understand and explain the origins and development of the social and political divisions of late pre colonial

traditional Fijian society It assesses the reasoning consistency and where possible the historical accuracy of such understandings The oral history research which forms the backbone of the study was conducted in either standard Fijian or one or other of the western Fijian dialects with which Dr Parke was familiar The period on which the monograph concentrates is the two centuries or so immediately prior to the Deed of Cession on 10 October 1874 A number of the major chiefs of Fiji had offered to cede Fiji to Queen Victoria and after the offer had been accepted Fiji became a British Crown Colony on that day The volume will be of interest to all archaeologists anthropologists and historians with an interest in Fiji It will also be of wider interest to Pacific Studies scholars and those of British colonial history as well as historians with a wider interest in indigenous traditional histories and their role in governance today *The Statesman's Year-Book* 1962 S.

anthropologists studying different cultures had mainly confined themselves to the behaviour and idea systems of adults Psychologists on the other hand working mainly in Europe and America had studied child development in their own settings and simply assumed the universality of their findings Thus both disciplines had largely ignored a crucial problem area the way in which children from birth onwards learn to become competent members of their culture This process which has been called the quintessential human adaptation constitutes the theme of this volume originally published in 1988 It derives from a workshop held at the London School of Economics which brought together fieldworkers who in their studies had paid more than usual attention to children in their cultures Their experience and foci of interest were varied but this very diversity serves to illuminate different facets of the acquisition of culture by children ranging in age from pre verbal infants to adolescents Evolutionarily primed for culture learning children are responsive to a rich web of influences from subtle and indirect as in their music and dance to direct teaching in the family guided by culture specific ideas about child psychology Some of the salient things they learn relate to gender status and power critical for the functioning of all societies The introductory essay provides the necessary historical background of the development of child study in both anthropology and psychology and outlined how future research in the ethnography of childhood should proceed The book concludes with an annotated bibliography providing a guide to the literature from 1970 onwards **The Statesman's Year-Book** S.

Neither Cargo Nor Cult Martha Kaplan, 1995-06-15 In the 1880s an oracle priest Navosavakadua mobilized Fijians of the hinterlands against the encroachment of both Fijian chiefs and British colonizers British officials called the movement the Tuka cult imagining it as a contagious superstition that had to be stopped Navosavakadua and many of his followers deemed dangerous and disaffected natives were exiled Scholars have since made Tuka the standard example of the Pacific cargo cult describing it as a millenarian movement in which dispossessed islanders sought Western goods by magical means In this study of colonial and postcolonial Fiji Martha Kaplan examines the effects of narratives made real and traces a complex history that began neither as a search for cargo nor as a cult Engaging Fijian oral history and texts as well as colonial records Kaplan resituates Tuka in the flow of indigenous Fijian history making and rereads the archives for an ethnography of British colonizing power Proposing neither unchanging indigenous culture nor the inevitable hegemony of colonial power she describes the dialogic relationship between plural contesting and changing articulations of both Fijian and colonial culture A remarkable ethnographic account of power and meaning *Neither Cargo nor Cult* addresses compelling questions within anthropological theory It will attract a wide audience among those interested in colonial and postcolonial societies ritual and religious movements hegemony and resistance and the Pacific Islands **Text and Context** Melanie Baffes, 2018-10-24 As biblical hermeneutics moves increasingly toward the inclusion of vernacular approaches to the text understandings of the Bible based on culture context and human experience many communities of faith around the world are contributing their voices to the conversation of global Christianity This volume explores reading methods and text interpretations of believers in South Africa the Caribbean Spain the Netherlands the United States India Kenya Fiji Japan the United Kingdom New Zealand and Nigeria revealing the ways various faith communities read the Bible contextually Essays in this volume also illustrate the impact of the biblical text in people's lives on their understandings of oppression identity the plight of refugees decline and loss the relationship between church and society imperialism homelessness restorative justice bodily experiences of the Holy Spirit and time and the future Together these writings provide an in depth sense of how global Christians read the Bible through the lens of their own tradition or culture as well as how the Bible informs all aspects of their lives as they read the world biblically
